

OST 3010 : OPP Clinical Integration

This course builds upon the foundation of the principles and philosophies of osteopathic medicine established during the Osteopathic Principles and Practice I-IV courses. The goal of this course is to expand students' osteopathic knowledge base and apply new and previously learned techniques to the overall care of patients. The format will include online modules and associated quizzes that correspond to core clerkships as well as interactive OPP sessions.

Credits 1

Prerequisites

Successful completion of all pre-clinical (Year 1 and Year 2) coursework and passing score on COMLEX Level 1
