

# Professional Liability and Workers' Compensation Insurance

Students are covered by RVU's professional liability and workers' compensation insurance for all RVU-sponsored curricular and co-curricular activities, including rotations, shadowing, health fairs, etc. Any student who is injured while on campus or clinical rotation should seek appropriate care immediately and notify the Program. The Program will direct the student to the appropriate department to ensure a workers' compensation claim is generated. Students are not covered for non-RVU activities.
