Introduction

A Message from the President

This year’s Rocky Vista University Student Handbook and Catalog is published as we celebrate many successes as an institution. This past year, Master of Physician Assistant Studies (PA) program received a 10-year accreditation from ARC-PA, their programmatic accreditor. Additionally, the Montana College of Osteopathic Medicine went from a dream to a reality. The Master of Science in Biomedical Sciences (MSBS) program continues to be the largest feeder program to RVUCOM. Rocky Vista University College of Osteopathic Medicine achieved a record number of students (287) successfully entering residency programs. Finally, we added a new masters’ program, the Master of Medical Science on our Montana campus. RVU students and faculty are helping us reach our vision of “Achieving New Heights in Medical Education”

By every measure, RVU faculty and students are delivering on the promises contained in our university Mission Statement: “Rocky Vista University provides quality healthcare education while inspiring students to serve with compassion, integrity, and excellence”. RVU students are leaders in national organizations, and in student outcomes: whether it is acceptance into and performance in medical school by our MSBS students, Physician Assistant National Certifying Exam pass rate and job placement by our PA students, or COMLEX pass rate and residency match success, our students are leading the way.

The administration and faculty of RVU remains dedicated to the students and student experience. We know that healthcare education is challenging and at times overwhelming and we are committed to providing the support services that students need.

At Rocky Vista University we embrace core values of integrity, collegiality, compassion, diversity, equity, excellence, inclusivity, service, and innovation. You will find these values every day during your time at RVU. That are meant to be inspirational, aspirational, and living declarations of who we are.

Please take the time to carefully review the material presented in this RVU Student Handbook and Catalog, as it includes information every student is expected to be familiar with, in addition to being an excellent resource.

Wishing each of you a successful year ahead.

Sincerely,

Warm regards,
David Forstein, DO, FACOOG
President and CEO
Rocky Vista University

A Message from the Provost

Welcome back returning students, and a warm welcome to the entering classes for this upcoming Academic Year!

As I approach a full year as Provost and Chief Academic Officer at Rocky Vista University (RVU) I am filled with a sense of gratitude. I have been fortunate to
spend most of my career in higher education affiliated with universities that have vibrant colleges of osteopathic medicine along with outstanding graduate health science programs. I bring experience and expertise that will further contribute to the RVU mission, vision, and strategic plan.

The Office of the Provost directly oversees all academic programs along with many of the offices and departments that support the colleges, programs, and student services. Please feel free to engage with me on topics related to the academic environment. I meet regularly with student groups and attend events on all three of our campuses. I hope to talk with as many of you as I can. Please also rely on each other to not only help navigate the rigorous curricula, but to maintain your health and wellness. Utilize this peer network along with the variety of offices and services that are here to support you and your education. Be proactive and seek help and guidance from the faculty and staff.

RVU’s core values initially attracted my attention, and our diverse community and dynamic educational programs solidified my decision to accept the position of Provost. One of the core values of the institution is Excellence and “the commitment to exceed expectations in education.” The student success outcomes in each of RVU’s established programs demonstrates the quality of the faculty and staff who work together to support your education and the attainment of your long-term career goals.

Compassion and Service are additional core values of RVU. I have been fortunate to observe first-hand the work our students do in the community. Various co-curricular and extracurricular activities contribute to experiential learning and hone your innate level of empathy and compassion towards fellow human beings. Our RVU community embraces diversity and understands the importance of inclusive excellence as we treat all members of our society with respect, equity, and dignity. Our three distinct campuses and the unique communities they serve further enrich the diversity of RVU.

The RVU educational experience has many innovative features, including tracks and electives that allow customization of your education, the use of cutting-edge technology that is integrated into the classroom and laboratories, and the ability to conduct original research and scholarship alongside faculty mentors. I encourage you to fully explore and contribute to the innovative culture of RVU.

Rocky Vista University is a dynamic institution, and you are witnessing the exciting growth of the campuses. We are further investing in existing programs while starting new ones that will contribute to the interprofessional education experience. In 2023, we launched a journal (Articulate) in which you will have the opportunity to submit original scholarship that will go through a peer-reviewed process.

Our RVU Student Handbook and Catalog is a resource to help you navigate these services and work within the structure of the institution. Please familiarize yourself with the contents and utilize it as a resource when questions arise on a policy or procedure.

Wishing each of you a successful year ahead.

With respect and sincerity,

Ed Bilsky, Ph.D.
Provost and Chief Academic Officer
Professor of Neuroscience and Pharmacology
Rocky Vista University

About

Mission, Vision Statement and Core Values

Mission
Rocky Vista University provides quality healthcare education while inspiring students to serve with compassion, integrity and excellence.

Vision Statement
Achieving New Heights in Medical Education.

Core Values

Collegiality
Mutual respect, collaboration, and the open exchange of ideas advance mutual goals and facilitate individual growth.

Compassion
The willingness to be engaged with the needs of others.

Diversity
The recognition, reflection, and representation of individual differences within a community including, but not limited to culture, race, age, ethnicity or national origin, color, sex, gender, gender identity, sexual orientation, religious beliefs, spiritual practices, political beliefs, mental and physical ability, socioeconomic status, individual life experiences, or other ideologies.
Equity
The implementation of unbiased policies and practices to ensure everyone has access to opportunities along with needs-based distribution of resources to obtain positive outcomes so that all individuals and groups may attain their full potential and no one is deprived regardless of identity, abilities, background, or socially determined circumstances.

Excellence
The commitment to exceed expectations in education.

Inclusivity
The dynamic process of creating a welcoming environment that increases awareness, knowledge, and empathetic understanding to enable individuals with diverse backgrounds, abilities, insights, and experiences to interact in an open, fair, respectful, equitable, and collaborative fashion.

Innovation
Delivering new and creative ways to provide healthcare education while consistently demonstrating compassion, integrity, and excellence.

Integrity
The quality of living a unified life in which one’s convictions are well-considered and match one’s actions, demonstrating fairness, honesty, sincerity, professionalism, and a consistent commitment to our mission, vision, and values.

Service
Through active service, we support one another and seek to meet the needs of the larger community.

University Administration
David Forstein, DO, FACOOG
President and Chief Executive Officer (CEO)
DO, Philadelphia College of Osteopathic Medicine

Edward (Ed) Bilsky, PhD
Provost and Chief Academic Officer
PhD, University of Arizona

Kat Abernathy, MSOL, GPHR, PHR, CPA
Vice President of Human Resources
MSOL, Colorado State University Global

Heather Ferrill, DO, MS, MEdL
Vice President of Faculty Affairs and Dean of RVUCOM (Colorado and Utah)
DO, Michigan State University College of Osteopathic Medicine
MEdL, University of New England College of Osteopathic Medicine

David Irons, CPA, MBA
Vice President of Finance and Controller
CPA, State of Colorado
MBA, Colorado Technical University

Kayla Manning, MBA
Vice President of Marketing and Enrollment Management
MBA, University of Florida

Janna L. Oakes, PhD
Vice President of Institutional Effectiveness
PhD, University of Denver

David Park, DO, FAAFP, FACOFP
Vice President and Founding Dean of MCOM
DO, New York Institute of Technology College of Osteopathic Medicine

Julie Rosenthal, MS
Vice President of External Relations and Development
MS, Roosevelt University

Jesús Treviño, PhD
Vice President of Diversity, Equity, and Inclusion
PhD, University of California Los Angeles

Accreditations
Institutional Accreditation
Rocky Vista University (RVU) is accredited by the Higher Learning Commission (HLC).
HLC accredits degree-granting post-secondary educational institutions in the United States. HLC is an institutional accreditor, accrediting the institution as a whole. At its meeting on May 1, 2018, the Institutional Actions Council (IAC) of the Higher Learning Commission voted to continue the accreditation of Rocky Vista University with the next comprehensive evaluation to be scheduled for 23-24. HLC is an independent corporation that was founded in 1895 as one of six regional accreditors in the United States. For further information please contact the Higher Learning Commission at 230 South LaSalle Street, Suite 7-500, Chicago, IL 60604; or (800) 621-7440.

State Authorizations
Rocky Vista University has full authorization from the state agencies listed below to operate its campuses in Colorado, Utah, and Montana.

Colorado Department of Higher Education
1560 Broadway, Suite 1600
Denver, CO 80202
303-862-3001
Specialized Program & Center Accreditations

Specialized program accreditation agencies accredit specific academic programs within an institution of higher learning. These program accreditations ensure that individuals who successfully complete an RVU degree program are eligible to sit for relevant licensure examinations. Rocky Vista University’s programs and centers hold the specialized program accreditations listed below. Completion of

Doctor of Osteopathic Medicine

The Doctor of Osteopathic Medicine program offered at RVU’s Colorado, Utah, and Montana campuses have been granted Accreditation - Continued status by the Commission on Osteopathic College Accreditation (COCA) of the American Osteopathic Association (AOA). For further information please contact COCA at 142 E. Ontario St., Chicago, IL 60611; or (800) 621-1773; email: predoc@osteopathic.org

Master of Physician Assistant Studies

The Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA) has granted Accreditation-Continued status to the Rocky Vista University Physician Assistant Program sponsored by Rocky Vista University. Accreditation-Continued is an accreditation status granted when a currently accredited program is in compliance with the ARC-PA Standards.

Accreditation remains in effect until the program closes or withdraws from the accreditation process or until accreditation is withdrawn for failure to comply with the Standards. The approximate date for the next validation review of the program by the ARC-PA will be March 2033. The review date is contingent upon continued compliance with the Accreditation Standards and ARC-PA policy.

The program’s accreditation history can be viewed on the ARC-PA website here.

Rocky Vista University Surgical Simulation Center

RVU has the distinction of being recognized as a Comprehensive Accredited Education Institute (AEI) by the American College of Surgeons and is the only osteopathic medical school to receive this prestigious accreditation. This consortium of high-quality programs around the world sets the standard for excellence and innovation in simulation-based education. Our designation includes both Colorado and Utah campuses. For further information please click on the link below or contact the ACS at 633 N. Saint Clair Street, Chicago, IL 60611; or (312) 202-5000.

University Policies

Note: Individual program policies may differ from University policies. Please review policies listed under the specific programs.

Anatomy Laboratory Expectation for Participants

Cadaveric specimens that are used in Anatomy Labs are obtained from individuals who recognized the importance of human dissection in the training of future healthcare professionals. The donor bodies must always be treated with respect. Students are expected to follow all policies in the RVU Gross Anatomy Laboratory Policies and Procedures document. Students who break confidentiality of donor identity, disrespect donors, who purposefully destroy tissues in a manner inconsistent with the dissector, or who fail to maintain their donor by using wetting solution and maintenance procedures appropriately will lose their Gross Anatomy Laboratory privileges and may be referred to the Associate/Assistant Dean of Student Affairs for review and possible disciplinary action as indicated. If allowed to continue in the curriculum, these
students may be required to complete the remainder of Gross Anatomy Laboratory coursework for the academic year using alternative but equivalent learning and assessment materials.

Colorado Campus
Rocky Vista does not currently operate its own body donation program. Those individuals interested in donating their bodies for the medical education of young doctors can donate through the State Anatomical Board of Colorado.

State Anatomical Board
Phone: (8 am–4 pm): 303-724-2410
Website

Montana Campus
Rocky Vista does not currently operate its own body donation program. Those individuals interested in donating their bodies for the medical education of young doctors can donate through the State Anatomical Board of Colorado.

State Anatomical Board
Phone: (8 am–4 pm): 303-724-2410

Utah Campus
Rocky Vista does not currently operate its own body donation program. Those individuals interested in donating their bodies for the medical education of young doctors on our campus can donate through the University of Utah’s Body Donor Program and request that your donation is sent to our campus.

For questions about body donation through the University of Utah please call, email, or write to:

Kerry Peterson
Body Donor Program
520 Wakara Way, SLC, Utah 84112
Phone: (8 am–4 pm): 801-581-6728
Phone: (after hours, weekends, & holidays): 801-581-2121
Email: bodydonor@lists.utah.edu
Website

CLERY Act
Rocky Vista University shares many of the same interests and concerns as other colleges and communities, including a concern about crime. The University has been fortunate not to have experienced a significant number of crimes, but one should not be misled into thinking the campus is crime-free. There is always the possibility of a criminal act occurring against a member of the RVU community despite the best efforts of the Safety and Security Department and the administrative staff. A truly safe campus can only be achieved through the shared responsibility of all members of the RVU community.

The University is committed to maintaining a safe environment to support a healthy, learning-centered campus. This commitment includes making necessary physical improvements that promote safety and well-being; the revision and updating of policies, procedures, and rules; and an obligation to hold accountable those who choose to commit crimes or violate rules and regulations.

Every student, faculty, staff member, and visitor has an individual responsibility to be aware of their personal safety, to properly utilize college resources, to make positive choices, and to use common sense. Crimes, violations, hate crimes, suspicious persons or activity, and safety issues should be reported upon discovery through the appropriate channels as described in this Handbook. Please take the time to familiarize yourself with the emergency procedures and the important information on the website. Updates, timely warnings, and important information regarding safety on campus will be communicated by emails, fliers, TV monitors, and other presentations.

For more information, view the RVU Annual Security Report.

To obtain a copy of the Daily Crime Log, please visit the Security Office on either campus.

Disabilities and Academic Accommodations
Rocky Vista University recognizes disability as an integral part of diversity and is committed to creating an inclusive and equitable educational environment for students with disabilities. Students are required to meet the technical standards set forth by the college/program in which they are enrolled, with or without reasonable accommodations. RVU complies with federal and state law prohibiting discrimination against any applicant or enrolled student on the basis of race, color, religion, sexual preference, age, disability, or other protected status. In accordance with its obligations under the Americans with Disabilities Act of 1990 and Section 5.04 of the Rehabilitation Act of 1973, RVU does not discriminate against qualified individuals with disabilities in admission or in access to programs and activities.

Students who may qualify for accommodations include those who have received accommodations previously or who have been diagnosed with a condition impacting
one or more major life activities (such as caring for oneself, performing manual tasks, learning, walking, seeing, hearing, breathing, and working). Although students with temporary illness or injury are not considered disabled by law, every reasonable effort to accommodate their needs will be exercised.

If you feel you meet these criteria or would like to discuss your eligibility for accommodations, you are encouraged to complete our registration form.

Requests for accommodations and services are evaluated on an individual, case-by-case basis and are dependent on a student’s functional limitations within a given environment. Through an interactive dialog facilitated by Disability Services, all relevant factors, including the impact of the disability on the student’s access to a course or a program, supporting clinical or diagnostic documentation, and the relevant learning outcomes of the given program, will be considered. Requests for accommodations that would result in an alteration of the fundamental nature or learning outcome of a course or a program are not reasonable and will not be approved.

Clinical documentation or other diagnostic information submitted to Disability Services is kept confidential and is released to a third party only with the student’s written permission or as required by law. General information about a student’s disability and accommodation request/s, however, may be shared with other RVU officials or, in limited circumstances, with third parties who have a legitimate educational need to know. The student’s disabilities file is maintained by the RVU Disability Officer and is held separately from the student’s official academic record.

Students requesting accommodations must follow the process outlined below.

**Accommodations Request Process**

**Step 1: Complete the Initial Accommodation Request Form**

It is the student's responsibility to initiate the process with Disability Services as soon as possible after committing to attend RVU, in order to ensure timely approval and implementation of approved accommodations. While requests may be submitted at any point throughout the year, students should consider that the interactive process, including documentation review and eligibility notification, typically requires two (2) weeks. Incomplete documentation may delay the review process.

**Step 2: Schedule an Appointment with Disability Services**

After submitting your Initial Accommodation Request Form, you will receive an email with a link to schedule your Welcome Meeting with Disability Services.

Meetings can be held virtually for students on either campus or in-person for students on the Utah campus.

Our first priority is meeting with you. Please do not delay submitting your request due to documentation concerns. The Disability Officer will discuss acceptable types of documentation during your Welcome Meeting, if you are initially unsure what you may submit.

**Step 3: Welcome Meeting**

The Welcome Meeting is the beginning of an interactive process in which the Disability Officer will talk with you about disability-related barriers you may be experiencing, any history of accommodations you may have, as well as possible accommodations that may be reasonable and appropriate in your situation. You will also have the opportunity to ask questions, provide information and otherwise engage with the Disability Officer to understand how accommodations work within a medical education setting and what to expect relative to next steps in the process of establishing your eligibility.

**Step 4: Documentation Review and Notification of Eligibility Determination**

Upon receipt of the Initial Contact Form-Request for Accommodations and other supporting documentation, the student's eligibility for accommodations will be reviewed and the student will receive a Notification of Eligibility Determination. The eligibility notification will specify the accommodations for which the student has been approved, and copies will be sent to the Office of Testing and appropriate RVU officials. Once approved for accommodations, the Testing Center will send out instructions for the administration and location of exams with accommodations.

Sometimes a student may be asked to provide additional comprehensive documentation/information if previous documentation is outdated or does not include sufficient relevant information to determine the impact of the disability. Last-minute submission of documentation may result in unavoidable delays in consideration of requested services.

Please note that accommodations granted by the University are not applicable retroactively and will not affect past administrative or academic actions, or past performance evaluations and examinations.

**Annual Accommodation Renewal Process**

Students must request to renew their accommodations at the start of each academic year. Failure to request a renewal of accommodations may delay timely
implementation. In order to verify their intent to continue using accommodations in subsequent academic years, students should complete the Accommodation Renewal Request Form prior to the first day of Fall semester instruction.

National Board Accommodations

Students seeking accommodations for licensure exams (USMLE, COMLEX, and PANCE) must directly petition the National Board of Medical Examiners (NBME), the National Board of Osteopathic Medical Examiners (NBOME), or the National Commission on the Certification of Physician Assistants (NCCPA).

ADA Accommodation Review Request

If you have concerns about the support provided by Disability Services or related procedures, or if you believe that you have been denied reasonable accommodations as requested, we recommend initiating a conversation with the Disability Officer to discuss your concerns. If the matter remains unresolved or if you disagree with a determination reached by the Disability Officer, you may appeal the decision by submitting an Accessibility Grievance Form. This form will be reviewed by the ADA Committee, and you will be contacted within seven (7) days of submission. You will then be given an opportunity to share additional details regarding your specific situation and the reason for your appeal request.

If a student is denied accommodations by the ADA Committee, the student can appeal the decision to the Associate/Assistant Dean of Student Affairs.

Diversity Statement

Rocky Vista University is committed to creating a diverse community: one that is inclusive and responsive, and is supportive of each and all of its faculty, students, and staff. The University seeks to promote diversity in its many manifestations. These include but are not limited to race, ethnicity, socioeconomic status, gender, gender identity, sexual orientation, religion, disability, and place of origin.

Rocky Vista University (RVU) recognizes that we live in an increasingly interconnected, globalized world, and that students benefit from learning in educational and social contexts in which there are participants from all manner of backgrounds. The goal is to encourage students to consider diverse experiences and perspectives throughout their lives. All members of the University community share a responsibility for creating, maintaining, and developing a learning environment in which difference is valued, equity is sought, and inclusiveness is practiced.

Diversity and Non-Discrimination Policy

It is RVU’s policy to prohibit discrimination or harassment against any person because of race, color, religion, creed, sex, pregnancy, national or ethnic origin, non-disqualifying disability, age, ancestry, marital status, sexual orientation, unfavorable discharge from the military, veteran status, political beliefs or affiliations. Moreover, the University complies with all federal and state nondiscrimination, equal opportunity and affirmative-action laws and regulations, among these the Civil Rights Act; the Americans with Disabilities Act; the Rehabilitation Act of 1973; and Title IX of the Education Amendments of 1972.

RVU’s policy on non-discrimination can be found in its Student Handbook, as well as in its Employee Handbook and Faculty Manual. This policy applies not only to employment opportunities, but also to admissions, enrollment, scholarships, loan programs, participation in University activities, access to, participation in and treatment in all University centers, programs and activities.

RVU makes a concerted effort to recruit from diverse backgrounds for both enrollment and employment, not only in terms of ethnicity and gender, but also in terms of life experiences.

Dress Code

RVU Students must follow the following dress code requirements while on campus during business hours (typically 8am – 5 pm).

The RVU dress code reflects the dignity of the health care profession and respect for other students, faculty, administration, staff, and particularly special visitors.

The dress code reflects a general minimum standard for the campus community. Students should refer to the course syllabi and program handbooks for further specific dress requirements (e.g., labs, lectures, rotation sites). The University has the right to require specific dress for specific occasions (e.g., special guests on campus, “casual Fridays”) and students will be notified of any adjustments. Questions regarding appropriate attire may be directed to the Office of Student Affairs and setting-/program-specific leadership.

The different learning and teaching environments at RVU may require different dress styles and what is appropriate for one setting may be inappropriate for other settings. (e.g., lab, lectures, lab, recreational activity). Regardless of the setting, all clothing should be neat, clean, and respectful of others. Everyone is expected to be well-groomed and wear clean clothing, free of holes, tears, or other signs of wear beyond normal functionality. Students are allowed to dress the
full day for the learning experience that they are engaged in; for example, if they are in lab they may wear lab attire for the entire day. However, lab attire that consists of shorts, sports bra, or bare chest should be covered by appropriate outerwear or clinically-appropriate scrubs while not in lab. Students practicing OMM skills outside of lab may be permitted to wear lab appropriate clothing while practicing.

Appropriate attire does not include clothing with rips, tears or frays; or any extreme style or fashion in dress, footwear, accessories, or fragrances. Inappropriate attire also includes clothing having language or images that can be construed, based on societal norms, to be offensive or contribute to a hostile learning and working environment. Hats and headwear are not permitted other than for religious or cultural purposes.

All students are permitted to wear the clothing of their choice regardless of traditional gender norm conformity. Students may dress in accordance with their gender identity and gender expression, provided that such clothing does not violate other aspects of the university dress code.

Students should be open to feedback regarding their attire from peers, faculty, and staff, as the attire of any student can impact others and the RVU community. Questions or concerns regarding dress or dress-related feedback can be brought to the Assistant/Associate Deans of Student Affairs whose decision will be final in the event of an issue. Generally, students will be expected to self-monitor their own attire. However, egregious or repeated dress violations will be considered unprofessional behavior and may result in a disciplinary sanction. Students may be asked to leave campus to change if they are inappropriately dressed depending on the specific situation and case.

When uncertain, students should default to business casual attire or professional scrubs with a white coat on top. Business casual is generally characterized as: slacks/trousers, jeans, dresses, and skirts with modest lengths; collared shirts, sweaters, and blouses; clothing that covers the chest, back, torso, stomach, and lower extremities from armpit to mid-thigh when the body is standing straight and when bending over or reaching the hands above the head; tops that have shoulder straps; bottoms that fully cover an individual’s buttock. Business Casual attire is not required after 5pm, but appropriate clothing is still expected.

Cultural and religious attire is welcomed as long as it is safe and appropriate for the specific learning environment. Students must wear their RVU ID at all times unless outlined differently in course or clinical syllabus.

When on location at clinical training sites, students must adhere to the training site’s dress code. Students are required to reach out to each of their training sites one week prior to the beginning of each clerkship rotation to learn the appropriate attire.

Health Insurance Portability and Accountability Act (HIPAA)

The HIPAA Privacy Rule (Public Law 104-191) regulates the use and disbursement of individually identifiable health information and gives individuals the right to determine and restrict access to their health information. It requires that reasonable and appropriate technical, physical, and administrative safeguards be taken with electronic, individually identifiable health information. Specifically, we must ensure the confidentiality, integrity, and availability of all electronic protected health information we create, receive, maintain, or transmit.

All students at Rocky Vista University must complete a training course over the privacy laws that apply to the Health Professions to meet requirements of the Health Insurance Portability and Accountability Act of 1996 (HIPAA). Annual refresher training is required as well. The HIPAA training is provided online, and information to access training will be provided at orientation. A score of 80% or better on the HIPAA training course is a requirement prior to entering RVU programs.

All RVU students are required to abide by all rules, regulations, and policies of HIPAA. RVU has a zero-tolerance policy for violation of patient privacy, and failure to adhere to the mandates of HIPAA is grounds for immediate dismissal from the program.

Students are further expressly prohibited from taking photographs or video of patients without proper preceptor and patient consent. Any and all photographs or videos properly obtained are to be used for educational purposes only and shall not be distributed in any fashion, including, but not limited to, email, hard copy, or social media. The improper acquisition, use, or dissemination of any patient photos or videos is considered a significant violation of both HIPAA and program policies and may result in immediate dismissal from the program.

Non-Discrimination Statement

It is the policy of Rocky Vista University and all of its affiliated colleges and organizations not to engage in discrimination or harassment against any person...
because of race, color, religion or creed, sex, gender, gender identity and expression, pregnancy, national or ethnic origin, non-disqualifying disability, age, ancestry, marital status, parental status, genetic information, sexual orientation, veteran status, political beliefs or affiliations, and to act in conformity with all applicable federal and state laws, orders and regulations, including the Civil Rights Act; the Americans with Disabilities Act; the Rehabilitation Act of 1973; and Title IX of the Education Amendments of 1972. This policy on non-discrimination applies to admissions, enrollment, scholarships, loan programs, participation in University activities, employment, and access to, participation in, and treatment in all University centers, programs, and activities.

Questions, comments, or complaints regarding discrimination or harassment may be directed to the Rocky Vista University Office of Compliance and/or the Title IX Coordinator (if discrimination is based on sex/gender-identity) by calling 720-874-2481. Another option is to file a complaint through the RVU EthicsPoint system.

Complaints may also be filed with the U.S. Department of Education, Office for Civil Rights (here) or calling their Customer Service Hotline at (800) 421-3481.

Needlestick and Bloodborne Pathogen Exposure

Students will potentially come into contact with, or be exposed to, blood and other infectious bodily fluids, whether by direct contact or respiration. Students are also at risk for clinical-related injuries, such as accidental needlesticks. Immediate attention and care of such exposures and injuries are vital to minimize any potential infection.

Upon matriculation and each year of program enrollment thereafter, all students are required to complete online training for prevention of exposures to infectious and environmental hazards. Additionally, prior to beginning clinical experiences, students are provided a quick-reference guide detailing appropriate procedures to follow in the event of an exposure or needlestick injury. Once a student has experienced an exposure or needlestick, the student shall seek immediate treatment in accordance with current and appropriate medical standards. The student shall immediately notify his/her preceptor and fill out any and all forms required by the clinical sites. Should an exposure incident occur, the student should contact RVU’s Department of Human Resources, after following hospital or clinic protocol. Should students incur any costs related to evaluation and treatment of an exposure or needlestick injury, the student should submit all claims to the Human Resources Department for processing with Worker's Compensation.

The full policy on Needlesticks and Exposure Incidents can be found on DynamicPolicy.

OSHA - Biosafety, Universal Precautions, and Bloodborne Pathogens

All students must complete a basic training course in biosafety, as required by the Occupational Safety and Health Administration (OSHA). Because patient contact and/or hands-on learning is a required part of the RVU curriculum, all RVU students must complete OSHA training annually. The avenue chosen for completion of this training is the Collaborative Institutional Training Initiative (CITI) online program.

Instructions for registering and logging onto the CITI website, and specific instructions on which courses are required, are provided annually by the Compliance Office.

Pregnant and Parenting Students Policy

In accordance with the Pregnant and Parenting Student Civil Rights outlined by the U.S. Department of Education’s Office of Civil Rights (OCR), RVU must excuse a student’s absence because of pregnancy or childbirth for as long as the student’s physician deems the absences medically necessary. In addition, when a student returns to school, the student must be allowed to return to the same academic and extracurricular status as before the medical leave began. Students enrolled in courses, fellowship, or clinical rotation during or after pregnancy may face unique challenges regarding attendance and the ability to be absent from the site. Pregnant and parenting students who are in the midst of courses, clinical rotation or fellowship should work with the Student Affairs Disability Officer to address challenges unique to the students’ situation. Students on or entering clinical rotation should also contact their Program Director (PA) or the Associate Dean of Clinical Education (COM), as schedules can be rearranged.

For the full policy and how to make requests for accommodations, please go to DynamicPolicy or contact your campus Associate/Assistant Dean of Student Affairs or the Title IX Coordinator.
Professional Liability and Workers’ Compensation Insurance

Students are covered by RVU’s professional liability and workers’ compensation insurance for all RVU-sponsored curricular and co-curricular activities, including rotations, shadowing, health fairs, medical mission trips, etc. Any student who is injured while on clinical rotation must notify the Associate Dean of Clinical Education for the College of Medicine or the Director of Clinical Education for the PA program and must contact Human Resources immediately for direction about workers’ compensation. Students are not covered for non-RVU activities.

Reservation of Power

The RVU Student Handbook and Catalog is a reference guide to provide students with important information about policies, procedures, requirements, and services. The Handbook is available online at www.rvu.edu/handbook. This Handbook is not intended to be a contract nor part of a contractual agreement between the University and the student. Each edition of the RVU Student Handbook and Catalog supersedes all previous handbooks. Failure to read the Handbook and to be familiar with the rules, policies, and procedures contained in it does not excuse the student from being required to comply with the stated provisions.

Rocky Vista University reserves the rights to amend, modify, add to, or delete information contained within the RVU Student Handbook and Catalog at any time without notice. Such changes may include, but are not limited to, changes in tuition and/or fees, academic requirements, curriculum, policies, and responsibilities of the student.

Please note: at times, specific program policies will be more stringent than University policies. Students are required to follow program policies first. In the event the issue can’t be resolved at the program level, it will be addressed at the University level by the Provost, whose decision is final.

Disclaimer

This Handbook may not contain all policies applicable to RVU students. If you are searching for a policy that is not found in this Handbook, please contact the Compliance Office or Student Affairs for assistance or visit DynamicPolicy for a list of policies by category.

Sexual Misconduct and Non-Discrimination Policy

Rocky Vista University (the “University”) is committed to the principles of academic and professional excellence and to fostering a positive learning and working environment for its students and employees. Accordingly, the University does not discriminate on the basis of sex in the administration of or in connection with its educational and admission policies, scholarship and loan programs, or employment practices, and it is required by Title IX of the Educational Amendments of 1972 to not discriminate in such a manner.

It is the intent of the University to provide its employees and students with an environment free of sexual discrimination, sexual harassment, and sexual violence (collectively “sexual misconduct”), and to respond appropriately to reports of sexual misconduct. The civil and respectful treatment of one another is a foundation of our principles, and the University will not tolerate any form of sexual misconduct. Persons found responsible for sexual misconduct are subject to disciplinary measures, up to and including dismissal or termination, consistent with this Sexual Misconduct Policy and Investigation Procedures (“Policy”) and any other applicable disciplinary procedures.

Compliance with this Policy is a term and condition of student enrollment and employment at the University. Questions about this policy or Title IX can be directed to the Associate Dean of Students in Montana (406) 901-2708, or to the Title IX coordinator (720) 874-2481.

RVU’s Sexual Misconduct and Non-Discrimination Policy and Procedures document is a working document that invites participation and input from the entire RVU community. Revisions will be made on an ongoing basis that reflect community feedback and participation in Title IX educational and prevention activities.

Sexual Misconduct and Non-Discrimination Reporting, Investigating, and Hearing Procedures

Any individual who believes that an employee or student of the University, including themselves, has been subjected to sexual misconduct is encouraged to immediately follow the applicable reporting and investigation procedures and may also pursue criminal, civil, and/or administrative remedies provided by federal and state law. The University encourages all individuals to report possible sexual misconduct that they suffer or observe, and requires responsible employees of the University to do so.
For a full account of the University’s reporting, investigation, and hearing procedures, please review the information on the RVU website at: https://www.rvu.edu/about/title-ix/. Questions about this policy or Title IX can be directed to (406) 901-2708 in Montana or the Title IX Coordinator at (720) 874-2481.

Student Complaints

It is RVU campus policy that all students at all times have the right to lodge a complaint or grievance or appeal that they deem important without fear of retaliation of any sort or any other adverse consequence as a result of doing so.

RVU provides the opportunity for students to resolve conflicts and/or related complaints using two levels, informal or formal, or both. Students may elect the avenue that serves their specific needs most appropriately, although some matters may not be available via the informal process. The recommended general strategy is to first contact the specific individuals or units most directly connected with the issue at hand unless there are good reasons for not doing so, such as issues related to alleged sexual misconduct. The Associate/Assistant Dean of Student Affairs can provide guidance on complaint protocol and potential resolution.

The informal resolution process is designed to resolve problems for students having difficulty with other students, staff, or campus procedures short of written complaints, investigation, and disciplinary action. This process may involve mediation or discussion with the respondent and does not involve a written, formal complaint. This process should not be used for complaints involving academic, disability, discrimination, and/or racial or sexual harassment issues.

The formal complaint procedure is designed to resolve problems for students who are having difficulty with other students, faculty, staff, or processes that cannot be resolved through the informal resolution process, or for students who choose to have an investigation and adjudication in a formal setting. This procedure entails a complaint filing through EthicsPoint online via the web at rvu.ethicspoint.com or by calling 844-936-2729. Complaints may be filed anonymously, but remaining anonymous may impair a resolution if your identity is needed to resolve a complaint.

Details on the Student Complaints and Grievance Procedures, as well as the complaint form, are available on the website and the student portal (MyVista). Assistance is also available from the Associate/Assistant Dean of Student Affairs.

Student Complaints to Accrediting Bodies

Students may file a complaint with the University’s accrediting bodies by contacting the following agencies:

Higher Learning Commission (HLC)
230 S. LaSalle Street; Suite 7-500; Chicago, IL 60604
Phone: (800) 621-7440

Colorado Department of Regulatory Agencies
1560 Broadway, Suite 110, Denver, CO 80202
Phone: (800) 886-7675

Utah Department of Commerce, Division of Consumer Protection
P.O. Box 146704, Salt Lake City, UT 84114
Phone: (801) 530-6601

Commission on Osteopathic College Accreditation of the American Osteopathic Association
142 East Ontario Street, Chicago, IL 60611-2864
Phone: (312) 202-8048
predoc@osteopathic.org

ARC-PA
3325 Paddocks Parkway, Suite 345
Suwanee, Georgia 30024
Phone: 770.476.1224
Fax: 470.253.8271

U.S. Department of Education
Office for Civil Rights
https://www2.ed.gov/about/offices/list/ocr/index.html

Student Confidentiality and Conflict of Interest

In compliance with the COCA, HLC, and ARC-PA relevant accreditation regulations, RVU is committed to ensuring the prevention of potential conflicts of interest for student academic advancement and the protection of student confidentiality in the clinical setting. Students seeking healthcare will not be placed in a position in which they could potentially be treated by any faculty or staff that have authority over their educational pursuits. Authority over a student’s educational pursuits at RVU is defined by those RVU personnel who, including but not limited to, determine grades, ongoing status of academic standing, and academic advancement within the Program, College, or University, such as Deans, Program Directors, Department Directors, Course Directors or any other faculty who may have grading authority. Medical providers in any of the aforementioned roles will be precluded from providing medical care for a student unless specifically requested by the student. Neither the principal faculty of the COM, MSBS, or PA program, the PA or MSBS program directors, nor the COM or PA program medical
directors will serve as healthcare providers for students. In all cases of emergency, care is provided by another faculty member or medical personnel. Further, RVU students participating in clinical training will not be involved in the medical care of other students, unless expressed permission is individually obtained from the student patient. Patient confidentiality will be guaranteed for all RVU students in all clinical settings.

The Family Educational Rights & Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords eligible students certain rights with respect to their education records. (An “eligible student” under FERPA is a student who is 18 years of age or older or who attends a postsecondary institution.) The policy in its entirety can be found on DynamicPolicy.

Title IX Policy

All RVU employees and students are trained about Title IX Sexual Misconduct Laws on an annual basis. Students and employees are made aware of, and updated on, the Federal Title IX Act and RVU’s policies throughout each year.

RVU’s Title IX Coordinator manages the University’s response to complaints of sex-based discrimination, including sexual harassment, stalking, sexual assault, relationship violence, and other forms of sexual misconduct, as well as retaliation.

If you believe you or someone you know has been the victim of sexual misconduct or are aware of sexual misconduct and would like to find out about how the University can help you, contact the Title IX Coordinator at (720) 874-2481.

You may also want to make an appointment to talk with one of RVU’s Sexual Assault Advocate and Mental Health counselors. The counselor on the Colorado campus can be reached at (720) 875-2896 and the counselor on the Utah campus can be reached at (435) 222-1270. Your conversation will remain confidential and will not be shared with the Title IX Coordinator, unless you waive your right to confidentiality.

You may seek the assistance of a trusted faculty member; if you do so, please keep in mind that all University employees (other than medical or counseling professionals) are mandatory reporters and must report all information to the Title IX Coordinator.

For direct access to the current Title IX policy, visit the website at: https://www.rvu.edu/about/title-ix/.

Student Financial Services

Tuition Refund Policy

Purpose & Scope

The purpose of this policy is to make clear what circumstances may warrant a tuition refund.

Tuition and applicable fees vary according to the degree program in which the student is enrolled. Please refer to the section for each individual degree program for more information.

Policy Statement

Students will be billed for tuition and fees approximately 30 days prior to the beginning of each semester. Tuition and fees must be paid in full by the first day of class. Late tuition payments or failure to make arrangements to pay tuition will result in the student being removed from class and/or clinical externships.

Students who withdraw (either voluntarily or involuntarily) before the first day of class of a semester for which they have already paid their tuition and fees will receive a 100% refund for that semester, with the exception of any non-refundable deposits, which will be retained by the University. Students who matriculate into the University, begin classes or externships, and withdraw (including leave of absence) within the first 30 calendar days of a semester will be refunded according to the following schedule: 1st week: 90%; 2nd week: 75%; 3rd week: 50%; 4th week: 25%; After 4th week: 0%.

There are occasions when a recommendation and decision for Dismissal or Leave of Absence from a program’s Student Assessment or Performance Committee, or from an administrative entity, may occur within the first four weeks of a semester based on professionalism, performance, or other issues that occurred in the previous semester. These students are eligible for a 100% tuition refund for the current semester.

Exceptions to this policy due to extenuating circumstances must be first approved by the Assistant or Associate Dean of Student Affairs on the student’s primary campus, via the Tuition Refund Form located on the iNet. If approved, the exception form will be forwarded to the Senior Director of Student Financial Services for review. If approved, the student’s Dean or Program Director will review. If approved, the form will be forwarded to the Provost for final review and
approval. If seeking an exception to this policy, complete the online “Tuition Refund Form” (located on the iNet), and provide a detailed explanation.

Voter Registration

Colorado Voter Registration

RVU is required by the Higher Education Act of 1965 (HEA) to distribute voter registration forms to its students. You will find all the information you need to register to vote or make any changes to your registration information (address, name change, etc.) at the Colorado Secretary of State website.

Montana Voter Registration

To vote in Montana, you must

- Be registered to vote as required by law
- Be 18 years or older by the next election
- Be a citizen of the United States
- Have lived in Montana for 30 days

For more info, [How to Register to Vote - Montana Secretary of State - Christi Jacobsen (sosmt.gov)](https://sosmt.gov/)

Utah Voter Registration

RVU is required by the Higher Education Act of 1965 (HEA) to distribute voter registration forms to its students. You will find all the information you need to register to vote or make any changes to your registration information (address, name change, etc.) at the Utah Voter Registration website.

Enhancing Your RVU Learning Experience By Successfully Interacting Across Cultural Differences

The curriculum at RVU is intended to expose students to cross-cultural and intergroup dynamics in the successful treatment of diverse patients or work contexts with people from many backgrounds. And while it is the responsibility of the faculty (not the students) to present material related to student’s preparation for delivering services in diverse settings, the diversity present in the student body can also be a great source for acquiring cross-cultural information and learning about different groups.

Learning about your fellow Rocky Vista University (RVU) students who represent different group or social identities can add significantly and positively to your healthcare education experience. RVU is no different than many other educational institutions in that students encounter people from diverse backgrounds, including (but not limited to) race/ethnicity, sexual orientation, gender, gender identity, disability, veteran-status, nationality, religion, age, citizenship, and socio-economic status. Interacting with individuals who represent different cultural/social identity groups can be educationally beneficial, yet also challenging. That is, language, culture, worldviews, perspectives, customs, and traditions can be an asset in creating diverse learning environments and forming positive intercultural relationships, but can also become barriers that prevent students from creating conflict-free and productive learning and workplace climates.

The following are suggestions for enhancing your RVU intergroup learning experience via successfully interacting across cultural differences, easing the process of interacting across student individual and group differences, and maximizing the creation of positive and welcoming learning environments:

1. Go out of your way to interact with as many students as you can, in particular with those who are different than you. RVU presents a tremendous opportunity to accomplish this goal.
These interactions and dialogues will expand your knowledge about different individuals, identity groups, cultures, and backgrounds.

2. Communication across diverse groups and individuals is a learned skill that will be helpful in your work as healthcare practitioners. Learning to effectively communicate in culturally diverse environments can be both extremely challenging and rewarding.

3. Attempt to avoid microaggressions and try to use micro-affirmations instead when communicating with individuals. Microaggressions are defined as everyday verbal or behavioral insults directed unintentionally or intentionally against people from diverse backgrounds. Examples of insensitive microaggressions are saying “That’s so gay”, or “You are so Ghetto”. These also include behaviors such as “cat calls” directed at women or mocking Native Americans using the stereotypical “War Whooping”. Micro-affirmations, on the other hand are subtle validating, uplifting positive comments or clear acknowledgements about a person’s value and success. Examples include saying “Good morning”, referring positively to the work of a person, showing genuine interest in someone’s culture, or correctly remembering and pronouncing someone’s name.

Thus, when interacting:

1. Be patient with other students and ask that they be patient with you as you try to learn about each other’s backgrounds.

2. In talking to someone who comes from a different background, try to ask questions in a respectful manner and at an appropriate time. Instead of asking, “Why don’t all Latinos speak Spanish?” try “I don’t know if you can answer a question for me. I’m not assuming that you can, but I was wondering if you could educate me a little bit on one aspect of Latino culture about which I have always been curious: Why do some Latinos speak Spanish and others do not?”

3. No matter how curious you are about someone’s physical characteristics or personal appearance, such as hair texture, color of skin, jewelry, or clothing, do not touch any of those personal items or characteristics unless you are given permission.

4. Allow each other to make mistakes as you develop your cross-cultural communication skills. Grant each other “redos” and use mistakes and unintentional insensitivities as learning moments. If you make a mistake, apologize for the error and commit to learning from your mistake in order to avoid the faux pas in the future.

5. If you are the person being asked about your cultural background, be patient with the people who are doing the asking. In many cases, the other person does not know how or what to ask and is simply trying to learn.

6. Keep your assumptions and stereotypes in check. Don’t assume. Ask questions. Often, these assumptions are based on damaging stereotypes and can inhibit people from forming trusting, effective, and authentic relationships. Practice using social justice education communication techniques, such as calling-in (i.e., respectfully correcting the person) vs calling-out (i.e., attacking and embarrassing the person), active listening, cognitive empathy (i.e., perspective-taking), non-personalizing of issues, and other techniques that support the learning process during difficult conversations.

7. It is also important to keep intersectionality in mind when interacting with fellow students. From the perspective of intersectionality, we are all both members of ingroups and outgroups, depending on which social identities are being discussed. Thus, the old maxim of “treat others the way you want to be treated” is appropriate when interacting across differences.

8. Do not rely on your fellow students as the single source of all your diversity questions and education. Take responsibility for your own education by reading, researching, and talking to experts in the field.

For additional information on or help and support in practicing the guidelines above, contact the RVU Office for Diversity, Equity, and Inclusion at 720-875-2825.

Student Educational Records

Academic Records

The Office of the Registrar maintains all documentation placed in the matriculated student’s permanent record. Educational records include but are not limited to post-matriculation admission applications, registration in attempted and completed courses, grades, name and address changes, diplomas, transcripts, and residency/licensure paperwork.

Administrative Holds

A student who fails to meet obligations to the University may be placed on administrative hold, during which time he/she may not be allowed to register, receive a diploma, or receive a transcript. The student must settle financial accounts with the Office of Student Financial
Services and determine with the Registrar which office placed the administrative hold in order to clear the obligation with that respective office.

Background Check and Drug Screen

Upon acceptance of an offer of placement within any program within RVU, all RVU students are required to complete a criminal background check and a drug screen as outlined in their matriculation agreement. Information regarding this process is made available upon acceptance. Failure to comply with this requirement may result in the revocation of acceptance.

Students enrolled in the DO program will be required to complete an additional background check and 10-panel drug screen before they enter their third year and again before they enter their fourth year. PA students are required to submit to a criminal background check and drug screen prior to the start of the clinical rotation year. All students may be subject to additional background checks, drug screens, and security measures per clinical site requirements. In addition, the University reserves the right to require random and for-cause drug screenings at any time during a student’s enrollment.

Admitted students charged with an offense prior to matriculation must notify the Director of Admissions and individual Program Directors immediately. Currently enrolled PA students charged with an offense must notify the the Program Director and the Associate/Assistant Dean of Student Affairs. Currently enrolled COM and MSBS students charged with an offense must notify the Associate/Assistant Dean of Student Affairs.

Course Registration

The Office of the Registrar is responsible for managing all course registrations and open periods for registration. Students will have access to view their course registrations via the MyVista Student Portal.

Degree Audits

The Degree Audit is an advising tool to assist students in determining their individual progress toward completing degree requirements. While it might include evaluative measures and achievement milestones, it is intended to be a resource but does not serve as a transcript.

Students can obtain information regarding their general program progress and requirements toward graduation, as follows:

- Pre-Clinical Students (OMS I and OMS II): see the campus Director of Pre-Clinical Education
- Clinical Students (OMS III and OMS IV): refer to New Innovations
- MSBS and PA Students: see faculty advisor of the program

Diplomas

Diplomas are issued to students once it has been determined the student has completed all program degree requirements and the degree has been conferred. The Office of the Registrar issues all diplomas and processes requests for replacement diplomas.

Grades

Please refer to the specific degree program’s section of this catalog for information related to final grade reporting.

Grade Point Average (GPA)

Please refer to the specific degree program’s section of this catalog for information related to GPA calculation.

Grade Reports

Students may view final course grades by logging into the MyVista Student Portal. Final grades are posted at the end of each semester.

Grade Change Policy

Grades submitted by faculty and/or course or program directors at the end of a course or semester are final and not subject to change by reason of revision of judgment on the part of these individuals. A new exam or additional work undertaken or completed after the grade report has been recorded or retaking the course will not pose a basis for changing a grade. Faculty members are under no obligation to accept late or additional work - except for accommodations made for pregnant and parenting students or those with disabilities (temporary or permanent) as approved by the Student Affairs Disability Officer.

The grade change process may only be used to correct a grade due to:

- Correction of an error in grading;
- Grade appeal (please see individual program policies for grade appeals processes);
Students will have five (5) business days following the posting of final course grades, exclusive of institution-recognized holidays or breaks, to appeal a grade.

Grade changes may be submitted by the appropriate faculty member to the Office of the Registrar via the Grade Change Request form, found on the iNet under the Staff/Faculty Forms section. All fields must be completed correctly and the form submitted within thirty (30) business days following the event which necessitates the grade change (error found, appeal decision, resolution of an incomplete, or completion of a remediation). Upon receipt, the Registrar will review the request, consult with the requesting faculty member for any clarifications, as needed, and confirm once the change is made.

Health Records and Immunizations

RVU follows the latest requirements set forth by the Centers for Disease Control and the Advisory Committee on Immunization Practice. Therefore, students must satisfy all requirements for immunizations at the time of admission and throughout their tenure, as compliance is required on a continuous basis.

Failure to provide all required documentation may prevent matriculation or, in the case of a matriculated student, lead to dismissal. In addition, non-compliant students will be immediately removed from clinical experience and direct patient care until compliance has been achieved. Students are responsible for the expenses of all tests and must meet the conditions listed below (note that some immunization requirements may vary by clinical sites):

- **Measles (Rubella), Mumps, and Rubella (MMR):** Serologic proof of immunity by Surface Antibody IgG titers for Measles (Rubella), Mumps, and Rubella. Quantitative lab report including numerical result values and numerical reference range required. Only quantitative (numerical) results accepted.
- **Hepatitis B:** Serologic proof of immunity by Surface Antibody IgG titers for Hepatitis B. Quantitative lab report including numerical result values and numerical reference range required. Only quantitative (numerical) results accepted.
- **Varicella:** Serologic proof of immunity by Surface Antibody IgG titers for Varicella. Quantitative lab report including numerical result values and numerical reference range required. Only quantitative (numerical) results accepted.
- **Tetanus Diphtheria, Pertussis (Tdap):** Tdap or TD booster required every ten years after initial Tdap on file.
- **Two Separate Tuberculosis Skin Tests (PPD/ Mantoux):** Upon entry into the program you must provide one of the following options:
  - Blood Draw: T-Spot or QuantiFERON TB Gold Blood draw that is negative and within 12 months.
  - Skin Tests: TB Two-step (Two TB skin tests within 21 days of each other and no more than 12 months old).
  - If a TB skin test is positive: a chest x-ray must be completed every 2 years. **Annual update required.** If TB is updated prior to the past TB expiring only 1 TB is required. If the TB expires a full two-step or blood draw is required.

Additionally, in order to minimize the risk of an influenza outbreak on campus or in affiliated clinical facilities, all students are encouraged to receive the annual influenza vaccination (except when medically contraindicated) while enrolled at RVU.

Documents related to immunizations and screenings are maintained and monitored through the Office of the Registrar. For information regarding specific Health and Immunization Requirements, please visit the Office of the Registrar's webpage.

Requests for Exemptions

Any student who requests an exemption to any immunization, screening, and titer requirement due to a medical contraindication or religious mandate must contact the University in writing immediately upon acceptance into the program or immediately upon learning of a new medical contraindication. The request for exemption must include the reason(s) for the request and any applicable supporting documentation. If the request is prior to matriculation, PA students should contact the Chair of the PA Admissions Committee and the Director of Admissions. Incoming students of the COM or MSBS Programs should contact the Director of Admissions. If the request is after matriculation, the request should be directed to the Associate/Assistant Dean of Student Affairs or individual Program Directors (MSBS or PA).

If the request for exemption is approved, the student will be permitted to matriculate; however, the student may not be able to participate in all required educational activities, and the student will be required to acknowledge that not all educational activities or clinical sites may be available to them. Clinical sites maintain their own regulations and policies regarding immunizations, screenings, and titers, as well as any potential exemptions; therefore, students are expected to comply with the clinical site requirements. If a student is unable to maintain compliance with site
requirements due to medical contraindications or religious reasons, the student is responsible for notifying both the clinical site and the program immediately.

**Student Contact Information**

Students must notify the Office of the Registrar of any changes in legal name, mailing address, phone number, or emergency contact via the Critical Student Information Form (accessible via the MyVista Student Portal). Students must complete this form upon matriculation and the start of each academic term throughout their career with RVU, as part of the process to be included in the roster count for each start of the term, as well as any time information has changed.

For the protection of the student identity, the safekeeping of confidential records, and in case of emergencies, notification of change of information must be within thirty (30) days of the change. Non-compliance may result in disciplinary action.

**Student Enrollment Status Changes**

For all changes in status (unless appealing the decision or otherwise directed by the Administration), the student is responsible to work with the Associate/Assistant Dean of Student Affairs to process the change and submit the Change of Status form to the Registrar’s Office within five (5) business days of receipt of the letter. Failure to do so may have negative impacts on the student’s financial aid, enrollment status, course registrations and/or academic transcripts.

**Leave of Absence**

A Leave of Absence (LOA) is an intentional separation between the student and the University to enable the student to have the fullest opportunity to remedy whatever circumstances resulted in the leave of absence. An LOA suspends all student activities associated with the University and may be voluntary or non-voluntary directed as described below. A leave of absence may not exceed one year either cumulatively or within a single leave during the student’s enrollment, unless this requirement is waived by the Dean (DO program) or Program Director (MSBS and PA programs) and Associate/Assistant Dean of Student Affairs. If the student does not return within the timeframe approved, he/she will automatically be considered to have voluntarily withdrawn. The specific timeframe of the leave of absence is dependent on the ability of the student to return to classes within the curricular framework and to complete the required course work in the time and sequence dictated by the faculty and the curriculum.

Any student who is granted or placed on a leave of absence is responsible for his/her own financial obligations. Therefore, all students taking a leave of absence are required to contact the Office of Student Financial Services to determine their status, as they may not meet the federal requirements for a leave of absence for Title IV financial aid.

Students going on leave will be directed to return at a specific starting point but may not be allowed to return in the middle of a course or semester. While on a leave of absence, students are not eligible to make up incomplete class work, remediate any examinations, or take any portion of any licensing or certification examinations without express permission from the Dean (DO program) or Program Director (MSBS and PA programs) and Associate/Assistant Dean of Student Affairs.

Students on a leave of absence are not allowed to come to campus (unless for specific business related to their return) or participate in university-related activities and course work, such as research, student organizations, or university events. However, some resources can be accessed on a limited basis, including use of Media Site, the MyVista platform, online library services, student RVU email, and student RVU health insurance (provided the insurance was already paid-in-full). Full use of RVU mental health and wellness services will be available for students on LOA for up to six weeks past the student’s change-of-status date.

**Voluntary Leave of Absence**

A voluntary leave of absence is one that is requested by a student to withdraw temporarily from classes for personal, financial, or medical reasons. The request for voluntary leave of absence must be submitted in writing to the Associate/Assistant Dean of Student Affairs. If approved and if the student is in good academic standing, the student may be allowed to re-enter the program at the end of the leave without any need for reapplication, remediation, or reevaluation; however, the student may be required to meet specific requirements in order to be allowed to return.

If a student is granted a leave of absence while current coursework is still in progress, he/she will not be allowed to continue further course work. In all such cases, an appropriate designation for each course in progress will be entered on the transcript. In the case of a withdrawal from a course, students will be required to meet the course requirements in entirety before being permitted to progress into the next academic year.
If a leave of absence is granted while the student is not in good standing, is under review for a disciplinary action, or has a disciplinary action imposed on them, then the student may not be reinstated to the University without a review by the program’s student performance and/or progression committee. Upon completion of its review, the respective committee shall make a recommendation to the Dean or Program Director. If the student is denied reinstatement, their status will be changed to a withdrawal. If the student is granted reinstatement, special disciplinary action requirements may be imposed as a condition of their reinstatement, where appropriate.

Students granted a leave of absence for a medical reason must have a licensed physician certify in writing that their physical and/or mental health is sufficient to permit them to continue in their education. The physician providing the certification must either be designated by or approved by the Associate/Assistant Dean of Student Affairs or by the appropriate Program Director (MSBS or PA) for the certification to be accepted.

**Non-Voluntary Leave of Absence**

A non-voluntary leave of absence is a mandatory, involuntary leave of absence imposed by the Dean (DO program) or Program Director (MSBS and PA programs) or Associate/Assistant Dean of Student Affairs that is related to academic matters. Please refer to the Academic Policies section of the corresponding program for further information.

A non-academic, non-voluntary LOA is a mandatory, involuntary leave of absence imposed by the Dean (DO program) or Program Director (MSBS and PA programs) or Associate Dean of Student Affairs that is unrelated to academic matters. During the leave, the Dean (DO program) or Program Director (MSBS and PA programs) and Associate Dean of Student Affairs will provide the student with the opportunity to rectify or seek rehabilitation/treatment for the problem that precipitated the directed leave.

To be reinstated after a non-academic, non-voluntary leave of absence, the student must be able to demonstrate to the satisfaction of the Dean (DO program) or Program Director (MSBS and PA programs) and Associate Dean of Student Affairs that the pre-established requirements have been met and that he/she shows a reasonable likelihood that previous problems will not recur.

**Sabbatical**

A sabbatical is a one-year leave of absence to allow RVUCOM students to pursue extended full-time training or studies at another institution that will lead toward an additional certificate, degree, or scholarly publication. Students are not required to pay tuition or attend courses through RVUCOM during a sabbatical. Participating in this special program will delay graduation from RVUCOM by one year.

**Withdrawal**

An involuntary withdrawal/dismissal is a University-initiated process that can occur for both academic (such as multiple course failures) and non-academic reasons (unprofessional conduct, violation of University policies, and/or violation of the Student Code of Conduct). In addition, students who fail to complete any academically related activity for ten (10) consecutive days without notifying the Associate/Assistant Dean of Student Affairs shall be considered withdrawn.

A voluntary withdrawal is a student-initiated resignation under which he/she surrenders all rights and privileges as a student of the University. Students must notify the Associate/Assistant Dean of Student Affairs of their request for a voluntary withdrawal verbally or in writing. To return to the University, students must initiate a new application through the Office of Admissions.

Students who voluntarily withdraw from the University are required to meet with or verbally notify their Dean or Program Director, the Associate/Assistant Dean of Student Affairs, and the Office of Student Financial Services.

**Dismissal Policy and Right to Appeal**

Dismissal is the permanent termination (involuntary withdrawal) of a student’s academic enrollment. The Program Director, Associate/Assistant Deans of Student Affairs, and/or the Dean are responsible for imposing this action. A student who chooses to appeal a dismissal must do so in writing to the Provost within five (5) business days of the date of dismissal. While appealing a dismissal, a student may continue to attend classes and take all examinations pending the results of the appeal. The reasons for which a student may be dismissed from the University include but are not limited to the following:

- Circumstances of an illegal, behavioral, ethical, or academic nature that warrant such action;
- Failure to meet the Academic Standards; and/or
- Determination of factors that would interfere with or prevent the student from practicing and meeting the professional and ethical standards expected of a healthcare professional.

**Readmission**

If a student is dismissed or withdraws from any program within RVU, they may apply for readmission through each program’s individual admissions process. In order to be considered for readmission, the student must provide adequate evidence that the conditions or factors that caused the prior dismissal or withdrawal
have changed significantly, so that there is a reasonable expectation that the student can perform satisfactorily if readmitted. If the student is readmitted, their prior academic record will remain part of their overall academic record and will be recorded on the permanent transcript.

**Transcripts - Official and Unofficial**

Official transcripts are housed in the Office of the Registrar, and students may request a copy of their official transcript at any time, free of charge. Official transcripts issued directly to the student will bear the marking Issued to Student at the top of each page. Any outstanding obligations to the University (financial, academic, etc.) must be satisfied prior to the release of official transcripts.

RVUCOM fully complies with the AAMC guidelines for medical school transcripts. This includes an unabridged academic history of the student's enrollment.

Unofficial transcripts are not printed on security paper and are labeled Unofficial. Students can access unofficial transcripts via the MyVista Student Portal at any time during the student's enrollment.

**Transfer of Credit**

Each degree program has specific requirements for the transfer of credit between another educational institution and the University. Please refer to the section on individual degree programs for more information.

**Verification of Enrollment**

Students may request verification of their enrollment at Rocky Vista University at any time by writing to the Registrar via the MyVista Student Portal.
Achieving greatness is a perpetual process, not an end game. Excellence requires ongoing self-assessment of what we did, what we are doing, and what we will do in the future. This is the mindset of Rocky Vista University (RVU) with our vision of achieving new heights in medical education.

The Rocky Vista University Montana College of Osteopathic Medicine (MCOM) is RVU’s third medical school campus and has the noteworthy advantage of benefitting from all the experience, achievements and proven outcomes of RVU’s medical school campuses in Colorado and Utah. However, one big difference to highlight is that RVU-MCOM will function like a stand-alone medical school with our own local governance structure and our own customized curriculum that will include more simulation, ultrasound, and other innovative educational opportunities.

As the Founding Dean, I have the great privilege of welcoming you to our new state-of-the-art, purpose-built medical school campus located in beautiful Billings. Billings is the largest city in Montana and serves as the major hub of quality healthcare delivery for the region. MCOM will offer the ideal place for you to learn, practice, and grow as a healthcare professional.

MCOM’s campus culture is rooted in our university’s core values of excellence, diversity, innovation, collegiality, compassion, integrity, and service. We strive to prepare our students to work with diverse patients and populations, be service-oriented community partners, and be excellent representatives for the flagship medical school in Montana!

We are excited to have you join us and we welcome you!

David J. Park, DO, FAAFP, FACOFP
Vice President and Founding Dean, RVU-MCOM

Director of Preclinical Education
Associate Professor of Pharmacology
Introduction: An Osteopathic Physician

Osteopathic medicine, founded in the United States in the 1860s, is a unique form of healthcare founded by Dr. Andrew Taylor Still. It is based upon a holistic viewpoint that incorporates a body-mind-spirit approach to the practice of medicine. Doctors of Osteopathic Medicine are full-practice physicians and licensed to practice medicine in all 50 states. DOs are found in every medical specialty, but their main emphasis has traditionally been in the fields of primary care (family practice, internal medicine, obstetrics/gynecology, and pediatrics).

DOs partner with their patients to promote health, prevent disease, as well as treat acute and chronic illness. Osteopathic physicians receive full training in all the basic biological sciences, medicine, surgery, and obstetrics. In addition, extra training is provided in the areas of preventive medicine, and the inter-relationship of body systems and the musculoskeletal system. DOs are trained in the use of Osteopathic Manipulative Medicine (OMM) as a useful tool they can utilize in the diagnosis and treatment of illness. By combining all available medical options (medication, surgery, physical therapy, etc.) with OMM, DOs offer their patients the most comprehensive care available in medicine today.

Osteopathic Oath

This modern version of the Hippocratic Oath for administration to osteopathic college graduates was initiated by a suggestion from Frank E. MacCracken, DO, of California to his state society. Within a year, the suggestion went from the state to the national association, and a committee was formed under the Associated Colleges of Osteopathy to prepare the text. Members of that committee included Dr. MacCracken, as chairman, and Drs. R.C. McCaughan, Walter V. Goodfellow, and Edward T. Abbott. The first version was used from 1938 until 1954, at which time minor amendments were adopted.

I do hereby affirm my loyalty to the profession I am about to enter. I will be mindful always of my great responsibility to preserve the health and the life of my patients, to retain their confidence and respect both as a physician and a friend who will guard their secrets with scrupulous honor and fidelity, to perform faithfully my professional duties, to employ only those recognized methods of treatment consistent with good judgment and with my skill and ability, keeping in mind always nature's laws and the body's inherent capacity for recovery.

I will be ever vigilant in aiding in the general welfare of the community, sustaining its laws and institutions, not engaging in those practices which will in any way bring shame or discredit upon myself or my profession. I will give no drugs for nefarious purposes to any person, though it be asked of me.

I will endeavor to work in accord with my colleagues in a spirit of progressive cooperation and never by word or by act cast imputations upon them or their rightful practices.

I will look with respect and esteem upon all those who have taught me my art. To my college and my profession, I will be loyal and strive always for its best interests and for the interests of the students who will come after me. I will be ever alert to further the
application of basic biologic truths to the healing arts and to develop the principles of osteopathic medicine which were first enunciated by Andrew Taylor Still.

**Program Learning Outcomes**

*Program Learning Outcomes (PLOs)*

The Rocky Vista University Montana College of Osteopathic Medicine (RVU-MCOM) has established the following program learning outcomes, which are based upon the American Osteopathic Association (AOA) seven core competencies:

Graduates of the Doctor of Osteopathic Medicine Program will:

1. Apply osteopathic principles and practices to patient care.
2. Apply knowledge of biomedical sciences to clinical medicine.
4. Utilize effective communication skills to support positive patient-centered and inter-professional relationships.
5. Uphold principles of the RVU Osteopathic Oath.
7. Analyze health systems science to deliver individualized patient care.

**Admissions**

**Requirements for Admission**

*(Montana Campus Only)*

The MCOM Office of Admissions processes thousands of applications for admission each year. The minimum requirements for admission include:

- A bachelor’s degree or higher from a U.S. regionally accredited college or university must be completed prior to matriculation (exceptions may be made and will be reviewed on a case-by-case basis. These exceptions may pertain to faith-based and/or strong international universities).

In the event of coursework completed at foreign institutions, official detailed course-by-course evaluations must be completed by an approved agency. Please see the list of approved agencies in the MCOM Student Handbook and Catalog.

- Minimum prerequisite course work that must be completed prior to matriculation includes:
  - Biology/Zoology (8 semester hours including lab)
  - General Chemistry (8 semester hours including lab)
  - Organic Chemistry (8 semester hours including lab)
  - Physics (8 semester hours including lab)
  - English or Literature (6 semester hours)
  - Social or Behavioral Sciences (6 semester hours)
  - Biochemistry (3 semester hours)

No grade below a “C” will be considered to fulfill requirements. Additional upper-division coursework such as Human Anatomy, Physiology, and Cellular Biology is highly recommended.

- A minimum science and cumulative GPA of 3.0. *Note:* On average, candidates admitted to RVUCOM (CO + UT) each of the past three years have GPAs greater than 3.6.
- Candidates are required to take the Medical College Admission Test (MCAT) within 3 years from matriculation. There is no minimum required score.
- Letters of Recommendations (submitted to AACOMAS). Three required letters include:
  - A letter from a healthcare provider (DO or MD preferred) who has supervised the candidate.
  - Pre-Med Advisor or Committee, Basic Science Faculty, or anyone who can speak to the candidate’s ability to successfully complete a rigorous medical school curriculum.
  - A letter of the candidate’s choice.
- Be aware that only the maximum number of letters submitted through AACOMAS will be considered. The Office of Admissions is not able to accept letters of recommendation sent directly to MCOM or from any other letter service, such as Interfolio or VirtualEvals.
- Students must provide official transcripts from all colleges attended where a degree was earned prior to matriculation. In the event of coursework completed at foreign institutions, the applicant must submit official detailed course-by-course evaluations completed by an approved agency. A list of these agencies is available in the University Handbook & Catalog.
Application Process

MCOM participates in the American Association of Colleges of Osteopathic Medicine Application Service (AACOMAS) for the receipt and processing of applications. Applications are submitted electronically through AACOMAS (click here).

AACOMAS processes applications within approximately 3-6 weeks. This timeframe may vary depending on the time it takes to receive an applicant’s transcripts and the volume of applications being processed. MCOM’s deadline for submitting an AACOMAS application is March 15, 2024. Applications are evaluated on a rolling basis, therefore it is in an applicant’s best interest to apply early in the process. Once an applicant’s AACOMAS application is received, it is evaluated to determine if the minimum requirements have been met. These requirements include:

- A minimum science and cumulative GPA of 3.0. Note: The chances for admission for a candidate with minimal grades are limited. Admission would require outstanding achievement on the part of the candidate during their career or unique individual circumstances.
- MCOM is requiring candidates to take the Medical College Admission Test (MCAT). Candidates are required to take the Medical College Admission Test (MCAT) within 3 years prior to matriculation. There is no minimum required score.
- Three Letters of Recommendations (submitted to AACOMAS). Required letters include a letter an academic reference (order of preference to include Pre-Med Advisor or Committee, Basic Science Faculty, or anyone who can speak to the candidate’s ability to successfully complete a rigorous medical school curriculum), a letter from a healthcare provider who has worked with the candidate (DO or MD preferred), and a final letter of the candidate’s choice.
  - Be aware that only the maximum number of letters submitted through AACOMAS will be considered. The Office of Admissions is not able to accept letters of recommendation sent directly to MCOM or from any other letter service, such as Interfolio or VirtualEvals.

Fee waivers will also be granted for active duty military, veterans, as well as immediate family members. For submission instructions on the fee waiver, click here.

An applicant’s file is considered complete upon the receipt of the AACOMAS application, processing fee, and letters of recommendation (letters submitted with applications from previous years will not be transferred).

The Office of Admissions reviews all completed files and notifies applicants of their interview status. All applicants invited for an interview are given the choice of several interview dates.

Interview Process

Applicants’ academic qualifications will be pre-screened by the RVU-MCOM Office of Admissions and interviews will be offered to competitive applicants. Applicant interviews will be conducted virtually and an official campus visit day will be offered to accepted students. The virtual interviews will be approximately 40 minutes in length conducted by a two-person panel of the RVU-MCOM team. Interviewers will have access to the applicant’s personal statement, supplemental application, and letters of recommendation. However, the interviewers will be blinded to the applicants’ grades and MCAT scores. All interviewers’ recommendations will be evaluated post-interview by the RVU-MCOM Admissions Committee with the final decision made by the Dean.

Interviewing candidates are required to read and sign an acknowledgement that they:

- Meet the technical standards (any questions pertaining to whether a standard is met or if reasonable accommodations are required, must be addressed with the Associate Dean of Student Affairs).
- Have read, understand, and agree to adhere to the policy set forth in the statement for students of RVU-MCOM regarding physical exposure in classroom activities and participation in osteopathic manipulative medicine and physical exam courses.
- Understand and agree to adhere to RVU-MCOM’s Code of Student Conduct/academic responsibility and code of behavioral conduct.
- Understand they will undergo a criminal background check as part of their matriculation agreement. Note: Candidates are additionally required to disclose all charges that may occur prior to matriculation. Failure to disclose any and all charges regardless of adjudication may result in rescinding of the offer of admission or dismissal after matriculation.
- Understand they will undergo a drug screen as a condition of matriculation.

Applicants meeting these minimum requirements will receive an email containing login information to pay the supplemental fee. Candidates who initially do not meet the minimum academic requirements are welcome to resubmit updated information through AACOMAS. Candidates resubmitting qualifying information will then be invited to proceed through the process upon verification that the minimum requirements have been met. Applicants awarded an AACOMAS fee waiver will be granted a fee waiver for MCOM’s supplemental fee.
The Admissions Committee meets at least once a month to make a recommendation to the Dean relative to each applicant's status. The recommendation can be to offer an acceptance, to place the applicant on the alternate list, or to deny admission. The final decision will be made by the Dean.

**Matriculation Process**

All acceptance offers are provisional pending the successful completion of all conditions set forth in the matriculation agreement including:

- Completion of all prerequisite coursework and documentation that a minimum of a bachelor's degree has been earned from a U.S. regionally accredited college or university.

- Payment of three non-refundable deposits totaling $2,000 on or prior to the date designated in the matriculation agreement. MCOM follows the guidelines set forth by the American Association of Colleges of Osteopathic Medicine (AACOM) relative to deposit due dates. Deposits will be applied to tuition.

- Successful passage of a drug screen and background check. Both services are to be scheduled and managed through PreCheck and are to be completed by the dates specified on the matriculation agreement. An applicant who has a deficiency or abnormality discovered on either screening will be referred to a sub-committee for further investigation.

- Completion of required medical and immunization documents are to be scheduled and managed through SentryMD (the medical record division of PreCheck) and to be completed by the dates specified on the matriculation agreement.

- Submission of a waiver demonstrating proof of medical insurance coverage or enrollment in the plan provided by the University.

- Submission of transcripts from all colleges and universities attended where a degree was earned. MCOM will accept transcripts submitted as part of the ACOMAS application. In the event of an earned degree isn’t posted prior to matriculation, a letter will be required from the university registrar confirming that the requirements for graduation have been met and indicating when the degree will be posted on the transcript. Official transcripts must be sent to RVU-MCOM as soon as the degree is posted.

- In the event of course work completed at foreign institutions, official detailed course by course evaluations completed by an approved agency must be submitted. Official evaluations must be included with the ACOMAS application and, in the case of a degree earned, the evaluation must reflect that the degree is equivalent to a degree earned at a regionally accredited US college or university.

Please see website or ACOMAS site for a list of acceptable agencies. These agencies include:

- **World Education Services, Inc.**
  (212) 966-6311

- **AACRAO**
  (202) 296-3359

- **Educational Credential Evaluators, Inc.**
  (414) 289-3400

- **Josef Silny & Associates, Inc.**
  (305) 273-1616

- Official evaluations must be included with the ACOMAS application and, in the case of a degree earned, the evaluation must reflect that the degree is equivalent to a degree earned at a regionally accredited US college or university.

- Any other requirements set forth in the matriculation agreement.

MCOM plans to matriculate a class of 80 students in 2023, 120 students in 2024, and 160 every year after that.

**Request for Deferment**

A one-year deferment may be granted for compelling reasons. Requests are to be submitted to the Director of Admissions at admissions@rvu.edu

Relations in writing at admissions@rvu.edu. If approved, the original required $2000 deposit (or whatever amount is outstanding, if any) is due within 2 weeks of being granted a deferment, in order to hold their seat in the next class. The entire $2000 deposit money will be applied to the applicant’s tuition upon matriculation.

**Transfer of Credit**

As a new medical school, MCOM will not accept transfer requests at this time.
Student Financial Services

Financial Aid

The Office of Student Financial Services is available to assist students with finding the financial resources needed to achieve their educational goals. While the primary responsibility for meeting educational costs rests with the student, the Office of Student Financial Services can help students bridge the gap between the cost of their education and their own financial resources.

The Office of Student Financial Services at RVU is committed to the highest standards of professional conduct. It is our goal to provide information and advice determined solely by the best interests of our students. You can find a copy of our Financial Aid Code of Conduct on the RVU website.

MCOM students will be eligible to apply to participate in Federal Financial Aid programs once the University obtains Title IV eligibility (expected in 2025). Current students should anticipate financing their educational costs with a combination of private loans, scholarships and their own resources. The financial ability of applicants to complete their education at the University is important because of the limited number of positions available in each class. Applicants should have specific plans for financing each year of education, including tuition, fees, living expenses, books, equipment, clinical rotation travel, expenses related to taking COMLEX or other professional examinations, and miscellaneous expenses.

We actively encourage applicants to explore all other avenues of financing and to keep the total amount of student loan borrowing to the minimum needed to cover their cost of attendance.

The University offers several scholarships and a number of other organizations also provide financial assistance. Military Health Profession Scholarships and GI Bill® Benefits may be available for qualified students.

For more information on scholarships see the website: https://www.rvu.edu/admissions/financial-aid/scholarships/do/

Students must complete the Rocky Vista University institutional applications if they wish to apply for any RVU scholarships. It is not necessary to complete a Free Application for Federal Student Aid (FAFSA.) Detailed information regarding the financial aid application procedure is posted on the website.

All new students are required to meet with a financial aid counselor or attend an informational meeting with the Office of Student Financial Services within their first semester. Continuing students during their second year are also required to do an annual financial aid training. In addition, once MCOM becomes Title IV eligible, there will be additional requirements of all students who have received any type of educational loan.

The maximum amount a student may receive from all sources of financial aid is limited to their annual Cost of Attendance (COA). The Cost of Attendance includes tuition, fees, books, supplies, health insurance, room and board, transportation and personal expenses. The costs required to take professional exams will be included in the COA for the appropriate years. An individual student’s actual costs may be higher or lower depending upon the choices he or she makes. A COA does not include living expenses for a student’s spouse or other dependents. Cost of Attendance budgets are published annually and are available upon request from the Office of Financial Aid.

Satisfactory Academic Progress Standards for Financial Aid Eligibility

Federal regulations require that Rocky Vista University Montana College of Osteopathic Medicine (RVU-MCOM) establish, publish and apply standards of Satisfactory Academic Progress (SAP) which students enrolled in the University must meet. This document represents the satisfactory academic progress policy standards adopted by RVU-MCOM for financial aid eligibility. This policy applies to all RVU-MCOM students including those applying for or currently receiving Federal, State, or any other institutional financial assistance.

The academic requirements for the Doctor of Osteopathic Medicine (D.O.) degree include the satisfactory completion of the curriculum designated by the University. Academic progress requires both quantitative and qualitative measurement. Academic records will be reviewed at the end of each term to determine if the student is making satisfactory progress towards their degree.

**Time Frame for Completion (Quantitative Measures of Academic Progress):**

**Maximum Timeframe:** The normal timeframe for completion of required coursework for the D.O. degree is four academic years. Students are expected to make progress towards their degree during each term and must complete their degree within 150% of the
published program length (six years). If at any point in time it is determined that a student cannot complete their program of study within six years, the student will become ineligible for aid and will need to submit an appeal.

The progress of each student is reviewed by the Student Performance Committee (SPC). Due to academic or personal issues, a student may require more than four years to complete their degree. In such situations, the Office of Student Affairs may establish an individual academic plan for the student or may require the student to repeat a year. The University will monitor the progress of each student to determine if the student is making sufficient progress to meet the time limits as specified.

Pace of Progression: Students must complete at least 67% of their total attempted credit hours. To calculate the pace at which a student is progressing, divide the total number of hours the student has successfully completed by the total number they have attempted.

Grade Point Average (Qualitative Measures of Academic Progress):

Grades for all courses are reported as Honors/Pass/Fail, based on a final course score that is typically on a zero to 100 scale. A student is required to maintain a cumulative GPA of 70 or above in order to maintain satisfactory academic progress for financial aid. At the end of the 2nd academic year, the student must have a GPA of at least 70% in order to meet SAP. For purposes of measuring satisfactory academic progress for financial aid, and financial aid purposes only, a grade of Pass is considered the equivalent of receiving a 70% or better in that class.

Leaves of Absence: For Title IV purposes only, periods of approved Leaves of Absence will not count toward the six-year maximum timeframe. A student may not receive financial assistance during a Leave of Absence.

Repeated Coursework: A passed course may not be repeated unless approved by the Dean. If a course has been repeated, the original grade received in a course will not count toward the student’s GPA but will be included in the quantitative assessment. Students who repeat coursework must still complete their degree within six years of matriculation.

Withdrawal/Incomplete/In Progress: Courses in which a student earned a grade of Incomplete (IN), Work In Progress (WIP), In Progress (IP), Withdrawal (W), or the equivalent, will count toward hours attempted but not earned for maximum timeframe and pace of progression but will not be included in the qualitative measure.

Grade Changes: Once an official grade is received for an Incomplete (IN), Work In Progress (WIP), or In Progress (IP) course, the student should notify the Office of Student Financial Services so the SAP status can be reevaluated.

Noncredit Remedial Courses: RVU does not offer non-credit remedial courses.

Transfer Students: Students who are accepted for transfer from other medical schools will be evaluated with respect to levels of academic progress attained, and the remaining years required to complete their degree at RVU-MCOM will be determined. The Assistant/Associate Dean of Student Affairs or their designee will make that determination and will notify the Office of Student Financial Services of the length of time the student will need to complete their degree. Transfer credits will count as both attempted and completed hours and will count toward the maximum timeframe.

Change in Program or Pursuit of a Second Degree: If a student changes their program of study or chooses to pursue a second degree, credits and grades that do not count toward the new program will not be included in the SAP determination.

Summer Terms: The DO program does not offer summer terms; therefore, it will not be included in the SAP assessment.

COMLEX Exams: Students are required to pass COMLEX Level 1 and COMLEX Level 2-CE to graduate from the RVU-MCOM Doctor of Osteopathic program. Those who do not pass the COMLEX Level 1 and/or COMLEX Level 2-CE exams may appear before the SPC who will make a recommendation addressing their academic progress to the Dean. If allowed to continue in their clinical clerkships pending successfully passing of a COMLEX exam, the student will be considered to be maintaining satisfactory academic progress for financial aid.

Students who do not pass the COMLEX Level 1 and/or COMLEX Level 2-CE exams and are placed on a Leave of Absence are not eligible to receive financial aid during their leave but may regain eligibility if allowed to return to their clinical rotations by the Assistant/Associate Dean for Clinical Education.

See the “Academic Policies” section of the RVU Student Handbook and Catalog for more detailed information on COMLEX and USMLE exam policy.

Financial Aid Warning:

Rocky Vista University will use the standardized definition of Financial Aid Warning which is defined by the U.S. Department of Education as follows:

Financial Aid Warning is a “status a school assigns to a student who is failing to make satisfactory academic progress.”
progress. The school reinstates eligibility for aid for one payment period and may do so without a student appeal."

Financial Aid Probation:

Rocky Vista University will use the standardized definition of Financial Aid Probation which is defined by the U.S. Department of Education as follows:

Financial Aid Probation is a “status a school assigns to a student who is failing to make satisfactory academic progress and who successfully appeals. Eligibility for aid may be reinstated for one payment period.”

Note that the COM may have a different definition of “academic probation.” Refer to the Student Handbook and Catalog for more information on academic probation.

Procedure:

The Office of Student Financial Services will review the full academic progress of each financial aid recipient at the end of each term, prior to the disbursement of financial aid for the subsequent term. The student’s entire academic record will be reviewed, which will also include any periods of enrollment that the student did not receive financial aid assistance. SAP review is not complete until all qualitative and quantitative measures have been reviewed.

Any student who fails to maintain satisfactory academic progress as defined by this policy will be placed on Financial Aid Warning for one term. During that term, the student will continue to be eligible for aid. At the end of a term during which a student is on Financial Aid Warning, if the student still fails to meet any of the requirements, the student will become ineligible for aid and may submit an appeal to the Office of Student Financial Services. The Office of Student Financial Services will send a written notice to students who have not made satisfactory academic progress for financial aid.

Reestablishing Eligibility:

Appeals: A student may submit a written appeal documenting mitigating circumstances (e.g., serious illness of student or family member, death of a relative), within seven (7) calendar days of the determination of their unsatisfactory academic progress.

Appeals should be sent to the Office of Student Financial Services and will be reviewed by the RVU Financial Aid Appeals Committee within ten (10) calendar days of receipt of the appeal. The student will receive written notification of the committee’s decision within seven (7) calendar days. Decisions of the Financial Aid Appeals Committee may be appealed to the Rocky Vista University Provost.

Appeals should be submitted to the Office of Student Financial Services and must include:

1. A written statement documenting the reasons for failure to meet the standards of academic progress for financial aid eligibility.
2. A written statement explaining what has changed in the student’s situation that would allow the student to bring their academic progress up to satisfactory standards.
3. Documentation supporting their appeal.
4. A written academic plan or letter from the SPC and/or the Assistant/Associate Dean of Student Affairs. The academic plan must ensure that the student is able to meet SAP standards by a specific point in time.

If the appeal is granted, and it is determined that the student should be able to meet SAP standards by the end of the subsequent payment period, they may be placed on financial aid probation without an academic plan. The student’s progress must be reviewed at the end of their probationary period. If the student is meeting the SAP requirements, they will go back into good standing. If the student does not meet the SAP requirements, they will again become ineligible for financial aid with the opportunity to re-appeal.

If the appeal is granted, and it is determined that the student will require more than one payment period to meet SAP standards, they may be placed on probation with an academic plan in place. The student’s progress will be reviewed at the end of each payment period as is required of a student on probation status. If the student is meeting the requirements of their academic plan, the student is eligible to receive financial aid funds as long as the student continues to meet those requirements. Students must appeal to change their plan. If the student does not meet the requirements of their academic plan, they will again become ineligible for financial aid with the opportunity to re-appeal.

Students who are not making satisfactory academic progress, who do not submit an appeal or have their appeal request denied, may regain eligibility only by taking action that brings them into compliance with RVU-MCOM’s satisfactory progress standards.

Any exceptions to this policy will be made on an individual basis and in compliance with federal, state and local regulations governing financial aid.

Student Health Insurance

All students are required to obtain health insurance prior to matriculation and to maintain health insurance throughout their time of enrollment at the University. Students must participate in the University-sponsored health insurance program or submit an approved
waiver with documentation of alternative equivalent coverage. If a student’s insurance is scheduled to expire during the academic year, they must obtain a new waiver form with proof of new insurance at least 30 days prior to the expiration of their old insurance. The current cost of the Student Health Insurance program may be obtained from the Office of Student Financial Services. Any student who has a lapse of health insurance coverage will be summarily removed from classes and/or clerkships and may be subject to dismissal.

**Tuition and Fees**

Tuition for MCOM for 2023-2024 is $64,254. The following annual fees will also apply to all COM students:

**Student Health Insurance**

- OMS I: $4,777
- OMS II, OMS III, OMS IV: $4,676

*All students are required to have health insurance. Students will be automatically enrolled in and billed for the RVU Student Health Insurance Plan unless they provide evidence of equivalent coverage prior to the waiver deadline date. Please contact the Office of Student Financial Services for more information.*

**Professionalism**

MCOM holds in high regard professional behaviors and attitudes, including integrity, collegiality, compassion, diversity, service, innovation and a commitment to excellence. Effective learning is best fostered in an environment of mutual respect between teachers and learners. In the context of medical education, the term “teacher” is used broadly to include peers, resident physicians, full-time and volunteer faculty members, clinical preceptors, nurses, and ancillary support staff, as well as others from whom students learn.

**Guiding Principles**

- **Excellence:** Medical educators are committed to exceeding expectations. Educators have a duty not only to convey the knowledge and skills required for delivering the profession’s standard of care but also to model the values and attitudes required for preserving the medical profession’s social contract with its patients.
- **Integrity:** Learning environments that are conducive to conveying professional values must be based on integrity. Students and residents learn professionalism by observing and emulating role models who epitomize authentic professional values, attitudes and, especially, behaviors.
- **Compassion:** The willingness to be engaged with the needs of others is a basic tenet. Respect for every individual is fundamental to the ethic of medicine. Mutual respect between students, as novice members of the profession and their teachers, as experienced and esteemed professionals, is essential for nurturing that ethic. Given the inherently hierarchical nature of the teacher-learner relationship, teachers have a special obligation to ensure that students and residents are always treated respectfully.

**Academic Integrity**

The University holds its students to the highest standards of intellectual integrity. Therefore, any attempt by a student to pass any examination by improper means, present work that the student has not performed, aid and abet another student in any dishonest academic act, or have direct knowledge of such without reporting it, will subject the offending student to a meeting before the Honor Code Committee or the Student Performance Committee for possible disciplinary action, which may include probation, suspension, or even dismissal from the University.

All students are expected to commit to academic integrity by observing the standards for academic honesty. The following acts violate the academic standards:

- **Cheating:** intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise;
- **Fabrication:** intentional and unauthorized falsification or invention of any information or citation in an academic exercise;
- **Facilitating academic dishonesty:** intentionally helping or attempting to help another to violate any provision of this code;
- **Plagiarism:** the adoption or reproduction of ideas, words, or statements of another person as one’s own without proper acknowledgment;
- **Misrepresentation;**
- **Bribery in an attempt to gain an academic advantage;**
- **Forging or altering documents or credentials;**
- **Utilization of position or power by a student for personal benefit or to the detriment of another student, faculty member, or member of the staff;**
- **Dishonesty in any form; and**
- **Behavior that does not meet the standards of the University, its affiliates, and the healthcare professions.**

Students are expected to submit tests and assignments that they have completed without aid or assistance from
other sources. Students must avoid any impropriety or the appearance of impropriety in taking examinations or completing work in pursuance of their educational goals; failure to do so may subject students to an action by the Honor Code Committee or the Student Performance Committee.

Copying of examination questions is expressly forbidden.

**Appeals Process for Code of Conduct**

Students who have been found in violation of the Code of Conduct have the ability to appeal decisions within five business days in writing. Appeals decisions will be made within ten business days of receiving the request.

- If the Associate/Assistant Dean of Student Affairs made the conduct decision of the student, the student can appeal to the Dean or Program Director.
- If the Dean or Program Director made the conduct decision, the student can appeal to the Provost.
- Professionalism committee or Student Performance Committee conduct decisions are sent as recommendations to the Associate/Assistant Dean of Student Affairs and the Dean or Program Director to make the decision. Students who are appealing this decision should appeal to the Provost or their designee.
- If the Provost (or their designee) made the conduct decision, the student can appeal to the President.

**Appeal Considerations**

- Requests for appeals must be made in writing to the next level of administrator based on who initially heard your case. The appeal must come in writing within five business days of receipt of your initial decision.
- The appeal must be based on one or more of the following: 1) a significant error in fact that materially impacted the outcome; 2) evidence of demonstrated prejudice by the initial decision maker or the Professionalism Committee that affected the outcome; 3) new material information or evidence that was not available at the time of the consideration of the matter or was not available and could not be made available to the decision maker at the time of their decision; 4) the sanction imposed is extraordinarily disproportionate to the offense committed; and 5) errors of process under the Student Handbook involving your rights that materially affected the outcome of this matter. Any new material or evidence must be submitted with the appeal.
- Once an appeal is decided, the outcome is final. Further appeals are not permitted, even if a decision or sanction is changed on remand.

**Prohibition of Retaliation**

The University prohibits retaliation against any employee or student who, in good faith, reports, rejects, protests, or complains about a Code of Conduct violation. Retaliation is a violation of University policy. The University will not tolerate discrimination, recrimination, or reprisal against any employee or student who reports or participates under this policy in good faith in a related investigation or hearing.

Complaints of retaliation should be reported to the Associate/Assistant Dean of Student Affairs or the Title IX Coordinator if related to sexual misconduct or Title IX. Such complaints will be investigated and handled in a prompt and equitable manner. Any individuals, including Reporting Parties and alleged Reporting Parties, who are determined to have made knowingly false statements during the course of an investigation, may be subject to discipline, which may include termination or dismissal.

**Classroom Behavior**

The virtual and in-person classroom is a shared learning environment and students in the classroom are required to conduct themselves in a professional manner. Any activities that distract from the learning environment, including but not limited to playing computer games, updating social media, or talking may be considered disruptive activity.

A faculty member, instructor, or proctor may dismiss any student from class who is considered to be disruptive. Any student dismissed from class for disruptive or unprofessional behavior will be reported to the Associate/Assistant Dean of Student Affairs (or the appropriate Program Director in the event the behavior relates to an MMS student) for appropriate disciplinary action and may be required to appear before the Professionalism Committee or the Student Performance Committee.

**Code of Student Conduct and Academic Responsibility**

The Code seeks to promote the highest standard of behavior and academic integrity by setting forth the responsibilities of students as members of the University community. Abiding by the Code ensures a climate wherein all members of the University community can exercise their rights of membership.
The University is a community of scholars in which the ideals of freedom of inquiry, thought, expression, and freedom of the individual are sustained. However, the exercise and preservation of these freedoms and rights require a respect for the rights of all in the community to enjoy them to the same extent. Willful disruption of the educational process, destruction of property, interference with the rights of other members of the University community, and interference with the orderly process of the University as defined by the administration will not be tolerated. Students enrolled in the University assume an obligation to conduct themselves in a professional and ethical manner compatible with the expectations of their peers, administration, and future profession. The University retains the power to maintain order within the University and to exclude those who are disruptive to the educational process or the ethical standards of healthcare professionals.

Any violations of the Code of Student Conduct and Academic Responsibility or University policies and procedures may result in disciplinary action and/or criminal prosecution where applicable. These disciplinary actions may include a variety of administrative actions up to and including dismissal. Admission candidates found to have not met the Code of Student Conduct and Academic Responsibility as outlined may be subject to rescindment of the offer of admission.

**Conduct Standards**

Students will not interfere with the rights, safety, or health of members of the University community, nor interfere with other students’ rights and privileges in pursuit of their educational goals. Students are expected to abide by all University, College, and Program rules and regulations, and all local, state, and federal laws and regulations affecting their education and profession.

Failure to abide by rules and regulations at the University, College, local, state, and federal levels may lead to a meeting before the Professionalism Committee or the Student Performance Committee (or the Student Assessment and Promotions Committee for the PA Program) and disciplinary actions up to and including dismissal from the University. Markedly egregious violations of the Code of Conduct by a student, including violent acts, crimes, or behaviors such that there is a perceived real or potential threat to University personnel or property may be referred directly to the Dean or Program Director for investigation and action without Committee involvement.

Violations include but are not limited to:

- Theft, robbery, and related crimes;
- Vandalism or destruction of property;
- Disruptive behavior/disorderly conduct on the campus, at University-affiliated sites or at any University- or club-sponsored events, on- or off-campus;
- Physical or verbal alteration, assault, battery, domestic violence, or other related crimes;
- Possession, transfer, sale, or use of illicit and/or illegal drugs, or in the case of a minor, alcohol;
- Illegal possession of or use of a firearm, fireworks, weapons, explosives, or other dangerous substances or items on campus, at University-affiliated sites or at any University- or club-sponsored event, on- or off-campus;
- Appearance in class or on campus, at University-affiliated sites, or at any University- or club-sponsored events, when the student is impaired due to the use of drugs or alcohol;
- Failure of any student to report another student who has indication of impairment while that student is interacting with patients;
- Any act or conspiracy to commit an act that is harassing, abusive, or discriminatory or that invades an individual’s right to privacy, including but not limited to sexual harassment; discrimination and abuse against members of any racial, ethnic, national origin, religious group, or on the basis of sex/gender, sexual orientation, marital status, or cultural group and/or any other protected group or as a result of an individual membership in any protected group;
- Sexual misconduct;
- Stalking;
- Unacceptable use of computing resources as defined by the University;
- Impeding or obstructing a University investigatory, administrative, or judicial proceeding;
- Threats of or actual physical harm to others, or damage or vandalism to property;
- Any activity that may be construed as hazing or engaging in, supporting, promoting, or sponsoring hazing of another student, faculty, or staff member;
- Embezzlement or misuse of University and/or student organizational monies or resources;
- Failure to comply with the directives of a University official;
- Violations of the terms or conditions of a disciplinary sanction imposed by the administration;
- Violation of state or federal law, rule, regulation, or ordinance;
- Violation of HIPAA privacy requirements; and
- Fraud, misrepresentation, forgery, alteration, or falsification of any records, information, data, or identity.
Disciplinary Sanctions

Any violations of the conduct standards may result in a complaint being filed against the student. The Provost, Associate Deans, or Directors of Education at clinical sites may, at their discretion, immediately suspend a student pending a hearing on the charges. Violations are subject to disciplinary action, up to and including, suspension or dismissal from the University. Students found in violation of the codes of student conduct and/or University policies and procedures may have one or more sanctions as described below. The list does not exclude other actions that may be directed by the Provost.

Students may be asked to participate in a Conduct Investigation as the respondent or possible witnesses. Students who are asked to participate should keep all related matters and conversations confidential throughout the investigation. Violation of confidentiality is a breach of the student code of conduct and may result in disciplinary action.

Reprimand

A reprimand is an oral or written notification to the student that continuation of wrongful conduct may result in more severe disciplinary penalties. Whether oral or written, the reprimand will be noted in the student’s file. The Student Non-Professional Conduct Report may be used to document violations of behavioral conduct. A reprimand may also include the following sanctions:

• Verbal Warning: A verbal admonition to the student by a University faculty, administration, or staff member that his/her behavior is inappropriate. A verbal warning will be noted in the student’s file for a designated period of time and expunged, at the discretion of the Associate/Assistant Dean of Student Affairs, if no further violations occur;
• Disciplinary Warning: Formal notice to a student that his/her action and/or behavior have not met University standards. This sanction remains in effect for a designated period of time and may be expunged from the student file at the discretion of the Associate/Assistant Dean of Student Affairs;
• Restitution: Payment made for damages or losses to the University directed by an adjudicating body; or
• Restriction or Revocation of Privileges: The temporary or permanent loss of privileges, including, but not limited to, the use of a particular University facility, visitation privileges, and parking privileges.

Disciplinary Probation

Disciplinary probation is a period of time during which a student has the opportunity to demonstrate that they can effectively cease behavioral misconduct. Probation can be for any period of time.

While on probation, the student is prohibited from:

• Holding office in any University organization, clubs, or student government;
• Attending international medical mission trips;
• Being elected to any honorary position.

Additionally, students holding leadership office may be removed from their positions.

During probation for disciplinary reasons, the student must show appropriate behavioral, professional, and personal conduct as defined in the conditions of his or her probation. The student may be required to seek professional behavior modification, education, or counseling. Additionally, the student is required to refrain from any further violation of the code and may be required to comply with any other requirements intended to rehabilitate the student. If, while on probation, the student violates the terms of his or her probation, actions may be taken up to and including dismissal from the University.

Suspension

Suspension bars a student from attending school for a defined period of time with revocation of all other privileges or activities, including the privilege of entering the campus for a specified period of time. Suspension is included in the calculation of the college’s established time limit for completing all graduation requirements.

In clinical years, suspension can be imposed for the remainder of the current clerkship and/or future additional clerkships. Readmission will not be entertained until the suspension period is completed and is subject to approval of the Dean or Provost. The student is barred from the campus and University-affiliated sites without specific approval during the time of the suspension.

Other Appropriate Actions

Disciplinary action not specifically outlined above, but approved through the Dean or the Associate/Assistant Dean of Student Affairs or their designee.

Dress Code

RVU Students must follow the following dress code requirements while on campus during business hours (typically 8am – 5 pm).
The RVU dress code reflects the dignity of the health care profession and respect for other students, faculty, administration, staff, and particularly special visitors.

The dress code reflects a general minimum standard for the campus community. Students should refer to the course syllabi and program handbooks for further specific dress requirements (e.g., labs, lectures, rotation sites). The University has the right to require specific dress for specific occasions (e.g., special guests on campus, "casual Fridays") and students will be notified of any adjustments. Questions regarding appropriate attire may be directed to the Office of Student Affairs and setting-/program-specific leadership.

The different learning and teaching environments at RVU may require different dress styles and what is appropriate for one setting may be inappropriate for other settings. (e.g., lab, lectures, OPP lab, recreational activity). Regardless of the setting, all clothing should be neat, clean, and respectful of others. Everyone is expected to be well-groomed and wear clean clothing, free of holes, tears, or other signs of wear beyond normal functionality. Students are allowed to dress the full day for the learning experience that they are engaged in; for example, if they are in lab they may wear lab attire for the entire day. However, lab attire that consists of shorts, sports bra, or bare chest should be covered by appropriate outerwear or clinically-appropriate scrubs while not in lab. Students practicing OMM skills outside of lab, may be permitted to wear lab appropriate clothing while practicing.

Appropriate attire does not include clothing with rips, tears or frays; or any extreme style or fashion in dress, footwear, accessories, or fragrances. Inappropriate attire also includes clothing having language or images that can be construed, based on societal norms, to be offensive or contribute to a hostile learning and working environment. Hats and headwear are not permitted other than for religious or cultural purposes.

All students are permitted to wear the clothing of their choice regardless of traditional gender norm conformity. Students may dress in accordance with their gender identity and gender expression, provided that such clothing does not violate other aspects of the university dress code.

Students should be open to feedback regarding their attire from peers, faculty, and staff, as the attire of any student can impact others and the RVU community. Questions or concerns regarding dress or dress-related feedback can be brought to the Assistant/Associate Deans of Student Affairs whose decision will be final in the event of an issue. Generally, students will be expected to self-monitor their own attire. However, egregious or repeated dress violations will be considered unprofessional behavior and may result in a disciplinary sanction outlined in the Code of Conduct.

Students may be asked to leave campus to change if they are inappropriately dressed depending on the specific situation and case.

When uncertain, students should default to business casual attire or professional scrubs with a white coat on top. Business casual is generally characterized as: slacks/trousers, jeans, dresses, and skirts with modest lengths; collared shirts, sweaters, and blouses; clothing that covers the chest, back, torso, stomach, and lower extremities from armpit to mid-thigh when the body is standing straight and when bending over or reaching the hands above the head; tops that have shoulder straps; bottoms that fully cover an individual’s buttock. Business Casual attire is not required after 5pm, but appropriate clothing is still expected.

Cultural and religious attire is welcomed as long as it is safe and appropriate for the specific learning environment. Students must wear their RVU ID at all times unless outlined differently in course or clinical syllabus.

When on location at clinical training sites, students must adhere to the training site’s dress code. Students are required to reach out to each of their training sites one week prior to the beginning of each clerkship rotation to learn the appropriate attire.

**EthicsPoint Complaint Reporting Hotline**

EthicsPoint is an anonymous or confidential reporting tool available 24/7/365 for reporting serious violations of law, regulation, code of conduct, or policies which may include compliance issues, discrimination, fraud, waste and abuse, or serious misconduct.

**Phone Reporting (844-936-2729):** EthicsPoint has a toll-free phone reporting system that is available 24-hours a day, seven days a week, every day of the year. It is available to all RVU students. When a student calls, he/she/they will reach an independent third-party service provider, completely independent of RVU. When the EthicsPoint phoneline is called, a specialist will answer the call and make a detailed summary of the question or concern raised. The caller’s voice is never recorded, and the caller has the option to remain anonymous if they wish; however, it may be difficult to resolve an issue if the complainant does not provide their name. All calls are given a special reference number, and the complainant will be encouraged to call back within a specified time to check on the status of their case.

**Web Reporting (rvu.ethicspoint.com):** The web-based version of EthicsPoint is made available to students who are more comfortable asking questions or raising concerns through the web. When accessing the
EthicsPoint website, RVU’s network system is left entirely and the case will be recorded on an independent third party’s system. And as with the RVU phone line, the complainant can remain anonymous; however, it may be difficult to resolve an issue if the complainant does not provide their name. All reports entered through the EthicsPoint website are also given a reference number, and encouraged to follow up within a specified time to check on the status of their case.

Honor Code

RVU students follow this credo: “As a student of Rocky Vista University, I will be ever vigilant in aiding in the general welfare of the community, sustaining its rules and organizations, and will not engage in practices that will in any way bring shame or discredit upon myself, my school, or my profession.”

Impaired Student Policy

The safety and welfare of patients demands that all healthcare providers perform at the highest level of cognitive ability. The illegal use or abuse of drugs or alcohol impairs the ability of a healthcare professional to provide optimal care and may impact the student's future ability to be licensed as a healthcare provider, at a state’s discretion. Please check applicable state laws. Although the use of marijuana is legal in the states of Colorado and Montana, it is listed as an illegal drug by the U.S. Federal Drug Enforcement Agency. As such, the use of marijuana in any form that has not been prescribed by a physician for medical purposes is a violation of University policy.

All students, as a condition of enrollment at Rocky Vista University, must agree to abide by the University’s Impaired Student Policy. Under this policy, students who are identified as suffering from substance abuse or addiction or who exhibit symptoms suggestive of impairment, either on campus or at one of its affiliates, are subject to immediate drug and alcohol screening and may be referred for further evaluation and treatment. Students undergoing further evaluation and treatment as indicated are protected by confidentiality of services. Refusal of a mandatory drug and alcohol screen will be grounds for immediate dismissal by the Dean or the Provost.

Any member of the University community who observes a student with symptoms suggestive of impairment, substance abuse, or addiction must report the matter to the Associate/Assistant Dean of Student Affairs or the Provost immediately.

Policies and Procedures for Alleged Code of Conduct Violations

Any member of the University community may file a written complaint with the Office of Student Affairs.

During the period of time of any disciplinary action, except dismissal, the student may be directed to comply with specific requirements including counseling, auditing one or more courses, medical treatment, preparing scheduled reports, or other requirements intended to rehabilitate the student and/or to ensure that the student is able to continue with his or her education without further monitoring.

Records of dismissal or leave of absence (administrative or voluntary) and the date of each determination shall be placed in the student's permanent records. The Professionalism Committee shall have non-exclusive authority to evaluate all alleged student violations of misconduct, whether academic, professional, or ethical. Exceptions to this authority include, but are not limited to, the following:

- Nothing shall limit the right of the University or a University-affiliated institution to immediately remove a student who poses a threat, has been accused of a violent act or threat, appears impaired, or any act that constitutes a violation of state, local, or federal law. A student who has been removed from the University shall not return until given permission to do so by the Provost;
- Complaints of sexual misconduct or sexual discrimination must be handled by the University's Title IX Coordinator;
- The Provost is authorized to take whatever action is deemed necessary, including removing a matter from the Professionalism Committee's consideration, whenever in the judgment of the Provost such action may prevent harm to the health, safety, and welfare of any individual, to school property, or to the integrity of the educational process.

Preponderance of Evidence in Investigations

As a general policy standard, a Preponderance of Evidence standard will be applied to all University investigations. Under the preponderance standard, the burden of proof is met when the party with the burden convinces the fact-finder that there is a greater than 50% chance that the claim is true.
Privacy for University Communications

There is no expectation of privacy of information stored on or sent through University-owned information services, resources, and communications infrastructure. FERPA regulations are followed in regard to student records.

The University reserves the right to preserve or inspect any information transmitted through or stored in its computers, including e-mail communications and individual login sessions without notice when:

- there is reasonable cause to believe the user has violated or is violating University guidelines or procedures;
- an account appears to be engaged in unusual or excessive activity;
- it is necessary to do so to protect the integrity, security, or functionality of the University’s information technology resources or to protect the University from liability; and/or
- it is otherwise permitted or required by policy or law.

The University is not liable for the loss of or misappropriation of any private or personal information that may be stored on University resources.

Professionalism Committee

The purpose of this committee is to serve as a focus of expertise and as a resource for recognizing exemplary professional behavior and for monitoring and improving lapses of professional behavior in students. The committee will manage lapses in student professionalism across all years of instruction. The primary function of the committee is to review Professionalism Improvement forms that have been submitted to the chair, gather information about the incident or issue, and offer a recommendation for remediation as appropriate. The committee will also monitor outcomes of remediation. Repeated or serious lapses, or failure to engage in remediation, may be reported to the Student Performance Committee (SPC) for further disciplinary action. The committee will also review exemplary professionalism forms and recognize outstanding examples of professionalism among students.

Examples of unprofessional behaviors that would warrant further action include repeated tardiness; non-inclusive or discriminatory behavior, offensive or inappropriate use of language, unexcused absence from a required activity; disruptive behavior in the classroom, clinical setting, or administrative setting; academic dishonesty; abdication of responsibility for patients, harassment, or violence.

Statement of Student Rights and Responsibilities

The University upholds the highest standards of academic excellence. Each student has certain rights and responsibilities, including the following:

- Personal and intellectual freedom;
- Respect for the equal rights and dignity of all University community members;
- Dedication to the scholarly and educational purposes of the University;
- Participation in promoting and ensuring the academic quality and credibility of the institution; and
- Responsibility to comply with the legal and ethical standards of the University, the professional organizations and institutions with which it has partnered with the ethical standards of healthcare professions, as well as those of the local authorities, the state and national laws, and applicable rules and regulations.

- As a general policy standard, a Preponderance of Evidence standard will be applied to all University investigations. Under the preponderance standard, the burden of proof is met when the party with the burden convinces the fact-finder that there is a greater than 50% chance that the claim is true.

Program Policies and Procedures

Health and Technical Standards

All candidates must meet health and technical standards to be admitted to, participate in, and graduate from MCOM. Because the DO degree signifies that the holder is a physician prepared to enter postgraduate training programs (residency programs), MCOM graduates must have the knowledge and skills required to function in a broad variety of clinical situations and must be prepared to provide a wide spectrum of patient care. A candidate for the DO
degree must have abilities and skills in the areas described below and meet the standards described as an obligation to patients and society.

Reasonable accommodations will be made as required by law; however, the candidate/student must be able to meet all technical standards with or without reasonable accommodation. Please refer to the section called Disabilities and Academic Accommodations in the RVU Student Handbook. The use of a trained intermediary necessarily requires that a candidate’s judgment be mediated by someone else’s power of selection and observation and is not a permissible accommodation. Enrolled students who are unable to meet these standards may be investigated by the Student Performance Committee and may be subject to dismissal.

Immunizations

Students must satisfy all requirements for immunizations at the time of matriculation and throughout their medical school career. Failure to do so will prevent matriculation or, in the case of an enrolled student, lead to dismissal. For specific information, please see the section called "Health Records and Immunizations" in the RVU Student Handbook.

Observation

Candidates must be able to observe demonstrations and experiments in the basic and clinical sciences in various learning environments, including classrooms, labs, and clinical settings. This includes but is not limited to the ability to observe a patient accurately at a distance and close at hand. Observation requires the functional use of the vision and other senses.

Communication

Candidates should be able to speak, hear, and observe patients to elicit information; describe changes in mood, activity, and posture; and perceive nonverbal communication. Candidates must have a strong command of the English language. A candidate must be able to communicate effectively and sensitively in verbal and written form with patients and all members of the healthcare team.

Sensory/Motor

Candidates must have sufficient motor function to obtain information by palpation, auscultation, percussion, and other diagnostic and therapeutic maneuvers. A candidate should be able to perform basic laboratory tests (e.g. urinalysis, blood tests, etc.), perform medical procedures (e.g. ultrasound, venipuncture, catheter insertion, etc.), and interpret diagnostics test (e.g. ECG, radiological images, etc.). A candidate should be able to execute motor movements reasonably required to provide general medical and surgical care, osteopathic manipulation, and emergency treatments to patients. Examples of emergency treatment reasonably required of physicians are cardiopulmonary resuscitation, administration of intravenous medication, application of pressure to stop bleeding, opening of obstructed airways, suturing of simple wounds, and performance of simple obstetric maneuvers. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision. Candidates must be able to lift a minimum of 40 pounds and stand for a minimum of one hour.

Conceptual, Integrative, and Quantitative Abilities

Candidates must possess conceptual, integrative, and quantitative abilities, including measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of physicians, requires all of these intellectual abilities. In addition, candidates should be able to comprehend three-dimensional relationships and to understand the spatial relationship of structures. Candidates must be able to sit in a classroom and participate in a full eight-hour day. The practice of medicine requires periods of distinct concentration in surgery, trauma, emergency room care, and other patient settings. Candidates must be capable of extended periods of intense concentration and attention.

Behavior and Social Attributes

Candidates must have adequate emotional health and emotional intelligence required for full use of intellectual abilities to exercise of good judgment and behave in a professional manner at all times. Candidates must be able to successfully interact with other people with appropriate social skills. Candidates must be able to tolerate physically and mentally demanding workloads and to function effectively under stress. They must be able to adapt to changing environments, display flexibility, and learn to function in the face of uncertainties inherent in various clinical scenarios.

Employment During School

Employment of any kind during medical school is highly discouraged. The demands of medical school are rigorous and extremely time-consuming as to preclude most employment opportunities. Student doctors should contact the Office of Student Financial Services for help with budgeting or emergency loans rather than seeking outside employment.

Practice of Medicine

RVU students are strictly prohibited from engaging in any activities that might be construed as the practice of medicine without the proper supervision and direction of designated members of the clinical faculty, whether such activities are engaged in for compensation, done
as a volunteer, or otherwise. Any student who is a healthcare worker and wishes to be employed in the health-related field must contact the Office of Student Affairs and forward a request to the Dean. All decisions of approval or disapproval will come from the Dean.

**The Health Insurance Portability and Accountability Act of 1996 (HIPAA)**

Refer to "Health Insurance Portability and Accountability Act of 1996 (HIPAA)" of the University section of this catalog.

**OSHA - Biosafety, Universal Precautions, and Bloodborne Pathogens**

Refer to "OSHA - Biosafety, Universal Precautions, and Bloodborne Pathogens" in the University section of this catalog.

**Intercampus Transfer Policy**

MCOM understands that situations arise in which an enrolled student believes s/he would be better suited at the alternative campus location. However, only special cases with extenuating circumstances will be approved. Students may begin the process for request by meeting with the Associate Dean of Student Affairs at their current campus location.

If it has been determined that space is available at the desired campus location, the application/request will be considered. The requestor must be in good academic standing at the time of transfer, unless a compelling case is established and approved by the Dean. Admission application, behavioral and professionalism concerns, and feedback from faculty and staff may also be considered with the request. In these rare cases of approval, students will not be able to transfer back to their original campus location.

**Osteopathic Clinical Skills (OCS)**

All Osteopathic Clinical Skills (OCS) courses include didactic presentations, demonstrations, practical laboratory experiences and clinical opportunities. During these activities, students establish their knowledge and ability to recognize and utilize the relationships between structures and function that are integral to osteopathic medicine. The student must develop the knowledge and skills necessary to integrate the principles and coordinate the proper osteopathic and clinical techniques to prevent and treat pathology and dysfunction. Concurrently, the students will learn other medical approaches to the treatment of disease and dysfunction in the systems courses. Each course provides education on the principles, philosophy and history of osteopathic medicine, examination and evaluation of the patient, and the proper selection and application of osteopathic treatments and techniques. The OCS courses require the active participation of all students in the laboratory setting where the student, through the active and tactile examination of others along with reciprocal examination, will learn and demonstrate the ability to evaluate and proficiently treat their future patients. The training of an osteopathic physician requires the ability to perform tactile examinations and osteopathic manipulative techniques on members of the same and opposite sex. The training of an osteopathic physician also requires that a student experience and understand tactile diagnostic exercise and manipulative treatment. Students are required to participate both as patients and as trainees in the OCS laboratory and examine and be examined by members of the same and opposite sex. A graduate from MCOM has the ability to apply for licensure as a physician in all fifty states. Their license is not restricted to any one particular sex, and candidates for graduation must demonstrate the ability to practice medicine on both males and females. Safety is of primary concern in MCOM lab experiences. Students are expected to communicate immediately and directly with the lab faculty regarding any potential injuries sustained in the lab setting. If a student believes they have an injury limiting their participation in the lab activities for the day, it is their responsibility to make sure their faculty is aware. Please refer to department policies and procedures available in course syllabi.

**Regarding AOA COCA Standards & Procedures**

Students enrolled at RVU may also file a complaint regarding the University’s adherence to accreditation standards directly through the University. No anonymous complaints will be processed. Complaints should be filed in writing with the Associate/Assistant Dean of Student Affairs of the respective location. Resolution of the complaint shall be made in writing/electronically to the complainant. The Associate/Assistant Dean of Student Affairs will make an effort to process and adjudicate the complaint on a timely basis, although processing time may vary depending on the subject matter and complexity of the complaint. A letter of adjudication and resolution will be issued to the complainant. A student who is not satisfied with the adjudication and resolution of the complaint regarding AOA COCA Accrediting Standards and Procedures may appeal to the Dean of RVU in writing within ten days of the letter of adjudication and resolution of the complaint. The decision of the Dean on appeal will be final. No action shall be taken by RVU against a student for filing a complaint.
Students may also lodge complaints or grievances against RVU with the Commission on Osteopathic College Accreditation should they so desire at the following address:

Director, Department of Accreditation
American Osteopathic Association
142 E. Ontario St., Chicago, IL 60611
Toll-free: (800) 621-1773; Local: (312) 202-8000
Fax: (312) 202-8200
predoc@osteopathic.org

Academic Policies

Academic Probation
Any student who fails two or more pre-clinical courses, one clinical clerkship, or one COMLEX examination will be placed on academic probation. Students on academic probation are ineligible to hold an office in an RVU student club or organization, serve as a RVU ambassador or tutor, hold any leadership role at RVU, or participate in a fellowship. Students will remain on academic probation, and not in good academic standing, until the academic deficiency has been successfully corrected.

Academic Promotion
Promotion is defined as progression from one academic year to the next. A student must satisfactorily complete all course requirements in the preceding academic year in order to progress to the next academic year and to be considered as making satisfactory academic progress.

General Program Advising (Academic)
The Directors of Preclinical Education provide student support upon matriculation, general guidance throughout Years 1 and 2, and referral to additional support services when needed. Students are encouraged to initially seek guidance from their course syllabus, professor, or course director should course-specific questions arise. Access to Director of Preclinical Education contact information can be found via the MyVista Student Portal.

OMS I to OMS II
Students who have completed the following requirements will be eligible to be promoted to the second year (OMS II) of the program:

- Successful completion of all required OMS I coursework; and
- Documentation of current health insurance on file with the Office of Student Financial Services.

OMS II to OMS III
Students who have completed the following requirements will be eligible to be promoted to the third year (OMS III) and begin clinical clerkship rotations:

- Successful completion of all required OMS I and OMS II curriculum;
- Students must sit for COMLEX Level 1 by July 1st—prior to when their first rotation begins;
- Students must pass the COMLEX Level 1 before they can advance to their second core clerkship;
- If a student does not pass the COMLEX 1 on their first attempt, they will meet with the SPC;
- The student will not be permitted to participate in additional clinical rotations until they have passed the COMLEX Level 1.
- Updated background check on file with Office of the Registrar;
- Updated and negative drug screening on file with the Office of the Registrar;
- Documentation of all required health records on file.

OMS III to OMS IV
Students who have completed the following requirements will be eligible to be promoted to the fourth year (OMS IV) of the program:

- Successful completion of clinical clerkships by June 30;
- Updated background check on file with Office of the Registrar;
- Updated and negative drug screening on file with the Office of the Registrar;
- Documentation of all required health records (including current PPD) on file with the Office of the Registrar;
- Documentation of current health insurance on file with the Office of Student Financial Services; and,
- Passing scores on the COMLEX Level 2 CE examinations by September 1st of the student’s fourth year.

Students who fail to complete any requirement may not be allowed to engage in audition clerkships until the requirements are completed and they are certified for the fourth year (OMS IV) of studies.

Academic Standing
A student’s academic achievement is reviewed at the end of each semester by the Office of the Registrar.

Good Academic Standing
A student is considered to be in good academic standing when they have no more than one outstanding course remediation, have satisfactorily completed all required course work to date, have successfully completed all required Board Exams on schedule, and have achieved the minimum GPA required for their program (term and cumulative, if applicable). All students must have satisfactorily completed all required academic course work, including the required core clerkships, and be certified by the Dean before they can sit for any national board examinations.

**Academic Warning**

Any student who fails one required, pre-clinical course that has not been successfully remediated will be placed on academic warning. The student will be required to meet with the Director of Preclinical Education (DPCE) and follow a prescribed remediation plan. The academic warning remains in place until successful remediation of the course.

**Attendance**

Attendance at the following educational experiences is required:

- All quizzes, exams, and competency assessments and exams;
- Engaged Learning Sessions (ELS);
- All laboratory sessions (anatomy portions of systems courses, OCS labs, etc.);
- All scheduled clinical experiences (Clinical Clerkships and Electives, Standardized Patient, SIM, OCS, One-on-One, etc.);
- Any other sessions designated by a Course Director.

**Clinical Education**

The focus of the clinical experience in years 3 and 4 is patient care and interaction. One hundred percent attendance is, therefore, required to be sure that continuity of care is maintained. It is understood that certain situations may arise that will result in an absence from required daily participation. In such instances, the following policies will be observed:

- Absences for any reason must be approved by both by both the Preceptor and the Department of Clinical Education leadership (e.g. Clerkship Director, Regional Director, Clinical Dean).
- Preplanned absences - Submit the Clinical Education Excused Absence Request form in iNet for preplanned absence as soon as event dates and details are known.
- Emergency absences - Submit the Clinical Education Excused Absence Request form in iNet the same day as any emergency absence

**Didactics and Simulations**

- Attendance is required unless approved by the Clerkship Director.
- Absences or partial attendance must be directly related to rotation requirements, illness or accident, or another emergency to be approved by the Clerkship Director.
- Requests for absences or partial attendance should be submitted before the didactic/simulation session or as soon as possible after the session when prior notification is not practicable.

**Core and Elective Clerkship Grading**

Grades for the six core clinical clerkships are determined from the Faculty Evaluation of Medical Student Performance and the student’s score on the corresponding NBME Subject Examination (shelf exam). Additional details and grading components are provided in the course syllabi.

Elective clerkship grades are determined from the Faculty Evaluation of Medical Student Performance and additional grading components as outlined in the course syllabi.

**Incomplete Coursework**

A course grade of "Incomplete" will only be granted when approved by the Associate Dean of Student Affairs or the appropriate Director of Preclinical Education. Incomplete grades must be completed within the designated time frame or they will result in a course failure. Incomplete coursework must be completed before progressing to the next academic year.

Poor attendance, repeated tardiness, unapproved absence(s), or absences in excess of 3 days may result in a grade of incomplete, and the student may be required to repeat the entire Clinical Education Clerkship.

**Quality Points**

Quality points are the cumulative points used to calculate grade point average and class rank. Only courses with numeric final scores contribute to quality points.

For courses where a numeric score is assigned, the value is used to calculate the quality points. For example, a final grade of 85.2 earned in a 2-credit course will award 170.4 quality points (85.2 x 2 = 170.4).
Class Rank

Class rank for each student will be reported by quintile and be based on student performance in OMS I, OMS II, and OMS III years. Each year will contribute one-third to the final ranking. For the preclinical years (OMS I and II) quality points will be used to determine ranking. For OMS III, ranking will be determined from student performance within core clerkship courses. Ranking will be reported on official MCOM transcripts at the end of OMS I, OMS II, and OMS III and on the MSPE that is made available through ERAS. All rankings will be reported by quintile, unless specifically required by residency programs, military requirements, scholarships, or otherwise.

Academic Grievances Policy (Grade Appeal)

Matters regarding grading disputes of assessments within a specific course or other requirement shall include all concerns related to specific grades received or the processes by which grades are determined.

Except under unusual circumstances, all grades (including the final grade for cumulative course performance) will be determined by the Course Director. When extraordinary circumstances bring a student to seek an appeal of a decision regarding a course grade, the student must seek solutions through the following administrative channels, entering at the appropriate level and proceeding in the order stated below. All appeals and decisions must be in writing.

1. Course Director(s);
2. Assistant Deans of Preclinical Education for OMS I and II or Assistant Deans of Clinical Education, as appropriate, for OMS III and IV (Final level of appeal)

A student seeking to resolve a grading concern through the administrative channels above must initiate formal action in writing within ten business days from the date that the course grade has been finalized. The written appeal must state the circumstances surrounding the grade dispute, with specificity. Review of the student problem and complaint at each administrative level will be carried out as expeditiously as possible. If the student is not satisfied with the decision, he or she may appeal to the next administrative level. If the student chooses to continue the appeal, this must be done in writing within five business days of the date the decision was rendered at each level of the appeal (excluding weekends and official school holidays).

Clinical Electives

Students are required to complete/upload many documents related to clinical electives. The Office of the Registrar is able to upload certain documents including, but not limited to:

- Official transcript
- Letters of Verification

The Department of Clinical Education can provide the following documents:

- Letters of Recommendation
- Liability insurance documentation

Students should also obtain a professional headshot, such as the white coat photo provided by RVU at the beginning of Year One. These photos are available for download on the MyVista Student Portal.

COMLEX: Comprehensive Osteopathic Medical Licensing Examination

General Information

Passing Level 1 and Level 2 of the Comprehensive Osteopathic Medical Licensing Examination-USA (COMLEX-USA) from the National Board of Osteopathic Medical Examiners (NBOME) is a graduation requirement. These examinations are:

- COMLEX-USA Level 1
- COMLEX-USA Level 2 CE

Students must take COMLEX-USA Level 1 prior to the start of their first clinical clerkship rotation.

Students must pass the COMLEX-USA Level 1 before they can advance to their second core clerkship.

Students preparing COMLEX-USA Level 2 CE for may not miss scheduled clerkships or alter the established clinical training schedule to study during their OMS III or OMS IV years outside of any time designated for board review by the COM administration, policy, or procedures unless authorized by the Associate Dean of Clinical Education or designee.

COMLEX-USA Level 1:
Students at the COM will be eligible to take COMLEX-USA Level 1 after they have:

- Successfully completed all the requirements of the OMS I and OMS II academic curriculum.
- Received attestation from the COM of good academic and professional standing.

COMLEX-USA Level 1 Failure:

The student cannot participate in clinical clerkships until the COMLEX-USA Level 1 exam has been retaken and a passing score is achieved.

Students who do not pass COMLEX-USA Level 1 after three attempts will be subject to dismissal from the COM without the option to appeal.

COMLEX-USA Level 2-Cognitive Evaluation (CE) Eligibility:

Students at the COM will be eligible to take COMLEX-USA Level 2 after they have:

- Successfully completed all the required core clinical clerkships of the OMS III curriculum.
- Received attestation from the COM of good academic and professional standing.

COMLEX-USA Level 2-Cognitive Evaluation (CE) Failure:

Students who do not pass COMLEX-USA Level 2 CE after 3 attempts will be subject to dismissal from the COM without the option to appeal.

COMLEX-USA Level 2-Performance Exam (PE):

COMLEX-USA Level 2-PE was suspended indefinitely in February 2021 and formally discontinued in June 2022. COMLEX-USA candidates are currently verified by attestation from the COM dean that they are proficient in these important clinical skills.

COMLEX-USA Level 3 Eligibility

Candidates will be eligible to take COMLEX-USA Level 3 after they have:

- Passed both COMLEX-USA Level 2-CE and Level 2-PE equivalent.
- Successfully graduated from the COM with a DO degree as attested by the Dean.
- Receive attestation by the Residency Program Director of an ACGME accredited program that you are in good academic and professional standing.

Excused Absences and Make-up

If a student is unable to attend a required academic event (e.g. clerkship day, quiz, exam, lab), student must seek an Excused Absence approval from the Department of Student Affairs or the Department of Clinical Education by completing the Excused Absence Request Form prior to the required session, except in cases of emergency where proactive communication is not possible. Examples of situations which would generally be approved for an Excused Absence from a required event include significant mental, emotional, or physical illness, emergency, or presentation at a professional conference.

Examples of situations that would generally not be approved for an Excused Absence from a required event include weddings, graduations, or religious holidays.

Students seeking an excused absence for a medical reason must provide a signed note from a licensed medical provider indicating they were seen/treated. Family members may not provide a note in support of excused absence requests.

If a student is absent from a required event and does not submit the appropriate Excused Absence Request Form in advance or if the request is not approved by the Department of Student Affairs or the Department of Clinical Education, the student will receive a grade of zero for that event.

If an absence is appropriately excused, a student will be allowed to make-up the required activity/exam or participate in an equivalent session. In order to take an examination at any time other than the originally scheduled time (early or late), a student must be approved for an Excused Absence. A student who does not take an examination at the scheduled time and is appropriately excused will be allowed to take a make-up examination, if eligible. A student who does not take a quiz at the scheduled time and is appropriately excused will generally receive a 0/0. However, under certain circumstances, a make-up quiz may be administered. A student who is excused from attending a required lab will not miss any required points for the lab. However, that student should not expect faculty to recreate the lab experience. Hence, it is critical for students to attend all labs, whenever reasonably possible. If the student misses a scheduled make-up examination, the student will receive a zero for that examination.

For pre-clinical students, the Excused Absence form is located on the RVU iNet webserver.
Grade Point Average
RVU grade point averages (GPA) are based on a 100-point scale. The GPA is calculated by dividing quality points by GPA credit hours (pass/fail coursework is already excluded). The GPA will be a two-digit number with two decimal places and will not be rounded.

Grading
Understanding how Rocky Vista University calculates grades, quality points, class rank, and academic standing is important throughout enrollment.

Explanation of Grades
The Preclinical Curriculum: MCOM requires a score of 70 or above to pass all courses; any score below 70.0 is failing.

Final course grades on the student’s transcript will only be shown as an Honors (“H”), Pass (“P”), or Fail (“F”) grade. For numerically scored courses, any student achieving a score ≥ 90.0% will receive an Honors (“H”) course grade on the transcript. Students scoring between 70.0 and 89.9% will receive Pass (“P”) course grade on the transcript. Those receiving a score of < 70.0% will receive a Fail (“F”) course grade on the transcript. By convention, the Learning Management System (LMS) reports a 3-digit numeric score to represent the final course score percentage and is converted to an H, P, or F on the transcript. For example, an “89.9%” course score is submitted by the LMS as a “899” and reported on the transcript as a “P”. Some courses at MCOM do not accumulate numeric scores. For these courses, an Honors, Pass or Fail is assigned not only for the transcript but also for the course, and these grades do not contribute to the determination of quality points or class rank.

For the majority of MCOM courses in the preclinical years, if an overall course mean falls below 83%, whole raw course points will be added to each student’s overall course grade such that the course mean is adjusted to as close to an 83% as possible, without exceeding an 83%.

Limitations of Accommodations for Religious Observance
The practice of medicine requires physicians and students to be available for patient care all days of the week and at any hour of the day. Medical student learning activities may be scheduled any day of the year with mandatory attendance.

Remediation of a Course
Procedure
If a preclinical student receives approval to remediate a course failure, they, in conjunction with the Director of Preclinical Education, the Course Director, and the Office of Testing will be required to develop a remediation plan and schedule. Remediation examinations must be proctored by an RVU employee or designee. Preclinical remediations must be completed by July 1 of the current academic year.

In Years 3 and 4, students who fail a course will be referred to the Assistant Dean of Clinical Education (or their designee). In many cases, the remediation plan will be decided between the Assistant Dean of Clinical Education (or their designee) and the student. However, the Assistant Dean of Clinical Education (or their designee) may refer the student to the SPC. In such cases, if SPC recommends remediation of the course and the recommendation is upheld by the Dean, then a remediation plan will be created by the Assistant Dean of Clinical Education (or their designee).

Grading
MCOM follows AAMC guidelines regarding transparency of academic records for medical students. Any student who successfully remediates a course failure will have their transcript notated with the Grade Code of 'NX' and a Grade of 'PX' to indicate a successful remediation has taken place. For Quality Point (used in class rank and GPA calculation), a 70.00 multiplied by the course credit hours will be awarded for successfully remediated pre-clinical courses.

Remediation examinations for course failures in OMS I and OMS II must be successfully completed before a student can advance to the next stage of the curriculum. In the event the remediation of a course is failed or not completed, the original course grade shall be recorded on the transcript with the original course Grade Code. Any student who fails a remediation will be referred to the Student Performance Committee and may be subject to dismissal.

Repeated Courses
Once passed, a course may not be repeated unless the student is repeating the entire year. When repeating a course, both grades will appear on the transcript, with the most recent numerical grade used for grade point average and/or class rank calculation and quintile. Students who fail a course during a repeated year are required to meet with the Student Performance Committee, and may be subject to dismissal.
Student Performance Committee

Overview

The SPC is a recommending body to the Dean of MCOM that will gather information and meet with individual students who have demonstrated unsatisfactory performance as an MCOM student. Unsatisfactory performance is constituted by poor academic performance or breach of professionalism. Poor academic performance includes failing two or more courses in each of the pre-clinical years of the core curriculum, failing one course in a repeat year, failing a course remediation exam, failing a required licensing board exam, or failing a clinical clerkship rotation. Unsatisfactory performance due to unprofessional behavior as outlined in the RVU-MCOM student handbook.

Upon gathering information, interviewing the student, and conducting appropriate investigation if needed, the SPC will deliberate on its findings and offer a recommendation to the Dean regarding the student’s future at MCOM.

Recommendations to the Dean from the SPC may include:

- Academic counseling or other counseling
- Remediation of failed course(s) or clinical rotation
- Repeat the failed course(s) or clinical rotation (this is only available for clinical phase students)
- Repeat the academic year
- Dismissal from the institution
- Other actions deemed appropriate by the SPC

Procedure

If requested to appear before the SPC, students must appear at the appointed time and place.

- The student shall receive adequate notice of the time, place, and subject of the meeting. Such written notice may be in the form of an official University email, U.S. mail, or a hand-delivered written message.
- Appearance before the SPC is mandatory. A student on clinical clerkships at a location remote from campus, may be allowed to converse with the SPC via phone or video conference.
- Legal representation is prohibited.
- The student will be given the opportunity to present a statement to the SPC in written and oral form.

Proceedings of the SPC are closed and confidential. Members of the SPC are not permitted to discuss issues brought before the SPC outside of a formal SPC meeting.

Recommendations

The SPC will make a recommendation of action to the Dean (or designee). The Dean (or designee) may accept, reject, or modify the recommendations of the SPC, which may include, but are not limited to, the following:

- Remediation of failed courses;
- Remediation of a clinical clerkship;
- Repeat of an academic year or clinical year;
- Specific remedial educational activities;
- Placement of the student on academic probation;
- Academic or other counseling;
- Dismissal from school.

Notifications

The student shall be notified of the decision of the Dean (or designee) by the Associate Dean of Student Affairs within (10) business days.

Appeals

The appeal must be based on one or more of the following: 1) a significant error in fact that materially impacted the outcome; 2) evidence of demonstrated prejudice by the Dean or the SPC that affected the outcome; 3) new material information or evidence that was not available at the time of the SPC’s consideration of this matter or was not available and could not be made available to the Dean at the time of his decision; 4) the sanction imposed is extraordinarily disproportionate to the offense committed; and 5) errors of process under the Student Handbook involving your rights that materially affected the outcome of this matter. Any new material or evidence must be submitted with the appeal.

Should the student in question decide to appeal the decision of the Dean (or designee), the appeal will be heard by the Provost (or designee). The student may appeal the decision by writing to the Provost (or designee) within five (5) business days following the date that notification is received. During the appeal, students will continue to be enrolled and should continue to attend classes or clerkships and sit for exams. The answer to the appeal will come directly from, and be signed by, the Provost (or designee). The decision of the Provost (or designee) is final.

Visiting Student Learning Opportunities

Overview
The AAMC Visiting Student Learning Opportunities (VSLO) program merged two existing visiting student programs: The Visiting Student Application Service (VSAS®) program that focused exclusively on U.S. domestic away electives and the Global Health Learning Opportunities (GHLO®) program that facilitated international mobility into the United States, from the United States to electives abroad, and from one non-U.S. location to another.

**Purpose**

The VSLO program aspires to build a community of institutions that employ unified policies and practices that do not burden students or institutions with redundant requirements. As such, the program is continually balancing and streamlining the application process while supporting institution-specific processes.

**Access**

Students will be granted access to VSLO during their second year of study (OMS II). Students will receive an email invite once the Office of the Registrar has confirmed eligibility and notified AAMC.

**Applications**

By utilizing VSLO, students will have access to search and apply for clinical clerkship electives (‘away electives’) to satisfy the credit requirements of OMS III and OMS IV of the Osteopathic Medicine program. Note: VSLO charges a per-elective application fee.

The Electronic Residency Application Service (ERAS®) streamlines the residency application process for applicants, their Designated Dean's Offices, Letter of Recommendation (LOR) authors, and program directors. By providing applicants the ability to build and deliver their application and supporting materials individually or as a package to programs, ERAS provides a centralized, but flexible solution to the residency application and documents distribution process.

**Purpose**

To provide a centralized online application service for students to use to deliver their application, along with supporting documents, to residency programs.

**Token Distribution**

Students will be granted access to ERAS at the beginning of their third year of study (OMS III). Students will receive an email invite (token) once the Office of the Registrar has confirmed eligibility and notified ERAS. The token is used to confirm student eligibility to register for MyERAS.

**Required Documents/Records**

Students are required to upload most documents via the MyERAS portal. The Office of the Registrar will upload official transcripts and the completed Medical School Performance Evaluation (MSPE).

**Letters of Recommendation**

Letters of Recommendation must be uploaded via the Letter of Recommendation Portal (LoRP) by the author of the letter. Students will need to complete and provide a Letter Request Form when requesting a Letter of Recommendation. The Letter Request Form will include...
a Letter ID, which connects the Letter of Recommendation to the student’s application in ERAS.

**Graduation Requirements for the Doctorate in Osteopathic Medicine**

An osteopathic degree is a professional degree and that leads to a license which requires physical conferral. Due to the nature of this, as outlined below, attendance at graduation is required. A student who has fulfilled all the academic requirements may be granted the DO degree provided the student:

- Satisfactorily completed the curriculum and clerkships at an AOA-accredited college of osteopathic medicine, the last two years of which have been at RVU-MCOM;
- Completed all academic requirements in no more than six years from the date of matriculation;
- Complied with all the curricular, legal, and financial requirements of the University;
- Passed all required National Board of Osteopathic Medical Examiners Licensing Examinations;
- Reached at least 21 years of age;
- Demonstrated the ethical, personal, and professional qualities deemed necessary by the faculty for the practice of osteopathic medicine;
- Demonstrated suitability for the practice of medicine as evidenced by conducting professional behavior, displaying responsibility for patient care, and exhibiting integrity in the conduct of clinical and academic activities;
- Demonstrated compliance with the conduct standards;
- Completed loan exit counseling, if applicable;
- Attended the compulsory portions of senior week, including graduation rehearsal and the graduation ceremony, at which time the degree is conferred and he or she takes the osteopathic oath.

Exceptions to the graduation attendance policy must be made in writing to the Associate Dean of Student Affairs. If an exception is granted the student must arrange another time to meet with the Dean of the COM in person, to have their degree conferred and to take the osteopathic oath; and

- Completed the AACOM Survey of Graduating Seniors.

Students must complete all the requirements for graduation, including the passing of required examinations within six (6) years of their initial matriculation into the COM, or they may be dismissed from the COM.

Degrees are not awarded solely upon the completion of any prescribed number of courses, or upon passing a prescribed number of examinations, but, in addition, when the faculty believes the student has attained sufficient maturity of thought and proficiency. Matriculation and enrollment does not guarantee the issuance of a degree without satisfactorily meeting the aforementioned curriculum and degree requirements. The process is as follows: 1) The list of graduates is sent to the faculty senate for conferral at their meeting; 2) the faculty senate sends the approved list of graduates to the Dean; 3) the Dean delivers a resolution to the Board of Trustees; 4) the Board of Trustees will vote and officially confer degrees.

RVU-MCOM Graduation includes the administration of the Osteopathic Oath, and as such is a required attendance event. Students seeking release from any Graduation related activities, including graduation week events and the ceremony, must obtain an excused absence from the Associate/Assistant Dean of Student Affairs.

All students participating in the College of Osteopathic Medicine commencement ceremony must conform to the regalia requirements for their degree as set forth in this policy. Candidates for Doctor of Osteopathic Medicine must wear the official Rocky Vista University College of Medicine regalia. Additionally, the tam should not be decorated or altered in any way.

Students will be allowed to wear university issued and approved honor cords and stoles. Stoles are issued to students for specific honors they have earned through their time at Rocky Vista University.

The Office of Student Affairs has the authority to prevent a student from participating in the graduation ceremony if the student’s attire violates the spirit of this policy. A student found in direct violation of this policy may have their degree withheld.

Any exceptions to this policy (such as use of traditional ceremonial clothing or heritage regalia) must be approved, in writing, by the Associate/Assistant Dean of Student Affairs.

**Medical Student Performance Evaluation**

The purpose of the Medical Student Performance Evaluation (MSPE) is not to advocate for the student but to provide an honest and objective summary of the
student's personal attributes, experiences, and academic accomplishments based on verifiable information and summative evaluations. Specifically, the MSPE provides a succinct chronology of a student’s entry and process through medical school, which includes the preclinical coursework and clinical clerkship records, involvement in extracurricular activities, and compliance with academic and professional policies.

The MSPE is loaded to ERAS by the Office of the Registrar and released by the system by the first day of October; this is a universal date set by ERAS/AAMC. Along with the MSPE, letters of verification, transcripts, and board score reports are released to programs as part of the interview application process. The Department of Clinical Education can provide letters of recommendation.

In addition, any incompletes or failures that have not been remediated by July 31 will be reflected accordingly in the MSPE.

**Shadowing**

In response to local, regional, and national environment related to students in the clinical workspace outside of formal curriculum, RVU has implemented a "No Shadowing" rule for all preclinical PA and COM students. PA and COM student are not to directly contact a hospital or physician anywhere in the United States to seek shadowing opportunities. Failure to adhere to this rule will be considered a breach of professional conduct and will be dealt with accordingly.

Curriculum Info

The design of the curriculum is based on a proven systems-based integrated academic model. It emphasizes interdisciplinary collaboration, guiding students to develop a holistic, and more importantly, an osteopathic approach to medicine. During the pre-clinical years, each system is studied twice, first with an emphasis on normal form and function in Year 1, followed by an emphasis on pathophysiology and a clinical approach to each system in Year 2. Basic biomedical science disciplines are integrated with clinical sciences in a fashion that reflects clinical relevancy, rather than broken down into individual segregated disciplines. The overall curriculum is scheduled in system-based blocks with intervening periods dedicated to Clinical, Academic, Reflection, Enrichment, Scholarly Activity, and Integration (CARES-I). During CARES-I students have opportunities to integrate knowledge and to shift their focus to wellness, electives, tracks, and research. Weekly schedules follow a format of faculty guided Student Directed Learning during most mornings and group Active Learning Sessions most afternoons. Assessments are formative and summative with an emphasis on learning of material and skill competency. MCOM continually correlates basic scientific information and methodology with fundamental clinical application.

Students are exposed to clinical settings and simulation beginning in their first semester and continuing throughout the first two years of coursework, giving them the opportunity to prepare for the “real world” of medicine. We believe that by adding early clinical exposure, simulation, and active learning in team or small group settings, we strengthen students’ ability to think critically, solve clinical problems and develop the skills required for continual learning throughout their careers. Professionalism and ethics are key components for a physician and are emphasized throughout the entire curricular experience at MCOM.

Third and fourth-year students are placed at one of our regional centers throughout the state and region to ensure continuity and coordination of clinical education within RVU’s vast and growing clinical training network. The competency-based curriculum is designed to fulfill our mission of training students who are competent and ready to enter graduate medical education and training, with an emphasis on preparing students to become primary care physicians.

MCOM has a dedicated faculty; established affiliations with medical centers, hospitals, and health care systems; a structured and supported rural medicine program; and a mission to educate the finest osteopathic physicians possible.

Clinical Years (OMS III & OMS IV)

Clinical Clerkships

To be eligible to participate in clinical clerkships/clerkships, students must have current health insurance, all required immunizations and antibody titers documented, be currently negative on PPD testing or have followed current COM guidelines if a positive test is present, and completed any clinical site or COM-mandated related training and testing, including RVU-approved background screening and drug testing (MRO verified).

Documentation of this information must be on file with the Office of Clinical Education and the Office of the Registrar at least 60 days prior to the start of clinical clerkships.

All procedures, protocols, and other requirements for clinical clerkships are found in the RVU-MCOM Clinical Education Manual for OMS III and OMS IV students. Students will receive this document toward the end of the second year, prior to starting clinical clerkships. It is student’s responsibility to follow all the policies and procedures in the manual.

Notice of Health Records and Criminal Background Checks
Students who have a background check that indicates prior criminal behavior may have difficulty obtaining clinical clerkship sites. Complete disclosure of all criminal activities (including alcohol related, traffic violations, and all misdemeanors, etc.) is required, whether these activities occur prior to or during medical school training. This information must be disclosed to the Associate/Assistant Dean of Student Affairs even if expunged or dismissed. Failure to do so may lead to immediate dismissal from the medical school.

The school cannot be held responsible for the lack of availability of clinical clerkship sites, based upon the decision of another entity to exclude students due to a criminal background check. Hospitals reserve the right to exclude any medical student from clinical clerkships based upon perceived health risks. The University cannot guarantee clinical student clerkships if a student has a current infectious disease that could potentially pose a health risk to patients.

**Advanced Cardiovascular Life Support (ACLS) & Basic Life Support (BLS)**

Prior to and throughout clinical clerkships (OMS III and OMS IV), students are required to maintain current certifications in both Advanced Cardiovascular Life Support (ACLS) and Basic Life Support (BLS). On-campus training may be offered. For more information, contact the Office of Clinical Education.

**Distribution of Clerkship Assignments**

Clinical clerkship sites are located primarily in Montana, with a few satellite clerkship sites in Wyoming, Idaho and Arizona. Clerkship slots are determined by lottery during the second year. The clerkship site assignment list is issued to students prior to beginning clerkships each year. All regional assignments are considered final. A student may request to change his or her assigned clerkship 90 days prior to the start of the clerkship; however, there is no guarantee that the change will be possible. Any questions or concerns should be directed to the Office of Clinical Education.

**Core Clinical Clerkships**

Core Clinical Clerkships in core discipline areas take place as 35+ patient contact hours per week. Clerkships take place typically within the students’ clerkship site region at hospitals, private offices, and clinics where RVU-MCOM has formal affiliation agreements. Students are assigned to supervising preceptors for each clerkship. Supervising preceptors are credentialed adjunct faculty of Rocky Vista University. The Department of Clinical Education receives credentialing information from prospective physicians, reviews this information and, if appropriate, will grant the physician’s request to be a preceptor for the university at an academic ranking established in accordance with established RVU policy. Credentialing policy can be found in Appendix C. Credentialed faculty of a residency program that provides students with OMS III Core Clerkships will also be credentialed as Adjunct Faculty of RVU.

The Department of Clinical Education communicates with each clerkship supervising preceptor about the students who will rotate with the preceptor and the dates that each student will be at the preceptor’s site. This communication includes student and clerkship specific information for the Preceptor and their staff, including expectations of student-patient care interaction and preceptor assessment of student performance in such encounters. Preceptors are expected to provide students with formative feedback regularly during the clerkship, with a summative evaluation given to the student in writing at the conclusion of the clerkship.

While on core clerkships, students participate in discipline specific didactics facilitated by the Clerkship’s RVU faculty Director, via virtual platforms. Such didactics occur weekly and are designed to focus student learning on boards-relevant topics, augment clinical preceptor guided learning and task students to practice oral presentation skills.

As part of their Family Medicine Core, students complete a 2-week intensive in Ob/Gyn and Pediatrics where they work with subject matter experts, high-fidelity mannequins, and virtual reality to develop critical thinking skills. Additionally, they complete two four-week rotations in an elective of their choice, as well as a week-long Fundamentals of Surgery course that gives students an immersion in surgical skills, operating room etiquette and application of professional behavior expected in various surgical settings.

With more than 600 students on Clerkships at any one-time, clinical Clerkships involve many different sites, people, hospitals, clinics and physicians, thus requiring a complex scheduling process. The number of students assigned to each clerkship is determined by mutual agreement of Hospital Administrators, Preceptors, and the Department of Clinical Education. Therefore, flexibility on assigned Clerkships is limited. RVU-MCOM reserves the right to change a student’s clerkship, subjects and schedule at any time as required due to preceptor and clerkship site availability. Those students so affected will be notified of any changes, and an appropriate replacement clerkship will be offered to the affected student, again typically within the student’s clerkship site region. If the student must be assigned to an out-of-region clerkship, the student will be given a stipend for housing required during the clerkship.

Despite apparent Clerkship openings, there will be little opportunity for change once a Clerkship has been scheduled. Clerkships may not be cancelled or
changed within 30 days of the start date. The student may not attend a Clerkship that has not been approved by the Department of Clinical Education. Credit may not be earned for such a Clerkship and the student will not be covered by malpractice insurance.

Students in clerkships in clinical settings shall be referred to as “Student Doctor ____”. If students have a doctorate in any field, they cannot use that title in any settings related to their education.

**Elective Clinical Clerkships**

Elective clinical clerkships allow students to expand their medical education in areas directly related to their career path. When available, students may choose in-network clerkships in specialties to fulfill elective requirements (e.g., Internal Medicine, Surgery, Behavioral Medicine, etc.). Each Regional Coordinator will contact their students regarding their interests and identify in-network opportunities based on Preceptor availability. Fulfilling a medical specialty interest may require students to leave their assigned region in order to augment students’ preparation for residency training.

Elective clerkships generally range from one to eight weeks. Elective clerkships are requested by the student and arranged in conjunction with the 4th year clinical coordinators at the approval of the Office of Clinical Education.

Students are required to complete an attestation form the first day of rotation via the MyVista platform. If students are not able to complete this form, they must contact Clinical Education the same day.

**Audition Clerkships**

Students are required to complete clinical training that best prepares them for residency. During the first half of the fourth year (OMS IV), students are required to complete a minimum of two audition clerkships at residency programs, though more are encouraged. The clerkships chosen must have approval of the appropriate Dean of Clinical Education or designee.

**Educational Opportunities**

**Optional Enrichment Opportunities**

**Elective Courses (Non-Clinical)**

A selection of short electives may be offered at each site to interested RVU students. These electives may cover topics just touched upon in the normal curriculum and/or may involve current hot topics in medical training. Current electives are Fundamentals of East Asian Medicine, Graphic Novels and Medicine; History of Medicine; Medical Spanish; Medicine in Film; Religion, Health & Healthcare; Vaccines. Other topics are in development and may be offered as well. All students in "Good Academic Standing" (as defined in the "Academic Policies" section of the RVU Student Handbook and Catalog) are eligible to sign up for offered electives. Course titles, descriptions, and registration information will be announced after the start of each semester. Classes will be approximately 8-16 hours in length, may occur at any time outside of the normal curriculum (i.e. evenings and weekends), and will be graded pass/fail. These electives are offered through the Tracks and Special Programs Department.

Elective options may vary by campus location and mode of delivery.

**International Clerkships**

Offered through the Department of Tracks and Special Programs. All third- and fourth-year RVU-MCOM students are encouraged to participate in at least one international clerkship. In fact, about 40% of each graduating class has completed some form of international medical training experience during their time spent at RVU.

This should be a two- to four-week excursion during their clinical years. Students may participate in one of the RVU-MCOM sponsored trips, trips planned by an outside agency, or set up their own. All students must undergo an academic and site approval process, as well as complete a travel file with the Department of Tracks and Special Programs. There are detailed guidelines as to the process for participation outlined in the MyVista Student Portal, under the Tracks & Special Programs Department tab, section titled "Global Travel for ALL Students."

**Military Medicine Program**

The Military Medicine Program is primarily for RVU-MCOM students who are slated to enter active duty service with the Army, Navy, Air Force, or Marines. Most students in this pathway have typically earned a scholarship to attend RVU-MCOM through the United States Army, United States Air Force, or the United States Navy. As such, they have acquired a service obligation of varying length to the branch of the military funding their education. On occasion, other RVU students who are a part of a Guard or Reserve Unit, or those considering military service or with prior military experience may constitute some of the Military Medicine Program members. These students should...
exhibit a high level of academic achievement and express a strong interest in becoming a United States military physician and a part of the RVU Military curriculum. This course provides an overview and introduction to military medicine.

The Military Medicine Program will incorporate immersion-based reality training, surgical simulation, information sessions, and experiences related to Medical Corps Officer military obligations, leadership/discipline, harsh military environments/field exercises, disaster stabilization/evacuation, and triage in combat environments on land, sea, and air. Liaison with community and national leaders/military officers at U.S. posts, bases, medical centers, hospitals, and others sites occurs in order to achieve the goals and objectives of this Program.

This Program spans a total of 3.5 years of the members’ core educational experience at RVU-MCOM, beginning in the second semester of the first year.

Undergraduate Fellowship Programs

Pre-Doctoral Osteopathic Teaching Fellowship

The Pre-Doctoral Osteopathic Teaching Fellowship program is designed to develop students’ skills in teaching over four prominent domains: osteopathic manipulation and other osteopathic clinical skills, clinical ultrasound, the use of medical simulation in learning, and anatomy. Teaching Fellows will be assigned responsibilities as a discipline lead in one of these four domains, but they will be expected to teach in all MCOM labs (i.e., Osteopathic Clinical Skills (OCS) and anatomy) and across all four domains as appropriate and as resources allow. Fellows will increase their proficiency in osteopathic manipulative treatment (OMT), ultrasound, and other skills necessary for their assigned focus. For instance: Anatomy-focused Fellows will develop skills in prosection, set up practical exams, and teach dissection while Fellows with a simulation focus will learn case creation and operation of medical simulation events. They will all learn to teach, develop and evaluate curriculum, and design and deliver learning modules and engaged learning sessions. In addition, Fellows will maintain and further develop their clinical skills through regular participation in clinical activities, site TBD. Fellows will complete at least one scholarly project during the fellowship.

The Osteopathic Teaching Fellowship is a highly competitive program requiring students to undergo a rigorous application and interview process. Fellows must remain in good academic standing throughout the 3rd year. Participation in the Pre-Doctoral Osteopathic Teaching Fellowship extends the student’s training at RVU by one year. Program experiences will occur during Year 4. In Year 5, Fellows return to the Year 4 Clinical Rotations curriculum. A certificate indicating successful completion of the fellowship will be awarded at graduation.

Tracks

Tracks & Electives

Learning Objectives

Upon completion of the educational activities offered through Tracks Electives, students will be able to:

1. Demonstrate professional competence in learning or enriching experiences offered through MCOM tracks or electives.

2. Apply relevant contextual information (social, methodological, and/or cultural) to health care practices.

3. Engage in expanded opportunities within areas of specific health care practice.

Tracks are optional, curricular programs, outside of the core curriculum, offered through the Department of Tracks Electives. Tracks will appear on the student’s transcript as a Concentration. There is an application process for all Tracks. The educational objectives and contents of each Track are in addition to the required core curricula and are outlined in the Track syllabi. Students may apply to one or more of the tracks towards the end of their first semester. However, they can only participate in one track. If accepted into a track, students are expected to attend all track classes and related labs in addition to the core curriculum of RVU-MCOM.

A student will stay in their chosen track through the duration of their education unless they withdraw voluntarily, are withdrawn due to violation of the track requirements, or are in violation of the Code of Student Conduct and Academic Responsibility as presented in the RVU Student Handbook and Catalog. Students who are repeating for academic reasons are not eligible for a track.

Applications for all tracks open in the fall and close towards the end of the semester. The tracks start in January of the OMS I year and follow the course of the student’s education.

Tracks are graded on an Honor/Pass/Fail basis. Each track will have its own requirements for acceptance and...
what constitutes a Pass or Honor grade. Please refer to each specific track’s syllabus for the grading requirements.

Track options may vary at each location.

**Academic Medicine and Leadership Track**

The Academic Medicine and Leadership Track is for students interested in receiving specialized training in various areas of academics and leadership development. With the expansion of medical schools and residency programs, there is a growing demand for well-trained academicians and faculty. There is also a need for physician leaders in health policy, healthcare management, hospital management, medical education, graduate medical education, and beyond to help shape healthcare in America. Students in this specialty track will learn about various, multi-faceted topics in academics, medical education, organized medicine, health policy, and leadership development. Students will also be trained in useful skills such as public speaking, presenting, meeting management, Robert’s Rules, leadership styles, and individualized leadership analysis. The goal is to groom students to be strong candidates for leadership and academic positions in the future and to make them successful in these positions when they are selected for them.

**Military Medicine Program**

The Military Medicine Program is primarily for students who are slated to enter active duty service with the Army, Navy, Air Force, or Marines. Most students in this pathway have typically earned a scholarship to attend RVUCOM-CO or RVUCOM-UT through the United States Army, United States Air Force, or the United States Navy. As such, they have acquired a service obligation of varying length to the branch of the military funding their education. On occasion, other RVU students who are a part of a Guard or Reserve Unit, or those considering military service or with prior military experience may constitute some of the Military Medicine Program members. These students should exhibit a high level of academic achievement and express a strong interest in becoming a United States military physician and a part of the RVU Military curriculum. This course provides an overview and introduction to military medicine.

The Military Medicine Program will incorporate immersion-based reality training, surgical simulation, information sessions, and experiences related to Medical Corps Officer military obligations, leadership/ discipline, harsh military environments/field exercises, disaster stabilization/evacuation, and triage in combat environments on land, sea, and air. Liaison with community and national leaders/military officers at U.S. posts, bases, medical centers, hospitals, and other sites occurs in order to achieve the goals and objectives of this Program.

This Program spans a total of 3.5 years of the members’ core educational experience at RVU, beginning in the second semester of the first year.

---

**Course Descriptions**

If the course description is missing, please contact the Office of the Registrar.

**MOM 1001: Foundations I**

This course is intended to build the foundations for a successful medical school experience using teambuilding, interpersonal interaction, reflective practice, critical listening and reading, community engagement, and hands-on skills practice. Week one includes activities centered on belonging, growth mindset, problem- and team-based learning, wellness, and resiliency. Week two emulates the format of the preclinical curriculum with student-directed learning and engaged learning sessions (e.g., labs, team-based learning, etc.) focused on foundational elements of evidence-based medicine, ethics, humanism, and health systems science.

**Credits** 3

**Prerequisites** None

**MOM 1011: Osteopathic Clinical Skills I**

The Osteopathic Clinical Skills I course is the first of a four-part clinical medicine course designed to help medical students develop the knowledge, skills, and attitudes essential to becoming a competent osteopathic physician. The course centers on three integrated domains: 1. Principles of Clinical Medicine (PCM), 2. Osteopathic Manipulative Medicine (OMM), and 3. Clinical Ultrasound (US). In each of these three domains, students will build upon previously-learned scientific knowledge, clinical concepts, and haptic skills. Students will demonstrate knowledge and skill competency through written exams and observational assessments, including standardized patient (SP) encounters. Clinical reasoning and attitudes will be assessed by the SPs and faculty during clinical simulation and small group activities with peers. Throughout this course, principles of medical ethics, evidence-based medicine, health systems science, lifestyle medicine, professionalism, and interpersonal skills will be taught, reinforced, and assessed.

**Credits** 7

**Prerequisites** None
MOM 1012: Osteopathic Clinical Skills II

The Osteopathic Clinical Skills II course is the second of a four-part clinical medicine course designed to help medical students develop the knowledge, skills, and attitudes essential to becoming a competent osteopathic physician. The course centers on three integrated domains: 1. Principles of Clinical Medicine (PCM), 2. Osteopathic Manipulative Medicine (OMM), and 3. Clinical Ultrasound (US). In each of these three domains, students will build upon previously-learned scientific knowledge, clinical concepts, and haptic skills. Students will demonstrate knowledge and skill competency through written exams and observational assessments, including standardized patient (SP) encounters. Clinical reasoning and attitudes will be assessed by the SPs and faculty during clinical simulation and small group activities with peers. Throughout this course, principles of medical ethics, evidence-based medicine, health systems science, lifestyle medicine, professionalism, and interpersonal skills will be taught, reinforced, and assessed.

Credits 7
Prerequisites None

MOM 1021: Molecular and Cellular Mechanisms

Molecular and Cellular Mechanisms course is an intensive, multidisciplinary course that incorporates the fundamental aspects of cell and molecular biology, biochemistry, genetics, research methods, and histology. This course promotes student learning of the biochemical, molecular and cellular mechanisms underlying normal development, physiology, and metabolism, thus providing a foundation for understanding functional defects and disease processes.

Credits 3
Prerequisites None

MOM 1031: Musculoskeletal System I

The Musculoskeletal System I course is an intensive, multidisciplinary course focused on the normal structure and function of the musculoskeletal system, as well as the biomedical science that underlies disorders associated with skeletal muscle, bone, cartilage, vasculature, and peripheral nerves. Elements will include embryology, histology, physiology, biochemistry, pharmacology, neuroanatomy, and gross anatomy of the musculoskeletal system.

Credits 6
Prerequisites None

MOM 1041: Cardiovascular/Respiratory System I

The Cardiovascular/Respiratory System I course is an intensive, multidisciplinary course focused on the normal structure and function of the cardiovascular/respiratory system, as well as the biomedical science that underlies disorders associated with this system. Elements will include embryology, histology, physiology, biochemistry, pharmacology, neuroanatomy, and gross anatomy of the cardiovascular/respiratory system.

Credits 5
Prerequisites None
MOM 1051: Microbiology, Immunology, and Infectious (MIID)

The Hematology/Immunology components of the course emphasize the fundamental knowledge necessary to understand the normal function of hematopoiesis, hemostasis and the immune system. It is designed to provide the student with an overview of these systems, including the aberrant processes that lead to hematopathology and immunopathogenesis.

Microbiology and Infectious Disease provide a foundational introduction to pathogens, pathogenic mechanisms, and infectious diseases. This course covers bacteria, viruses, fungi, parasites, and prions in their roles as infectious agents. The course integrates immunology content and how it relates to the body’s reactions to pathogens. It will serve as a means to migrate from acquisition of basic scientific knowledge of pathogens to utilization of such knowledge in understanding clinical infectious disease processes. You will come to understand the structure, pathogenicity, laboratory findings, and clinical aspects of numerous pathogens. Throughout the course, the language of medicine is emphasized in conjunction with etiologic mechanisms, clinical features, differential diagnoses, and morphology. This course includes introductory pharmacology of antimicrobials in order to facilitate discussion of infectious disease diagnosis and treatment. In addition, important aspects of clinical laboratory involvement and data utilization in the diagnosis of disease are discussed as appropriate.

Credits 6
Prerequisites None

MOM 1061: Gastrointestinal System I

The Gastrointestinal (GI) System course is an intensive, multidisciplinary course focused on the normal structure and function of the gastrointestinal and hepatobiliary systems, as well as the biomedical science that underlies disorders associated with these systems. Elements will include embryology, histology, physiology, biochemistry, neuroanatomy, and gross anatomy of the gastrointestinal system.

Credits 3
Prerequisites None

MOM 1071: Renal System I

The Renal System I course is an intensive, multidisciplinary course focused on the normal structure and function of the renal system, as well as the biomedical science that underlies disorders associated with this system. Elements will include embryology, histology, physiology, biochemistry, neuroanatomy, and gross anatomy of the renal system.

Credits 3
Prerequisites None

MOM 1081: Endocrine/Reproductive System I

The Endocrine/Reproductive System I course is an intensive, multidisciplinary course focused on the normal structure and function of the endocrine/reproductive system, as well as the biomedical science that underlies disorders associated with this system. Elements will include embryology, histology, physiology, biochemistry, neuroanatomy, and gross anatomy of the endocrine and reproductive systems.

Credits 5
Prerequisites None

MOM 1091: Neuroscience System I

The Neuroscience System course is an intensive, multidisciplinary course focused on the normal structure and function of the neurologic system, head and neck anatomy, as well as the biomedical science that underlies disorders associated with this system. Elements will include embryology, histology, physiology, biochemistry, pharmacology, neuroradiology, behavioral neuroscience, neuroanatomy, and gross anatomy of the neurologic system.

Credits 8
Prerequisites None

MOM 1101: Transition to Clinical Medicine

Transition to Clinical Medicine is a multidisciplinary introduction to pathologic processes. Elements will include pathophysiology, immunology, tissue injury, and neoplasms. Molecular/cellular biologic mechanisms, including genetic aspects, and mechanisms of health and disease will be illustrated.

Credits 3
Prerequisites None
MOM 2002: Foundations II

This course is intended to expand on the foundations for a successful medical school experience using teambuilding, interpersonal interaction, reflective practice, critical listening and reading, community engagement, and hands-on skills practice. This course will integrate evidence-based medicine, ethics, humanism, and health systems science, as well as introduce the general principles of pharmacology (i.e., pharmacodynamics, pharmacokinetics, drug biotransformation, and clinical trials).

Credits 1

Prerequisites
None

MOM 2014: Osteopathic Clinical Skills IV

The Osteopathic Clinical Skills IV course is the last of a four-part clinical medicine course designed to help medical students develop the knowledge, skills, and attitudes essential to becoming a competent osteopathic physician. The course centers on three integrated domains: 1. Principles of Clinical Medicine (PCM), 2. Osteopathic Manipulative Medicine (OMM), and 3. Clinical Ultrasound (US). In each of these three domains, students will build upon previously-learned scientific knowledge, clinical concepts, and haptic skills. Students will demonstrate knowledge and skill competency through written exams and observational assessments, including standardized patient (SP) encounters. Clinical reasoning and attitudes will be assessed by the SPs and faculty during clinical simulation and small group activities with peers. Throughout this course, principles of medical ethics, evidence-based medicine, health systems science, lifestyle medicine, professionalism, and interpersonal skills will be taught, reinforced, and assessed.

Credits 7

Prerequisites
None

MOM 2013: Osteopathic Clinical Skills III

The Osteopathic Clinical Skills III course is the third of a four-part clinical medicine course designed to help medical students develop the knowledge, skills, and attitudes essential to becoming a competent osteopathic physician. The course centers on three integrated domains: 1. Principles of Clinical Medicine (PCM), 2. Osteopathic Manipulative Medicine (OMM), and 3. Clinical Ultrasound (US). In each of these three domains, students will build upon previously learned scientific knowledge, clinical concepts, and haptic skills. Students will demonstrate knowledge and skill competency through written exams and observational assessments, including standardized patient (SP) encounters. Clinical reasoning and attitudes will be assessed by the SPs and faculty during clinical simulation and small group activities with peers. Throughout this course, principles of medical ethics, evidence-based medicine, health systems science, lifestyle medicine, professionalism, and interpersonal skills will be taught, reinforced, and assessed.

Credits 7

Prerequisites
None

MOM 2015: Behavioral Health

The Behavioral Health course provides students with a thorough presentation of the medical specialty of psychiatry. The course introduces foundational concepts including the diagnostic manual, the psychiatric interview, laboratory and imaging studies in psychiatry, and developmental psychology. Psychiatric diagnoses including epidemiology, criteria, relevant neuroanatomy, and approved treatment options including psychopharmacology will be highlighted. Additional topics including psychotherapies, interventional psychiatry, complimentary and integrative modalities, safety assessments, psychiatric hospitalization, and population specific treatment will be considered.

Credits 2

Prerequisites
None
MOM 2032: Musculoskeletal System II
The Musculoskeletal System II course is an intensive, multidisciplinary course focused on pathophysiology, pharmacology, diagnosis, and treatment of major disorders of the musculoskeletal and integumentary systems. After completion of the course, each student will be able to recognize presenting signs and symptoms, formulate differential diagnoses, and produce appropriate treatment plans.
Credits 3
Prerequisites None

MOM 2042: Cardiovascular/Respiratory System II
The Cardiovascular/Respiratory System II course is an intensive, multidisciplinary course focused on pathophysiology, pharmacology, diagnosis, and treatment of major disorders of the cardiovascular/respiratory system. After completion of the course, each student will be able to recognize presenting signs and symptoms, formulate differential diagnoses, and produce appropriate treatment plans.
Credits 7
Prerequisites None

MOM 2056: Reproductive System II
The Reproductive System II course is an intensive, multidisciplinary course focused on pathophysiology, pharmacology, diagnosis, and treatment of major disorders of the reproductive system. After completion of the course, each student will be able to recognize presenting signs and symptoms, formulate differential diagnoses, and produce appropriate treatment plans.
Credits 3
Prerequisites None

MOM 2062: Gastrointestinal System II
The Gastrointestinal System II course is an intensive, multidisciplinary course focused on pathophysiology, pharmacology, diagnosis, and treatment of major disorders of the gastrointestinal, hepatobiliary, and pancreatic systems. After completion of the course, each student will be able to recognize presenting signs and symptoms, formulate differential diagnoses, and produce appropriate treatment plans.
Credits 4
Prerequisites None

MOM 2066: Hematologic/Lymphatic System II
The Hematologic/Lymphatic System II course is an intensive, multidisciplinary course focused on pathophysiology, pharmacology, diagnosis, and treatment of major disorders of hematopathology and immunopathogenesis. All blood cell lines will be discussed in the context of pathophysiology and pathology of both non-neoplastic and neoplastic diseases. After completion of the course, each student will be able to recognize presenting signs and symptoms, formulate differential diagnoses, and produce appropriate treatment plans.
Credits 3
Prerequisites None

MOM 2072: Renal System II
The Renal System II course is an intensive, multidisciplinary course focused on pathophysiology, pharmacology, diagnosis, and treatment of major disorders of the renal system. After completion of the course, each student will be able to recognize presenting signs and symptoms, formulate differential diagnoses, and produce appropriate treatment plans.
Credits 5
Prerequisites None

MOM 2081: Pre-Clinical Capstone
This course is designed to prepare students for successful completion of the COMLEX Level 1 exam and the USMLE Step 1 exam. This course will focus on material review, exam preparation, and exam taking strategies in addition to allowing for dedicated board study time.
Credits 1
Prerequisites None
MOM 2082 : Endocrine System II
The Endocrine System II course is an intensive, multidisciplinary course focused on pathophysiology, pharmacology, diagnosis, and treatment of major disorders of the endocrine system. After completion of the course, each student will be able to recognize presenting signs and symptoms, formulate differential diagnoses, and produce appropriate treatment plans.

Credits 3
Prerequisites None

MOM 2092 : Neuroscience System II
The Neuroscience System II course is an intensive, multidisciplinary course focused on pathophysiology, pharmacology, diagnosis, and treatment of major disorders of the neurologic system. Relevant and necessary neuroanatomy, neurophysiology, neurohistology, neuroembryology, and neuroradiology are discussed. After completion of the course, each student will be able to recognize presenting signs and symptoms, formulate differential diagnoses, and produce appropriate treatment plans.

Credits 4
Prerequisites None

tracks

GLB 5050: Global Medical Outreach
This is an RVUCOM medical outreach elective opportunity open to all first and second medical students. The goal of this course is to provide medical students a cross-cultural medical education experience through study and work outside of the United States in order to understand its challenges and apply the knowledge learned to their practice of medicine.

Students will be provided the opportunity to provide diagnostic and patient care services, participate in preventive and public health events, and work in areas such as minor surgery, pharmacy, triage, and clinical laboratory settings.

Credits 2
Prerequisites Students must be currently in good academic standing. Course may be repeated up to 2 times (4 credits maximum).

MIL 5111: Service Cultures and Officer Basics
Military Medicine Fundamentals – Service Cultures and Officer Basics serves as the first and foundational block in the Military Medicine Track, introducing participants to military culture and traditions, federal law governing the Department of Defense, and the Ethics and Laws of War. This course is part of the required Core Content for the Award of Military Medicine Concentration.

The Military Medicine track is a special option that offers additional education opportunities not provided in the core curriculum. The program provides an overview and introduction to 1st and 2nd year students regarding clinical scenarios commonly faced by military medical officers, preparation for military medicine residencies, and education on military lifestyle integration. Students may also have the opportunity to liaison with leaders, educators, and military officers at U.S. posts, bases, medical centers, hospitals, and other sites in order to achieve the goals and objectives of the Track. This Program spans 3.5 years of the military student members’ educational experience at RVU, beginning in the second semester of the 1st year. This includes the three semesters of structured academics during the first two years, and ongoing mentoring, residency match preparation and research opportunities during the clinical years. The Military Medicine track includes immersion-based experiential reality training, Tactical Combat Casualty Care (TCCC), information sessions, and experiences related to Medical Corps Officer military obligations. Focused discussions include topics such as leadership, discipline, military environments, field exercises, disaster response, and triage/evacuation in combat environments on MIL 5111 Page 2 of 6 land, sea and air. Expert guests, military officers, and appropriate civilian physicians, and teachers will be hosted virtually and on campuses. This Track collaborates with other MCOM Special Tracks where synergies are evident and possible.

Credits 1
Prerequisites *REQUIRED Core Content for Award of Military Medicine Concentration
RWM 5101: Rural Medicine I
This elective course exposes students to the unique challenges and opportunities inherent in rural healthcare delivery. Students will consider work perspectives and experiences from multiple rural physicians. They will also identify and investigate healthcare issues unique to rural areas through a journal review. These identified topics and issues are presented by each student to the class followed by a discussion exploring their potential solutions and barriers.
Credits 0.5
Prerequisites none

HUM 5501: REAL Medicine
Critical Appraisal of Literature course is designed to teach students valuable literature appraisal techniques to keep up with research developments in your field. These skills include being able to quickly discern an article’s probable impact and value.
Credits 0.5
Prerequisites None

HUM 5502: REAL Medicine Fundamentals II
REAL Medicine Fundamentals II introduces students to topics in research, medical education, and leadership development. Expanding on content from REAL Medicine Fundamentals I, this course will continue to help students develop as researchers and leaders. This course is part of the required Core Content for the Award of REAL Medicine Concentration.
Credits 1

IMT 5101: Integrative Medicine
Integrative Medicine I introduces students to integrative medicine which is an approach to healthcare that focuses on all aspects of your health and well-being including the physical, emotional, spiritual, and mental. This course ties the application of integrative medicine closely to the 1st tent of osteopathic principles: the body is a unit, the person is a unit of body, mind, and spirit.
Credits 1

MIL 5112: Military Medicine II - Mass Casualty Events, Medical Planning, and Combat Care
Military Medicine II – Mass Casualty Events, Medical Planning, & Combat Care serves as the second block in the Military Medicine Track, expanding upon key military medicine concepts including triage, mass casualty events, medical planning and ongoing Tactical Combat Casualty Care (TCCC). This course is part of the required Core Content for the Award of Military Medicine Concentration.
Credits 1
MOM 5001 : Models of Transformation in Healthcare

This 0.5-hour credit elective course, Models of Transformation in Healthcare 1, is designed to introduce Osteopathic Medical students to crucial aspects of physician wellness through mind-body medicine skills. The course encompasses two main components: “Physician Wellness: Mind-Body Skills for Osteopathic Medical Students” and “Ways to Break the Habit of Being Yourself: Guided Imagery for the 1st Year Medical Student.”

Component 1: Physician Wellness-Mind-Body Skills for Osteopathic Medical Students

This component focuses on the holistic well-being of physicians, particularly Osteopathic Medical students, by introducing mind-body medical skills. Students will explore evidence-based practices that promote physical, mental, and emotional wellness. Mindfulness, stress reduction techniques, and strategies for maintaining a healthy work-life balance will be covered. The course emphasizes the importance of self-care for health professionals and equips students with practical tools to enhance their overall well-being throughout their medical careers.

Component 2: Ways to Break the Habit of Being Yourself Guided Imagery for the 1st Year Medical Students

This component focuses on the power of guided imagery as a mind-body medicine modality. First year medical students will delve into the neurophysical underpinnings of the mental imagery process, constructing an understanding of imagery involving the senses. The course explores the evidence base supporting the use of guided imagery, particularly in conditions such as trauma and pain. Students will learn to apply guided imagery techniques for personal and patient well being.

Overall, “Models of Transformation in Healthcare 1 aims to equip Osteopathic Medical students with essential mind-body medicine skills and a nuanced understanding of guided imagery, fostering personal wellness and providing valuable tools for future medical practice. importance of physician wellness.

Credits 0.5
Prerequisites None

MOM 5580 : Independent Study-Caring for the Underserved

Students’ interests are wonderfully diverse and varied. This makes it challenging for MCOM to provide sufficient instruction on all the potential desired topics within the time allotted for instruction. In response to this common challenge, this elective course permits the enrolled students to select a single subtopic within the GRWUT track (Global Medicine, Rural Medicine, Wilderness Medicine, Urban Underserved, or Tribal Medicine) with which they will design a focused study.

Once enrolled in the course, the student meets with the course director to define the timeline for course completion (typically 2-4 weeks), course learning objectives (CLOs), PLOs, EPAs, resources, and method of assessment. Students communicate regularly with the course director to provide progress updates at the agreed-upon intervals. The course concludes upon successful achievement of the CLOs, completion of the assessment, and an exit interview with the course director.

Credits 0.5
Prerequisites None
OST 4901: Pre-Doctoral Osteopathic Teaching Fellowship
The Pre-Doctoral Osteopathic Teaching Fellowship program is designed to develop students’ skills in teaching over four prominent domains: osteopathic manipulation and other osteopathic clinical skills, clinical ultrasound, the use of medical simulation in learning, and anatomy. Teaching Fellows will be assigned responsibilities as a discipline lead in one of these four domains, but they will be expected to teach in all MCOM labs (i.e., Osteopathic Clinical Skills (OCS) and anatomy) and across all four domains as appropriate and as resources allow. Fellows will increase their proficiency in osteopathic manipulative treatment (OMT), ultrasound, and other skills necessary for their assigned focus. For instance: Anatomy-focused Fellows will develop skills in prosection, set up practical exams, and teach dissection while Fellows with a simulation focus will learn case creation and operation of medical simulation events. They will learn to teach, develop curriculum, and design and deliver learning modules and engaged learning sessions. In addition, Fellows will maintain and further develop their clinical skills through regular participation in clinical activities, site TBD. Fellows will complete at least one scholarly project during the fellowship. The Pre-Doctoral Osteopathic Teaching Fellowship is a highly competitive program requiring students to undergo a rigorous application and interview process. Fellows must remain in good academic standing throughout the 3rd year. Participation in the Pre-Doctoral Osteopathic Teaching Fellowship extends the student’s training at RVU by one year. Program experiences will occur during Year 4. In Year 5, Fellows return to the Year 4 Clinical Rotations curriculum. A certificate indicating successful completion of the fellowship will be awarded at graduation.

Credits 24
Prerequisites
Acceptance into the Physician-Scientist Track.

SRG 4020: Surgical Specialty PGY1 Prep Course
This course is designed for students who have matched into one of the surgical specialties. The course consists of team-based learning activities, multiple simulations and demonstration of proficiency in certain skills. Although the operative simulations are general surgery-based, the skills obtained will be applicable to all surgical specialties.

Credits 2
Variable Credits
Prerequisites
None

Student Services

The Office for Diversity, Equity, and Inclusion
The Rocky Vista University Office for Diversity, Equity, and Inclusion (DEI) is a resource for students, staff, and faculty regarding diversity, equity, and inclusion opportunities and challenges in healthcare education across the Colorado, Utah, and Montana campuses. Our goal is the promotion and practice of DEI throughout every sector and dimension of the University to the benefit of the entire RVU community. Contact us for more information or services at 720-875-2825.

The Frank Ritchel Ames Memorial Library
The Frank Ritchel Ames Memorial Library fosters information literacy by providing students with access and the skills necessary to use the most current and impactful medical information for the health of their future patients. Students, faculty, residents, and staff—in Colorado, Utah, Montana, or elsewhere—share access to the same digital collection, which contains books, journals, and databases necessary to learn and practice healthcare. All physical library locations provide access to print copies of required and recommended textbooks, as available. Library users can enjoy a warm and collegial space staffed by highly-trained information professionals who play a significant role in the development of future healthcare providers learning to practice medicine with compassion, integrity, and excellence.
IT Help Desk

The Information Technology (IT) Help Desk is available to assist students both on- and off-campus with technical issues they may encounter throughout enrollment. The IT Help Desk is generally available Monday through Friday from 8:00 am until 5:00 pm.

Students enrolled at the Colorado campus can email cohelpdesk@rvu.edu for assistance; students enrolled at the Utah campus can email uthelpdesk@rvu.edu for assistance; students enrolled at the Montana campus can email mthelpdesk@rvu.edu.

MyVista Student Portal

Students are provided access to the MyVista Student Portal upon acceptance. MyVista provides students with access to unofficial transcripts, the academic calendar, the ability to add and drop courses, run a degree audit, view financial information, receive important news and alerts, and access the Learning Management System, which houses online content for courses, including lecture notes for courses, syllabi, video lecture links, and additional course material, as determined by course faculty. Grades for exams, quizzes, and other course assignments are also available on the MyVista Student Portal, as well as final course grades.

Office of Simulation in Medicine and Surgery

The Office of Simulation in Medicine and Surgery (SIMS) serves all programs at RVU to provide dynamic, hands-on learning opportunities. Simulation events and workshops occur regularly and are popular with students. Offerings include high-fidelity electronic manikins, human-worn task trainers, virtual reality simulated patients, live actor standardized patients, ultrasound, and surgery courses. SIMS is involved in significant research in the healthcare simulation field and holds the prestigious status as a Comprehensive Accredited Education Institute by the American College of Surgeons. In the Office of SIMS resides the Division of Clinical Medicine and Surgery, with a cast of engaged and enthusiastic faculty specialists.

Office of Testing

The Office of Testing (OOT) is in charge of preparing, administering, and processing scores for all written exams, quizzes, and rubrics-scored essay assignments, providing score reports to faculty, and administering post-exam reviews. The OOT is available to answer student questions about testing, provide technical assistance with testing software, arrange make-up exams and reviews for excused absences, and work with the Directors of Preclinical Education, Program Directors, Deans, and Course Directors to ensure the quality and security of evaluation material.

The OOT designs the proctoring and administration of exams to meet the highest standards of academic integrity. With student cooperation, the Office of Testing seeks to provide the most secure, consistent, and low-distraction exam environment possible, modeled after the environment of NBME Board exams.

RVU uses ExamSoft™, a secure item banking and electronic testing software platform, to create and administer all written exams and quizzes. Students are required to own and maintain a laptop that meets the minimum requirements of Examplify™, the exam taker application of ExamSoft. Those requirements are here: Examplify MSRs

Requirements are subject to frequent change, so the OOT recommends that students check them before purchasing or updating a laptop for use at RVU. If a student has a last-minute issue with their personal laptop, the OOT has loaner laptops available to borrow. OOT asks that students limit use of this option to emergencies, and no more than five times per student, per semester.

Please contact officeoftesting@rvu.edu for the Colorado and Utah campuses, or MTOOT@rvu.edu for the Montana campus, with any questions, testing concerns, or to notify OOT of unexpected absences from testing events.

Detailed exam day instructions, best practices, and testing protocol for each program can be found on the Office of Testing tab under Students on MyVista.

Print Center

The Print Center streamlines the University’s print needs. It reduces outsourcing and incorporates additional services, including business card production, poster printing, lamination, binding, and more. RVU departments and students are able to send their print jobs directly to the Print Center through an online system and can pick them up at their convenience.

The Print Center is located at the Colorado campus on the second floor inside the library and is open Monday through Friday from 8:00 am to 5:00 pm MST. RVU Utah and RVU Montana print jobs are ordered online, processed in Colorado, and then shipped to the appropriate campus for pick up. The Print Center may be contacted through email at printcenter@rvu.edu or by phone at (720) 874-2459.
Writing Center

The Rocky Vista University Writing Center assists writers in the development of effective written communication, assignments, and professional documents, offering guidance from start to finish—from brainstorming and outlining to revising and editing. Through audience- and genre-centered instruction, specific feedback, and access to resources, the RVU Writing supports faculty and students alike.

One-on-one and small-group sessions are tailored to support students and build more accomplished writers in any type of written work, including:

- Reflective writing;
- Proposals, reports, and reviews;
- Abstracts and manuscripts;
- Personal statements; and,
- CVs, resumes, and other professional writing documents.

Sessions are designed to help students:

- Understand assignment expectations;
- Generate, organize, and develop ideas;
- Analyze, synthesize, and argue;
- Summarize, paraphrase, and document sources; and,
- Recognize and revise issues with grammar and syntax.

Campus Safety & Security

Campus Safety and Security

The Department of Campus Safety has several ways to ensure that the campus community remains a safe and secure learning environment, including CCTV surveillance cameras, an access-controlled facility, advanced fire control system, and the RAVE Emergency Notification System. The Campus Safety team is committed to providing safety and security services in a professional and consistent manner. RVU strives to provide these services with integrity, professionalism, and timeliness. Campus Safety personnel are present on campus from 6 a.m. to midnight, Monday – Friday and from 8 a.m. to midnight on Saturday & Sunday. They provide proactive patrols, safety escorts, investigations, crime prevention, and many other services. Students, staff, or faculty who witness a crime, accident, emergency, suspicious person, or any other emergency should promptly call the Department of Campus Safety at (406) 901-2722 or contact emergency services by dialing 911. The Department of Campus Safety should be informed of all 911 calls so assistance can be provided to local law enforcement and/or other emergency personnel.

Students, staff, and faculty will receive emergency notifications, including campus closures and weather delays via SMS text messages and email notifications. In the event a Timely Warning Notice is issued, the campus community will be notified as soon as possible through our Emergency Notification Systems in the form of SMS text messages, emails, and/or bull horn/public address system. Students, staff, and faculty will receive a text message notification of RVU campus closures or emergencies.

CLERY Act

Rocky Vista University shares many of the same interests and concerns as other colleges and communities, including a concern about crime. The University has been fortunate not to have experienced a significant number of crimes, but one should not be misled into thinking the campus is crime-free. There is always the possibility of a criminal act occurring against a member of the RVU community despite the best efforts of the Safety and Security Department and the administrative staff. A truly safe campus can only be achieved through the shared responsibility of all members of the RVU community.

The University is committed to maintaining a safe environment to support a healthy, learning-centered campus. This commitment includes making necessary physical improvements that promote safety and well-being; the revision and updating of policies, procedures, and rules; and an obligation to hold accountable those who choose to commit crimes or violate rules and regulations.

Every student, faculty, staff member, and visitor has an individual responsibility to be aware of their personal safety, to properly utilize college resources, to make positive choices, and to use common sense. Crimes, violations, hate crimes, suspicious persons or activity, and safety issues should be reported upon discovery through the appropriate channels as described in this Handbook. Please take the time to familiarize yourself with the emergency procedures and the important information on the website. Updates, timely warnings, and important information regarding safety on campus will be communicated by emails, fliers, TV monitors, and other presentations.

For more information, view the RVU Annual Security Report.

To obtain a copy of the Daily Crime Log, please visit the Security Office on either campus.
Firearms, Weapons, and Other Prohibited Items Policy

The purpose of this policy is to establish restrictions regarding the possession, carry, transportation and storage of firearms and weapons and other dangerous items on Rocky Vista University properties or areas of responsibilities. This policy applies to all RVU students, faculty, staff, guests, visitors and contractors.

Possession of firearms, ammunition, explosives, fireworks, and/or other dangerous weapons, which may cause fear, alarm, or threat to another person within or upon the grounds, buildings, or other facilities of RVU or at any RVU-sponsored or supervised functions or events is prohibited.

However, if the individual is legally permitted to transport, possess, purchase, receive, transfer, or store the firearm in the state of the RVU location where they are working, studying, or visiting, it is allowable for the firearm(s) to be stored in the individual’s private vehicle in the University parking lot. The firearm must be locked securely in the motor vehicle or in a locked container attached to the motor vehicle while the motor vehicle is not occupied; and the firearm is not in plain view from the outside of the motor vehicle. Any employee or student who intends to have a permitted firearm in their vehicle while in the University parking lot must complete a disclosure form, available at the Department of Campus Safety and Security. If the weapon is a loaded handgun, employee or student must provide proof on the form that the employee or student has a concealed carry permit valid in the state of the RVU location where they are working or attending school. In no event may a person store or possess a loaded rifle, shotgun, or muzzle-loading rifle in a vehicle in the University parking lot.

Any person(s) in violation of this policy shall be subject to University disciplinary action and/or criminal charges.

Exception to this policy would be granted to city, state, or federal law enforcement officers on RVU property for official business.

Other Prohibited Weapons or Dangerous Items:
RVU disallows the following items within its facilities due to existing RVU policies, fire safety laws, as well as federal, state, and local laws. Possession of any of the following items may result in seizure and/or destruction of the items by an RVU representative and may result in disciplinary action:

- Rifles, weapons, ammunition and related paraphernalia, BB guns and air guns.
- Narcotics, recreational or illicit drugs and drug-related items.
- Explosive materials.
- Realistic replicas of firearms or other weapons.
- Gasoline, kerosene and other fuels.
- Firecrackers and fireworks.
- Combustible decorations.
- Candles, lanterns, incense, etc. (No open flames).
- Toxic and hazardous chemicals, except cleaning chemicals and approved lab chemicals.
- Unauthorized cooking equipment (i.e., grills, toaster ovens, hot pots, hot plates, fry pans, etc.).
- Immersion heaters.
- Any other items that may affect the safety or security of the University.

Additional Information:
Employees or students who are aware of violations of this policy are required to report such violations to the Department of Campus Safety and Security.

Clinical Rotations:
Students on Clinical Rotations must learn and adhere
to the policy of the facility in which they are rotating, as RVU policy does not supersede any outside facility’s policies in this regard.

**Lost and Found Policy**

This policy is intended to ensure that items reported lost or found are properly accounted for and, in the case of items found, returned to their rightful owners, donated, recycled, or disposed of.

The Department of Campus Safety and Security (CSS) will receive and collect lost and found items and store them in the property room until claimed by the owner or for a period of 90 days. After 90 days, any unclaimed property will be donated, recycled, or destroyed.

All found Property must be logged into the Automated Records Management System (ARMS) and assigned a property tag. When an item is claimed, a release of property waiver must be completed and signed before any item is returned to the owner. The waiver is to be filed in an appropriate folder and the ARMS entry must be updated. Items turned in will be held for a period of 90 days from date of intake. At the determination of the CSS Manager or designee, all remaining unclaimed items will be purged from the inventory by one of the following methods: donated, recycled, destroyed, or returned to the finder. Cash money turned in to CSS will be logged by the same process and will be secured within the property room. Unclaimed money will be distributed to the Student Government Association (SGA) at the conclusion of the current 90-day period.

Security will not hold the following items: Clothing, notes, notebooks, coffee mugs, thermoses, water bottles, plates, bowls, eating utensils, food, or drinks.

Any items collected as evidence will be given to the CSS Manager or designee, to be stored in a secure location until handed over to law enforcement for further investigation.

**Personal Safety and Security**

Rocky Vista University, together with the clinical site and the student, share the responsibility for ensuring that adequate policies and procedures are in place regarding the safety and security of the students and faculty in all locations where instruction occurs. This includes sites where clinical rotations occur, as well as off-site training locations for University-sponsored events.

The Physician Assistant Program will provide information on best practices for personal safety and security during the student’s initial orientation and again prior to the beginning of clinical rotations. Students will be encouraged to become familiar with all safety and security policies in effect at all sites and off-campus events. Finally, all preceptors will be expected to communicate their site-specific policies and safety considerations with students and faculty involved at their location.

RVU as an educational institute falls under the jurisdiction of the *Clery Act*. The annual security report can be found by taking the hyperlink.

**Student ID Badge Policy**

University policy requires all students obtain and carry their RVU Student ID Badge while on campus. It is primarily used for identification, entry into the RVU buildings, for verification of RVU status, and for using University services, such as access to the building. The badge may be obtained at the Security Office on each campus.

Completion of the Critical Student Information Survey is required to obtain the RVU Student ID Badge. Use of the badge by anyone other than the person to whom it was issued is strictly prohibited. The cardholder is responsible for any and all losses associated with their card. RVU Student ID Badges are the property of RVU and must be returned on request.

It is the responsibility of the University to ensure the safety and security of all its students and employees. All students are expected to wear their RVU ID Badge at all times when in RVU buildings. Current students may request the replacement of ID badges according to the following information.

Campus Safety and Security will issue one (1) ID badge at no charge to current employees and students; however, subsequent requests to replace additional ID badges will result in a fee of $10 each. Replacement for ID badges will be referred to the Safety and Security Department and payment will be made through the Finance Department prior to the creation of a new ID badge.

**Marketing and Communications**

The RVU Marketing Department provides many services for members of the RVU community:

**Hometown News Program**

Upon matriculation and graduation, students will be given the opportunity to have a press release written about their accomplishment and sent to their hometown newspaper of choice. Students will receive information
on the Hometown News program via email. It can also be accessed by sending an email to marketing@rvu.edu.

Press Releases

If students, faculty, or staff would like to have a press release created and distributed about an event, accomplishment (either individually or departmentally), please contact marketing@rvu.edu.

Vista View Newsletter

The Vista View is a quarterly publication that is produced by the Marketing Department with the intention of communicating news, events, and accomplishments to the entire RVU community. Students and employees are encouraged to send in information about any accomplishments (such as posters, presentations, publications) and milestones (engagements, marriage, births) to marketing@rvu.edu.

Event Marketing

When students or clubs are holding events, they can contact Marketing for assistance in planning, materials (such as fliers), and/or social media and regular media marketing.

Photography

The Marketing Department will be happy to provide photography services for student events. Please notify Marketing of the event at least two weeks in advance to ensure adequate coverage.

Apparel and Products

Marketing approval is required for any apparel or merchandise that students or employees would like to produce that uses the RVU logo, wordmark, mascot, or any other reference to the University or its programs. The Marketing Department will ensure compliance in several areas:

- The RVU logo or wordmark, if used, has not been tampered with, distorted, or changed in any way. This policy is true for fliers and graphics created by students as well.
- If a one-color logo or wordmark is used, it must be one of six colors: black, white, gray, RVU red, RVU tan, or RVU cream.
- If one of the following words/phrases appear—Rocky Vista University, RVU, Rocky Vista University College of Osteopathic Medicine, RVUCOM, RVUCOM-SU, RVU PA, Physician Assistant Program, MSBS—that it be one of the following fonts: Michaelangelo, Arial, Palatino Linotype, or Bell MT. If none of these choices are available, simifont options will be considered and must be approved by the Marketing Department. Additionally, if any of these phrases are used, they must be one of the six official colors (listed above).
- If using RVU, RVU PA, MSBS, RVUCOM, they must be in all capital letters.
- When using RVU abbreviation, COM or PA must also be abbreviated. Likewise, when writing out "Rocky Vista University" in full, "College of Osteopathic Medicine" or "Physician Assistant Program" must also be written out in full.

Website

The Marketing Department is responsible for maintaining and updating the RVU website. If a student or employee has suggestions or revisions for the website, they should contact marketing@rvu.edu. Any revisions or suggestions is subject to the Website Policy, which can be accessed at DynamicPolicy.

Email Signature Policy

RVU utilizes a standardized email signature for students and employees, in order to maintain consistent branding for the University, to exhibit professionalism, and to identify spam emails. The Marketing Department is responsible for maintaining and enforcing this policy, as well as ensuring the appropriate branding and representation of the University. Examples of the signature and instructions for setting it up are located in DynamicPolicy under "Email Signature Policy and Instructions".

Social Media Policy

The Marketing Department is responsible for maintaining and enforcing this policy, as well as ensuring the appropriate branding and representation of the University. The Marketing Department reserves the right to make changes to the social media policy at any time.

Affiliated User Sites

Affiliated user sites are defined as accounts or pages that are officially associated with and approved by RVU. These accounts or pages may be run by student clubs or interest groups, tracks, departments, or fellows. Any accounts or pages that bear the RVU name or branding must receive approval or action will be taken to close the account or page. To become an affiliated user site, the administrator should contact marketing@rvu.edu. Any existing account or site that bears the RVU name or branding must receive approval through the above process or action will be taken to close the account/site.

Posts must be service- or education-based or should further the objective of the student club, interest group,
track, or department. It is the responsibility of the account or page administrator to ensure that posts accurately reflect RVU's core values. Communications on social media sites must comply with all applicable University policies.

Official Class Groups on Facebook

Facebook groups offer a place for students to talk, share information, post advertisements or requests, and support one another. Every year, a representative of the Marketing Department will create a Facebook group for each new matriculating class. As this is an official RVU account, it will be subject to the Code of Conduct. Students may not create other groups for the class, though they may create personal groups that are not linked to RVU by name or branding.

Membership is open to students who have matriculated into or plan to matriculate into the cohort for the group page they are requesting membership for. Students from other classes may also join if they are representatives from the following student organizations: Student Government Association (SGA); Class Council; Peer Mentor; Tutor; or Ambassador. Students from other classes who do not meet that criteria and who wish to promote events, housing opportunities, or other appropriate content to the page are welcome to reach out to the Marketing Department or to student leadership to have the content posted to the page on their behalf.

Posting on Personal Sites

Members of the RVU Community are encouraged to share University news and events that are a matter of public record with their social networks. However, despite the site or account being personal, if there is a violation of RVU’s Code of Conduct or Appropriate Conduct and Discipline, students or employees may still face disciplinary action, particularly if RVU is tagged or mentioned in the post.

Confidentiality

Proprietary information about RVU should not be posted on social media. This includes, but is not limited to, personal information about students, alumni, employees, contractors, or partners. Information obtained from internal or confidential meetings—such as financial, legal, or operational information, strategies, and forecasts—should not be posted on social media or affiliated user sites.

Patients and their right to privacy is protected by the Health Insurance Portability and Accountability Act (HIPAA). Never disclose a patient’s name or identifiable information on social media, nor use their image without their permission (or that of a guardian, if the patient is a minor).

Protected information must not be disclosed through social media. This includes information about students’ personal or educational records, and all other sensitive information outlined in the US federal Family Educational Rights and Privacy Act (FERPA). Violations of FERPA or HIPAA via social media will be referred to the Office of Student Affairs (students) or Human Resources (employees). Additionally, violations may result in an official site or account being deactivated. To view the Social Media Policy in full, it can be found on DynamicPolicy.

Professional Communications

Students and employees are expected to abide by the Code of Conduct and behave professionally in all types of communication—whether in public or private conversation. Online forms of communication include but are not limited to forums, gaming platforms, messaging apps, and social media platforms. The following communication is specifically prohibited:

- Personal attacks on any RVU community member, including fellow students, faculty, or staff.
- Any language which can be described as vulgar, obscene, threatening, abusive, intimidating, or harassing.
- Discriminatory comments, hate speech, or hostility towards others on account of race, religion, sex, ethnicity, nationality, citizenship, disability, sexual orientation, or gender identity.
- Any posts which are derogatory, disrespectful, demeaning, or disparaging.
- Content determined to be inappropriate, including offensive, obscene, racist, homophobic, sexist or sexually explicit language or photos.

Inappropriate communication should be referred to the Office of Student Affairs and may result in disciplinary sanctions, including reprimand, probation, suspension, or even dismissal. Refer to the section in this Handbook "Disciplinary Sanctions" for additional information.

Student Affairs

Student Services

RVU-MCOM will provide a wide range of resources, opportunities and services to enhance student experience at MCOM including:

- Career Advising and Planning
- Disability Services
- Educational Learning Support
- Mental Health and Wellness
- Student Interest Groups
- Student Government
Welcome to Career Advising at MCOM

As a future osteopathic physician, you are embarking on a fulfilling and impactful journey. At MCOM, we understand that the journey to becoming a physician is not just about acquiring knowledge; it's also about shaping your future career path in medicine. We are dedicated to fostering your personal and professional growth, ensuring that you are well-prepared to excel in the rapidly evolving world of medicine.

Through personalized one-on-one career counseling sessions, workshops, networking events, and access to a wealth of career information, we will offer you the support you need to pursue a rewarding career in the field of osteopathic medicine. The road to residency is a developmental process that involves four key phases:

- Understanding Yourself
- Exploring Options
- Choosing a Specialty
- Preparing for residency

MCOM career advisors offer a holistic approach towards helping students prepare for fulfilling careers in osteopathic medicine. Career advisors work collaboratively with students to answer questions and concerns regarding the career decision-making process. Career-specific programing and individualized career counseling sessions help students understand their own preferences and interests, learn about the 160+ specialties, and create and build CVs in their pre-clinical years, and, during clinical years, understand competitiveness for specialties, prepare for audition externships, interviews, and residency. Students will have access to a site with useful career resources, including a roadmap outlining important steps to take each year as they prepare for residency and work toward achieving their professional goals.

Disabilities and Academic Accommodations

Rocky Vista University recognizes disability as an integral part of diversity and is committed to creating an inclusive and equitable educational environment for students with disabilities. Students are required to meet the technical standards set forth by the college/program in which they are enrolled, with or without reasonable accommodations. RVU complies with federal and state law prohibiting discrimination against any applicant or enrolled student on the basis of race, color, religion, sexual preference, age, disability, or other protected status. In accordance with its obligations under the Americans with Disabilities Act of 1990 and Section 5.04 of the Rehabilitation Act of 1973, RVU does not discriminate against qualified individuals with disabilities in admission or in access to programs and activities.

Students who may qualify for accommodations include those who have received accommodations previously or who have been diagnosed with a condition impacting one or more major life activities (such as caring for
oneself, performing manual tasks, learning, walking, seeing, hearing, breathing, and working). Although students with temporary illness or injury are not considered disabled by law, every reasonable effort to accommodate their needs will be exercised.

If you feel you meet these criteria or would like to discuss your eligibility for accommodations, you are encouraged to complete our registration form.

Requests for accommodations and services are evaluated on an individual, case-by-case basis and are dependent on a student’s functional limitations within a given environment. Through an interactive dialog facilitated by Disability Services, all relevant factors, including the impact of the disability on the student’s access to a course or a program, supporting clinical or diagnostic documentation, and the relevant learning outcomes of the given program, will be considered. Requests for accommodations that would result in an alteration of the fundamental nature or learning outcome of a course or a program are not reasonable and will not be approved.

Clinical documentation or other diagnostic information submitted to Disability Services is kept confidential and is released to a third party only with the student’s written permission or as required by law. General information about a student’s disability and accommodation request/s, however, may be shared with other RVU officials or, in limited circumstances, with third parties who have a legitimate educational need to know. The student’s disabilities file is maintained by the RVU Disability Officer and is held separately from the student’s official academic record.

Students requesting accommodations must follow the process outlined below.

Accommodations Request Process

Step 1: Complete the Initial Accommodation Request Form

It is the student’s responsibility to initiate the process with Disability Services as soon as possible after committing to attend RVU, in order to ensure timely approval and implementation of approved accommodations. While requests may be submitted at any point throughout the year, students should consider that the interactive process, including documentation review and eligibility notification, typically requires two (2) weeks. Incomplete documentation may delay the review process.

Step 2: Schedule an Appointment with Disability Services

After submitting your Initial Accommodation Request Form, you will receive an email with a link to schedule your Welcome Meeting with Disability Services.

Meetings can be held virtually for students on either campus or in-person for students on the Utah campus.

Our first priority is meeting with you. Please do not delay submitting your request due to documentation concerns. The Disability Officer will discuss acceptable types of documentation during your Welcome Meeting, if you are initially unsure what you may submit.

Step 3: Welcome Meeting

The Welcome Meeting is the beginning of an interactive process in which the Disability Officer will talk with you about disability-related barriers you may be experiencing, any history of accommodations you may have, as well as possible accommodations that may be reasonable and appropriate in your situation. You will also have the opportunity to ask questions, provide information and otherwise engage with the Disability Officer to understand how accommodations work within a medical education setting and what to expect relative to next steps in the process of establishing your eligibility.

Step 4: Documentation Review and Notification of Eligibility Determination

Upon receipt of the Initial Contact Form-Request for Accommodations and other supporting documentation, the student’s eligibility for accommodations will be reviewed and the student will receive a Notification of Eligibility Determination. The eligibility notification will specify the accommodations for which the student has been approved, and copies will be sent to the Office of Testing and appropriate RVU officials. Once approved for accommodations, the Testing Center will send out instructions for the administration and location of exams with accommodations.

Sometimes a student may be asked to provide additional comprehensive documentation/information if previous documentation is outdated or does not include sufficient relevant information to determine the impact of the disability. Last-minute submission of documentation may result in unavoidable delays in consideration of requested services.

Please note that accommodations granted by the University are not applicable retroactively and will not affect past administrative or academic actions, or past performance evaluations and examinations.

Annual Accommodation Renewal Process

Students must request to renew their accommodations at the start of each academic year. Failure to request a renewal of accommodations may delay timely
implementation. In order to verify their intent to continue using accommodations in subsequent academic years, students should complete the Accommodation Renewal Request Form prior to the first day of Fall semester instruction.

National Board Accommodations

Students seeking accommodations for licensure exams (USMLE, COMLEX, and PANCE) must directly petition the National Board of Medical Examiners (NBME), the National Board of Osteopathic Medical Examiners (NBOME), or the National Commission on the Certification of Physician Assistants (NCCPA).

ADA Accommodation Review Request

If you have concerns about the support provided by Disability Services or related procedures, or if you believe that you have been denied reasonable accommodations as requested, we recommend initiating a conversation with the Disability Officer to discuss your concerns. If the matter remains unresolved or if you disagree with a determination reached by the Disability Officer, you may appeal the decision by submitting an Accessibility Grievance Form. This form will be reviewed by the ADA Committee, and you will be contacted within seven (7) days of submission. You will then be given an opportunity to share additional details regarding your specific situation and the reason for your appeal request.

If a student is denied accommodations by the ADA Committee, the student can appeal the decision to the Associate/Assistant Dean of Student Affairs.

Educational Learning Support

The Office of Student Affairs provides educational support designed to enhance student learning at MCOM. Services are offered through individual consultation tailored to meet the individualized academic needs of the student and integrated with the course curricula. Regularly scheduled small and large group sessions provide evidence-based learning strategies to prepare and enhance academic performance. Services include study skills assessment along with intervention strategies, tutoring, ADA accommodations and preparation for licensure exams.

One-on-One Consultation

- Confidential individual consultation regarding evidence-based study strategies, time management, and academic performance
- Evaluate effectiveness of current study practices
- Structured intervention to increase learning productivity and efficiency

- Individual preparation for courses, clerkships, and licensure examinations
- Referrals to on campus professionals
- Information about resources to enhance learning
- Assistance with learning disabilities
- Individual Learning Assessments

Board Review Prep

- Developing individualized Study Plans
- Resources
- Study Prep sessions by faculty and outside experts
- Individualized support

Assessment/Individualized Educational Guidance and Planning

- Study skills strategies
- Test-taking strategies
- Time management strategies
- Reading
- Resources
- Additional support services

Physical and Mental Health

Students at Rocky Vista University may seek diagnostic, preventative, and therapeutic health services at the provider of their choice.

Information is provided on this website as a resource to assist students in seeking health care services that are available both on campus and off-campus.

Tutoring

Tutoring Services

Given the challenges inherent in processing the volume and complexity of medical school content, efficiency becomes a highly valued tool for creating a manageable flow and sense of balance. The Montana College of Osteopathic Medicine’s (MCOM) Tutoring Services exist as one of the more powerful (and free) efficiency resources available.
The team of MCOM Tutors are brought together by a shared demonstration of academic excellence in pre-clinical courses, interest in medical education, and supporting the efforts of peers. Members see themselves serving in a consultative capacity to assist Tutees in their efforts. In this regard, effort is made to tailor services in a way that uses learning strategies to meet the needs of pre-clinical students.

Services Offered

- **One-to-One Virtual Consultation**: Every learner is unique, and Individual Course Tutors (ICT) are available to provide customized assistance. To schedule an appointment with an ICT, access Navigate.
- **Topic Review Presentations**: Tutors will present weekly ‘high yield’ topic review content at the end of each week, tips, and considerations for success. Watch for announcements regarding dates and times for topic review content in the Teams MCOM Tutor Hub.
- **Virtual Semester Preview Sessions**: To help students anticipate specific challenges and needs of courses, tutors provide informative sessions at the beginning of each term or block with helpful information, resources, and tips for success. Watch for announcements regarding dates and times.

Getting the Most From Your Tutoring Session

1. **Attempt the material on your own first**: A case study, SDL, or homework problem can be intimidating to start, but we would encourage you to do as much as possible before the session even if you only read the questions. That way, you will know where you are getting stuck.

2. **Start with a growth mindset**: Some students believe their intelligence, strengths, or talents in a subject are fixed and static. We would encourage you to adopt a growth mindset. RVU MCOM Tutoring Services believes all of us can develop our skills and becoming better through dedication and effort. Believing that you are capable of learning and understanding goes a long way in helping you work through the problem.

3. **Be patient**: Learning new material takes time; your brain needs to develop new connections and needs to process new information into your long-term memory. Stick with it and forgive yourself if understanding doesn’t come easily or takes you longer than expected.

4. **Be resourceful**: Tutoring is just one resource available on campus, and sometimes, knowing who and where you can ask your question half the battle. You can go your Tutors, instructors, the library, ScholarRX, PERs, study groups, peers who have taken the class before, and tutoring resources within Learning and Educational Programs with questions regarding your. There are also other materials you can consult like QBanksearches, MyVista, condensed notes, topic review slides, Panopto videos, or other SDL to help you learn the material in other ways more beneficial to your learning strategies.

5. **Establish positive study habits**: There are certain study habits that may have been successful in the past but will not serve you well at RVU MCOM. Cramming the night before an exam or seeking help too late may lead to frustration, and you may not get through all the material you need. Plan your time accordingly, and ask our tutors or your Educational Learning Specialist to learn more about efficient, evidence-based learning.

6. **Set realistic expectations**: You may have a thousand questions you have for your Tutor However, sessions may last between 45 minutes to an hour, which may not give you time to work on everything you may want to. Come to the session with a set of priorities and an agenda. Consider what can be reasonably accomplished in the time you have.

7. **Take Responsibility of your Performance**: Our Tutors act as guides, but they are ultimately not responsible for your performance in the class. We do not guarantee letter grades for visits with Tutoring Services. Your Tutor may guide you a certain way, but it is always your choice to listen to any advice that they may offer. Going to tutoring is just one contributing factor to someone’s final grade, and we encourage you to use as many resources as possible to continue growing and to own the work you do.

What to Expect from Your Session

Our Tutors do not complete homework, quizzes, or exams for students. Instead, Tutors will:

- Collaboratively work with students by asking appropriate questions.
- Act as guides through a problem rather than fix or check a problem for a student.
- Assist with the learning process.
- Coach students on systems content presented by the student.
- Provide constructive feedback while the student makes their own changes.

To contact the tutoring team, please email mttutoring@rvu.edu or email Educational Learning Specialist, Kelsey Hulgan at khulgan@rvu.edu.

</table>
Acronym or Term | Meaning
--- | ---
Grade Point Average (GPA) | An indication of a student’s academic achievement while enrolled at RVU. GPA is calculated as the total number of quality points received over a given period divided by the total number of credits attempted.

HIPAA | The Higher Learning Commission; RVU’s current institutional accreditor.

HLC | Interprofessional Education; occasions when two or more professions learn with, from, and about each other to improve collaboration and the quality of care.

IRB | A minimum 50-60-minute session in a laboratory or clinical setting that requires “hands on” instruction.

Laboratory Lecture | A standard didactic presentation involving direct faculty instruction in a classroom setting, lasting a minimum of 50 minutes. Each hour of lecture (50 minutes) assumes a minimum of two (2) hours of out-of-class student work.

LMS | Learning Management System; a software application for the administration, documentation, tracking, reporting and delivery of educational courses. RVU currently utilizes an integrated LMS that can be accessed directly through MyVista.

LOR | Letter of Recommendation, typically written by a faculty member or preceptor (author). Used when applying for clinical clerkship clerkships and/or residency applications.

Lottery | Managed by the Department of Clinical Education, the Lottery is the Distribution of Clerkship Assignments process in which current OMS II student doctors are assigned a geographical region to complete core clinical clerkships during OMS III and, if necessary, OMS IV.

MODS | The Medical Operational Data System used to complete the initial electronic portion of the Military GME application.

MSPE | Medical School Performance Evaluation; can also be referred to as a Dean’s Letter. Honest and objective document summarizes a student’s personal attributes, experiences, academic accomplishments, and summative evaluation. All fourth-year medical students will have their MSPE composed and finalized before October 1st of each year and uploaded into ERAS by the Office of the Registrar.

MyVista | RVU’s online portal where students, faculty, and staff can log into and access important program, financial, campus, and educational information, as needed.

NBME | National Board of Medical Examiners (administers the USMLE exams)

NBOME | National Board of Osteopathic Medical Examiners (administers the COMLEX exams)

New Innovations | System used to manage clinical clerkship clerkships throughout the third and fourth years of the DO program.

NMS | National Matching Services; service that manages the osteopathic match (among others)

NRMP | National Resident Matching Program; service that manages the allopathic match

OMM | Osteopathic Manipulative Medicine

OPP | Osteopathic Principles and Practice

OSCE | Objective Structured Clinical Examination

Post-Exam Review (PER) | Faculty-led review of examination questions and results following a major examination.

Preceptor | A practicing physician who gives personal instruction, training, and supervision to a medical student or young physician (assigned for each clinical clerkship clerkship).

Quality Points | The cumulative points earned in a given program for coursework completed and grade(s) earned. Points are calculated by multiplying the numeric grade (in the DO program) or the assigned quality points based on the letter grade (MSBS program) by the number of credit hours for the course.

Remediation | The opportunity to remedy a previously-failed attempt

Rocky the Roadrunner | RVU’s mascot for the Southern Utah campus

Rocky the Fighting Prairie Dog | RVU’s mascot for the Colorado campus

RVUCOM | Rocky Vista University College of Osteopathic Medicine

RVUCOM-SU | Rocky Vista University College of Osteopathic Medicine - Southern Utah

San Francisco Match | Residency and Fellowship matching service for select specialties.

Semester Credit Hour (SCH) | A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally-established equivalency that reasonably approximate no less than 45 hours of instructional/non-instructional time for every one (1) credit.

Shadowing | Opportunity available to students to observe the daily life of a doctor and obtain insight from professionals about their experiences and how they view their field.

Shelf Exam | Required exam administered by the Office of Clinical Education after the completion of each Core Clerkship.

SOAP Notes | An acronym for subjective, objective, assessment, and plan, a SOAP note is a method of documentation employed by healthcare providers to write out notes in a patient’s chart.

Standardized Patient (SP) | Someone who has been trained to portray, in a consistent, standardized manner, a patient in a medical situation.

Titer/Titer Lab Report | A titer (pronounced TIE-der) is a laboratory test that measures the presence and amount of antibodies in blood. If the test is positive (above a particular known value) the individual has immunity. If the test is negative (no immunity) or equivocal (not enough immunity) you need to be vaccinated. A Titer Lab Report is generated by the lab that tested the blood sample. The Titer Lab Report must include the test type, exact values (reference range), signature, and date to be acceptable.

Tracks | Extracurricular admission-based concentrations within the DO program that invite students to explore and experience a particular area of medicine closely.

Transcript | An official record of a student’s work, showing courses taken and grades achieved.

Urology Match | Residency match program for medical students seeking residency in Urology.

USMLE | United States Medical Licensing Examination

Visiting Student Learning Opportunities (VSLO) | The AAMC VSLO program merged two existing visiting student programs: the Visiting Student Opportunities (VSLO) Application Service (VSAS®) program that focused exclusively on U.S. domestic (formerly VSAS) away electives and the Global Health Learning Opportunities (GHLO®) program that facilitated international mobility into the U.S., from the U.S. to electives abroad, and from one non-U.S. location to another.
